

infrastructure. The applicant's HCP describes the minimization and mitigation measures proposed to address the effects of the project on the scrub-jay.

DATES: Written comments on the ITP application and HCP should be sent to the South Florida Ecological Services Office (see **ADDRESSES**) and should be received on or before September 4, 2012.

ADDRESSES: You may request documents by email, U.S. mail, or fax (see below). These documents are also available for public inspection by appointment during normal business hours at the office below. Send your comments or requests by any one of the following methods.

Email: Trish_Adams@fws.gov. Use "Attn: Permit number TE74559A-0" as your message subject line.

Fax: Trish Adams, 772-562-4288, Attn.: Permit number TE74559A-0.

U.S. mail: Trish Adams, HCP Coordinator, South Florida Ecological Services Field Office, Attn: Permit number TE74559A-0, U.S. Fish and Wildlife Service, 1339 20th Street, Vero Beach, FL 32960-3559.

In-person drop-off: You may drop off information during regular business hours at the above office address.

FOR FURTHER INFORMATION CONTACT: Ms. Trish Adams, HCP Coordinator, South Florida Ecological Services Office, Vero Beach, Florida (see **ADDRESSES**), telephone: 772-469-4232.

SUPPLEMENTARY INFORMATION: Wayne Cimato (applicant) anticipates taking 1 acre of habitat used for breeding, feeding, and sheltering by the Florida scrub-jay (*Aphelocoma coerulescens*) in Charlotte County, Florida. The Service listed the scrub-jay as threatened on June 3, 1987 (52 FR 20715). The listing became effective July 6, 1987.

Applicant's Proposed Project

We received an application for an incidental take permit (ITP), along with a proposed habitat conservation plan (HCP). The applicant requests a 2-year permit under section 10(a)(1)(B) of the Act (87 Stat. 884; 16 U.S.C. 1531 *et seq.*). If we approve the permit, the applicant anticipates taking 1 acre of Florida scrub-jay habitat for construction of a single family residence and associated infrastructure. The project is located on parcel 402413451002 at latitude 26.993037, longitude -81.866754, Charlotte County, Florida.

The applicant proposes to mitigate for the loss of 1 acre of occupied scrub-jay habitat by on-site establishment of a 2-acre conservation easement to be

managed by Charlotte Harbor Environmental Center, along with a fee of \$6,000.00 for perpetual maintenance of the donated land, within 180 days of permit issuance or before the commencement of clearing and construction activities, whichever is sooner.

Our Preliminary Determination

The Service has made a preliminary determination that the applicant's project, including the proposed mitigation and minimization measures, will individually and cumulatively have a minor or negligible effect on the species covered in the HCP. Therefore, issuance of the ITP is a "low-effect" action and qualifies as a categorical exclusion under the National Environmental Policy Act (NEPA) (40 CFR 1506.6), as provided by the Department of the Interior Manual (516 DM 2 Appendix 1 and 516 DM 6 Appendix 1), and as defined in our Habitat Conservation Planning Handbook (November 1996).

We base our determination that issuance of the ITP qualifies as a low-effect action on the following three criteria: (1) Implementation of the project would result in minor or negligible effects on federally listed, proposed, and candidate species and their habitats; (2) implementation of the project would result in minor or negligible effects on other environmental values or resources; and (3) impacts of the plan, considered together with the impacts of other past, present, and reasonably foreseeable similarly situated projects, would not result, over time, in cumulative effects to environmental values or resources that would be considered significant. As more fully explained in our environmental action statement and associated Low-Effect Screening Form, the applicant's proposed project qualifies as a "low-effect" project. This preliminary determination may be revised based on our review of public comments that we receive in response to this notice.

Next Steps

The Service will evaluate the HCP and comments submitted thereon to determine whether the application meets the requirements of section 10(a) of the Act. The Service will also evaluate whether issuance of the section 10(a)(1)(B) ITP would comply with section 7 of the Act by conducting an intra-Service section 7 consultation. The results of this consultation, in combination with the above findings, will be used in the final analysis to determine whether or not to issue the

ITP. If it is determined that the requirements of the Act are met, the ITP will be issued for the incidental take of the Florida scrub-jay.

