SPECIAL INSPECTOR GENERAL FOR AFGHANISTAN RECONSTRUCTION

Office of Privacy, Records, and Disclosure; Privacy Act of 1974, as Amended

AGENCY: Special Inspector General for Afghanistan Reconstruction.

SUMMARY: In accordance with the Privacy Act of 1974, as amended, the Special Inspector General for Afghanistan Reconstruction (SIGAR) gives notice of its intent to create the SIGAR system of records titled, SIGAR-11: Social Media Records, and SIGAR-12: Internal Electronic Collaboration Tools. The Social Media system will assist SIGAR by providing new ways to connect and share information, and solicit and receive feedback freely with the public. The Internal Electronic Collaboration Tools will collect information related to new procedures for the collection of information related to internal electronic collaboration tools which use Microsoft SharePoint, including the SIGAR Intranet and social media tools within the Internet.

DATES: Comments must be received no later than September 4, 2012. The new system of records will be effective October 2, 2012 unless SIGAR receives comments that would result in a contrary determination.

ADDRESSES: Comments should be sent to Kate Gastner, Public Information Manager, Special Inspector General for Afghanistan Reconstruction, 2530 Crystal Drive, Arlington, VA 22202-3934. Comments will be made available for inspection upon written request. SIGAR will make such comments available for public inspection in the Office of Privacy, Records, and Disclosure, 9th Floor, 1550 Crystal Drive, Arlington, VA 22202, on official business days between the hours of 9 a.m. and 5 p.m. Eastern time. You can make an appointment to inspect comments by telephoning (703) 545-6000. You should submit only information that you wish to make available publicly.

FOR FURTHER INFORMATION CONTACT: Kate Gastner, Public Information Manager, Special Inspector General for Afghanistan Reconstruction, 2530 Crystal Drive, Arlington, VA 22202-3934, (703) 545-5993.

SUPPLEMENTARY INFORMATION: On January 28, 2008, the President signed into law the National Defense Authorization Act for Fiscal Year 2008 (Pub. L. 110-181), which created the Special Inspector General for Afghanistan Reconstruction (SIGAR). SIGAR is responsible for coordinating and conducting audits and investigations to promote efficiency and effectiveness of reconstruction programs, and to detect and prevent waste, fraud, and abuse of taxpayers' dollars. Under 5 U.S.C. 301, heads of Executive or military departments may prescribe regulations governing the conduct of its employees and the custody, use, and preservation of the department's records, papers, and property. To facilitate SIGAR's audits, investigations, and other operations, it plans to create the following systems of records:

SIGAR-11 Social Media Records;
SIGAR-12 Internal Electronic Collaboration Tools.

The Report of the a new system of records, as required by 5 U.S.C. 552a(r) of the Privacy Act, has been submitted to the Committee on Oversight and Government Reform of the House of Representatives, the Committee on Homeland Security and Governmental Affairs of the Senate, and the Office of Management and Budget, pursuant to Appendix I to OMB Circular A-130, "Federal Agency Responsibilities for Maintaining Records About Individuals," dated November 30, 2000.

Sections 552a(e)(4) and (11) of title 5, United States Code, provide that an agency publish a notice of the establishment or revision of a record system which affords the public a 30-day period in which to submit comments. To meet this requirement, descriptions of the two new systems of records are published in their entirety below.

I. Social Media

SIGAR is creating the SIGAR Social Media system of records to allow SIGAR to interact with the public using third party or commercial social media applications. While SIGAR may use social media applications to connect with the public in an official capacity, information provided by an individual to register with the third party site is rarely shared with SIGAR. Information collected and stored by the social media applications is subject to the third party

privacy policies posted on their Web sites. SIGAR may receive contact information from the third party site for individuals who wish to have further contact with SIGAR for addition communications such as dissemination of information for upcoming events, notification of an emergency or breaking news, or felicitation of feedback about a program.

Information provided by SIGAR on social media sites is also available on SIGAR's public Web sites. If SIGAR is requesting feedback from the public through the use of social media site, an alternative SIGAR email address will also be provided so that the public may interact with SIGAR without having to use the social media site. When an individual submits an email to SIGAR, SIGAR will maintain that individual's email, and any other personal information provided in their email, in accordance with applicable records retention policies. All interactions by the public are voluntary.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

II. Internal Electronic Collaboration Tools

SIGAR is implementing internal electronic collaboration tools utilizing the Microsoft SharePoint platform. These tools will upgrade SIGAR's intranet, allow users to set up team collaboration workspaces, facilitate sharing of documents, policies and information, and allow limited social networking through the SharePoint "MySites" feature. The Intranet, built on these tools, will include SIGAR policies, procedures, forms, organization charts, news clips, and links to other sites that are helpful to staff members. The intranet will include content regarding program offices, services and support, and projects and activities. The MySites feature will allow SIGAR users to set up a personal profile, identify subject matter areas about which they are knowledgeable, upload pictures, public notes, tags, content, and messages that are similar to email. Users will be able to manually select "colleagues" which the colleague may approve or deny, and create and join groups. Overall, the internal collaboration tools will provide invaluable dissemination and exchange

of information, allowing users to stay connected within a dashboard that each user can personalize.

All SIGAR users will need to use the internal electronic collaboration tools to perform their official duties, for example, to use the Intranet to obtain business phone numbers of other SIGAR users, to view internal policies, to link to specific SharePoint sites containing SIGAR business information, or use SharePoint sites containing SIGAR business information, or use SharePoint workspaces with other team members. The use of MySites is purely voluntary; those who use MySites will have some control over which other users may see their personal information. However, Intranet sites administrators and other SIGAR staff members with a legitimate need to know the information for official purposes will have full access to view all content, including all personal content posted through MySites. Intranet users will be clearly informed, that if they use MySites, they have no reasonable expectation of privacy in any information they post, as with any other information passing through or stored on SIGAR equipment.

The Internal Electronic Collaboration Tools system of records will contain SIGAR business information, business contact information and photographs, at times personal contact information, and any personal information a user chooses to post within MySites.

Both systems will be effective as proposed at the end of the comment period (the comment period will end 30 days after the publication of this notice in the **Federal Register**), unless comments are received that would require a contrary determination. SIGAR will publish a revised notice if changes are made based upon a review of the comments received.

Inspector General.