Submitting Comments

If you wish to submit comments or information, you may do so by any one of several methods. Please reference permit number TE74559A-0 in such comments. You may mail comments to the Service's South Florida Ecological Services Office (see **ADDRESSES**). You may also comment via email to trish_adams@fws.gov. Please also include your name and return address in your email message. If you do not receive a confirmation from us that we have received your email message, contact us directly at the telephone number listed under **FOR FURTHER INFORMATION CONTACT**. Finally, you may hand deliver comments to the Service office listed under **ADDRESSES**.

Availability of Public Comments

Before including your address, phone number, email address, or other personal identifying information in your comments, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority

This notice is provided pursuant to Section 10 of the Act and NEPA regulations (40 CFR 1506.6).

Dated: July 26, 2012.

Larry Williams,
Field Supervisor, South Florida Ecological Services Office.

BILLING CODE 4310-55-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[FWS-R5-ES-2012-N098;
FXHC1122055COM0Z5_123_FF05E00000]

Adoption and Notice of Availability of a Final Environmental Assessment for the Penobscot River Restoration Project

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: The U.S. Fish and Wildlife Service (Service) hereby gives notice of

its intent to adopt the Federal Energy Regulatory Commission's (Commission) existing Final Environmental Assessment (FEA) for the Application for Surrender of License of the Veazie, Great Works, and Howland Projects.

The FEA, issued on May 18, 2010, evaluates the environmental impacts that would result from the Commission approving the applications for license surrender. The Penobscot River Restoration Project (PRRP) seeks to restore diadromous fish to the Penobscot River and key tributaries in accordance with the Lower Penobscot River Basin Comprehensive Settlement Agreement (Agreement), to which the U.S. Department of the Interior (Department) is a signatory. The Service intends to approve mechanisms to assist with funding the PRRP because it will provide substantial benefits for diadromous fish. Based on the Service's independent evaluation, adoption of the FEA would meet the Department's and the Service's National Environmental Policy Act (NEPA) procedures and guidelines, as the Service is funding the precise actions, the effects of which have already been analyzed by the Commission. As part of that process, the Service is recirculating the FEA as its final Environmental Assessment in accordance with the Service's adoption requirements.

DATES: We will accept comments received or postmarked on or before August 20, 2012. Comments submitted electronically using the Federal eRulemaking Portal (see **ADDRESSES** section, below) must be received by 11:59 p.m. Eastern Time on the closing date.

ADDRESSES: *Document availability:* You may obtain copies of the notice and the FEA on the Internet at <http://www.regulations.gov> at Docket Number FWS-R5-ES-2012-0046, or at <http://www.fws.gov/mainefieldoffice/index.html> (Web site for the Service's Field Office in Maine, or by mail from the Service's Maine Field Office (see **FOR FURTHER INFORMATION CONTACT**). The full administrative record is available through the Commission's eLibrary at <http://www.ferc.gov/docs-filing/eLibrary.asp>. To use eLibrary, enter the docket number (either P-2403, P-2312, or P-2721) to access the document. For assistance, contact the Commission's online support toll free at (866) 208-3676, or TTY at (866) 208-3372.

Comment submission: You may submit written comments by one of the following methods:

Electronically: Go to the Federal eRulemaking Portal: <http://www.regulations.gov>. In the Search box, enter

FWS-R5-ES-2012-0046, which is the docket number for this notice. Then, on the left side of the screen, under the *Document Type* heading, click on the *Notices* link to locate this document and submit a comment.

By compact disk (CD) or hard copy: Submit by U.S. mail or hand-delivery to: Public Comments Processing, Attn: FWS-R5-ES-2012-0046; Division of Policy and Directives Management; U.S. Fish and Wildlife Service; 4401 N. Fairfax Drive, MS 2042-PDM; Arlington, VA 22203.

We request that you send comments only by the methods described above. We will post all information received on <http://www.regulations.gov>. This generally means that we will post any personal information you provide us (see the Public Comments section below for more information).

FOR FURTHER INFORMATION CONTACT: Steve Shepard, Maine Field Office, by mail at 17 Godfrey Drive, Suite #2, Orono Maine 04473; by telephone at (207) 866-3344, extension 116; or by electronic mail at steve_shepard@fws.gov.

SUPPLEMENTARY INFORMATION: The Service hereby gives notice of its intent to adopt the Commission's existing FEA for the Application for Surrender of License of the Veazie, Great Works, and Howland Projects (FERC Project Nos. 2403, 2312 and 2721, respectively) (Project). The FEA, issued on May 18, 2010, evaluates the environmental impacts that would result from the Commission approving the applications for license surrender for the Veazie, Great Works, and Howlands hydroelectric projects. The FEA makes it clear that surrender of the licenses would lead to removal of Veazie and Great Works Dams and construction of a nature-like fish bypass around the Howland Dam, which are key elements of the PRRP. The dams are located in the towns of Veazie, Old Town, and Howland in Penobscot County, Maine.

The PRRP seeks to restore diadromous fish to the Penobscot River and key tributaries in accordance with the Lower Penobscot River Basin Comprehensive Settlement Agreement (Agreement), to which the Department is a signatory. The Service intends to approve grants, cooperative agreements, memoranda of agreement or understanding, or other administrative mechanisms to assist with funding the PRRP because the project will provide substantial benefits for diadromous fish.

The May 2010 FEA assessed the environmental effects of five alternatives of the PRRP: (1) No action; (2) the proposed action (the removal of

the Veazie and Great Works Dams and the construction of a nature-like fish bypass at the Howland Dam); (3) the removal of all three dams; (4) the removal of the Veazie and Great Works Dams and surrender in place at the Howland Project; and (5) the surrender in place of all three projects. The Service commented on the draft FEA and is satisfied that all of its comments have been adequately addressed by the Commission in the FEA. Based on its review, the Service finds that the FEA would satisfy the Department's and the Service's NEPA compliance requirements with respect to the Service's decision to provide funds for the PRRP. Therefore, by this notice, the Service is recirculating the FEA for written public comment to meet its NEPA (40 CFR 1506.3 and 1506.6) requirements for the approval of future administrative mechanisms or funds in support of the PRRP. The Service encourages interested persons to review the FEA and submit written comments.

Availability of Documents

Those who do not have access to the Web site or cannot visit our office can request copies by telephone at (207) 866-3344 or by letter to the Maine Field Office (see **ADDRESSES**).

Location

The dams are located in the towns of Veazie, Old Town, and Howland in Penobscot County, Maine. They are currently operated as hydroelectric facilities under a Federal license with the Commission.

Background

The Commission's FEA was based on license applications from the Penobscot River Restoration Trust, a not-for-profit organization founded to implement the PRRP on behalf of the parties involved in the Agreement. The Service is a party to the Agreement, along with other State and Federal agencies, nongovernmental organizations, and PPL Corporation, which owned the hydroelectric facilities and three dams at the time of the Agreement. The specific purpose of the PRRP is to restore diadromous fish to the Penobscot River. Diadromous fish are species that use both marine and freshwater habitats during their life cycles. The species can be anadromous like Atlantic salmon, which are born and grow in freshwater, migrate out to sea to finish growing, and migrate back to freshwater, and for many species their natal river, to spawn. The species can also be catadromous like American eel, which are born and grow at sea, migrate to freshwater rivers, ponds, and lakes where they finish growing, and

migrate back to their natal area at sea to spawn. Diadromous fish are one of the Service's trust resources for which the Service has been given specific responsibilities under Federal law. The Service's trust resources include migratory birds, interjurisdictional fishes (fish species that may cross State lines and include diadromous fish), federally listed threatened or endangered species, some marine mammals, and lands owned by the Service such as National Wildlife Refuges. The PRRP is consistent with the Service's mission to conserve trust resources. Therefore, the Service intends to assist in funding the PRRP through a variety of administrative mechanisms.

The FEA evaluates five alternatives, including the no action alternative. Details of these alternatives and their environmental effects are described in the FEA. The Service intends to approve grants, cooperative agreements, memoranda of agreement or understanding, or other administrative mechanisms to assist with funding the PRRP. Those future Federal actions trigger the need for compliance with NEPA. Based on its review, the Service finds that the FEA adequately addresses appropriate alternatives and their environmental effects and accurately describes the future actions that the Service may fund. The Service finds, therefore, that the FEA meets the Department's and the Service's NEPA procedures and guidelines and is appropriate for adoption.

Public Comments

The Service invites the public to comment on the Service adopting the FEA in order to comply with NEPA in association with future decisions to fund the PRRP (see **DATES**). You may submit your comments and materials concerning the notice by one of the methods listed in **ADDRESSES**. We request that you send comments only by the methods described in **ADDRESSES**.

If you submit a comment via <http://www.regulations.gov>, your entire comment—including any personal identifying information—will be posted on the Web site. We will post all hardcopy comments on <http://www.regulations.gov> as well. If you submit a hardcopy comment that includes personal identifying information, you may request at the top of your document that we withhold this information from public review. However, we cannot guarantee that we will be able to do so.

Comments and materials we receive, as well as documents associated with the notice, will be available for public inspection on <http://www.regulations.gov>

at Docket No. FWS-R5-ES-2012-0046, or by appointment, during normal business hours, at the Service's Maine Field Office (see **FOR FURTHER INFORMATION CONTACT**). You may obtain copies of the notice on the Internet at <http://www.regulations.gov> at Docket No. FWS-R5-ES-2012-0046, or by mail from the Service's Maine Field Office (see **FOR FURTHER INFORMATION CONTACT**).

Conclusion

Based on the information summarized above, the Service intends to adopt the Commission's FEA to fully comply with the regulations for implementing NEPA for Federal funding decisions the Service may make in the future. After the close of the comment period, the Service anticipates issuing a Finding of No Significant Impact (FONSI) in conjunction with adopting the FEA. The FONSI will be available on the Internet at <http://www.regulations.gov> at Docket Number FWS-R5-ES-2012-0046, and at <http://www.fws.gov/maineoffice/index.html> (Service's Maine Field Office Web site), or may be obtained by mail from the Service's Maine Field Office (see **FOR FURTHER INFORMATION CONTACT**).

Authority

This notice is provided pursuant to NEPA regulations (40 CFR 1506.3 and 1506.6).

Dated: July 17, 2012.

Henry Chang,

Acting Regional Director.

Endangered Species; Marine Mammals; Receipt of Applications for Permit

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of applications for permit.

SUMMARY: We, the U.S. Fish and Wildlife Service, invite the public to comment on the following applications to conduct certain activities with endangered species, marine mammals, or both. With some exceptions, the Endangered Species Act (ESA) and Marine Mammal Protection Act (MMPA) prohibit activities with listed species unless Federal authorization is acquired that allows such activities.

DATES: We must receive comments or requests for documents on or before September 4, 2012. We must receive requests for marine mammal permit public hearings, in writing, at the address shown in the **ADDRESSES** section by September 4, 2012.

ADDRESSES: Brenda Tapia, Division of Management Authority, U.S. Fish and Wildlife Service, 4401 North Fairfax Drive, Room 212, Arlington, VA 22203; fax (703) 358-2280; or email DMAFR@fws.gov.

FOR FURTHER INFORMATION CONTACT: Brenda Tapia, (703) 358-2104 (telephone); (703) 358-2280 (fax); DMAFR@fws.gov (email).

SUPPLEMENTARY INFORMATION:

I. Public Comment Procedures

A. How do I request copies of applications or comment on submitted applications?

Send your request for copies of applications or comments and materials concerning any of the applications to the contact listed under **ADDRESSES**. Please include the **Federal Register** notice publication date, the PRT-number, and the name of the applicant in your request or submission. We will not consider requests or comments sent to an email or address not listed under **ADDRESSES**. If you provide an email address in your request for copies of applications, we will attempt to respond to your request electronically.

Please make your requests or comments as specific as possible. Please confine your comments to issues for which we seek comments in this notice, and explain the basis for your comments. Include sufficient information with your comments to allow us to authenticate any scientific or commercial data you include.

The comments and recommendations that will be most useful and likely to influence agency decisions are: (1) Those supported by quantitative information or studies; and (2) Those that include citations to, and analyses of, the applicable laws and regulations. We will not consider or include in our administrative record comments we receive after the close of the comment period (see **DATES**) or comments delivered to an address other than those listed above (see **ADDRESSES**).

B. May I review comments submitted by others?

Comments, including names and street addresses of respondents, will be available for public review at the street address listed under **ADDRESSES**. The public may review documents and other information applicants have sent in
