SUPPLEMENTARY INFORMATION:

Title: Residue and Biomass Field Survey.

OMB Control Number: 0535–NEW.

Type of Request: Intent to Seek Approval to Conduct a new Information Collection: The National Agricultural Statistics Service (NASS) of the United States Department of Agriculture (USDA) will request approval from the Office of Management and Budget (OMB) for the Residue and Biomass Field Survey.

The Residue and Biomass Field Survey will use as a sampling universe fields in the South Fork watershed in central Iowa (Buckeye, IA). This study will investigate the effect crop residue removal has on soil and water quality. With the respondent's permission, measurements of crop residues will be compared with remote sensed data to measure crop residue cover and soil tillage intensity for the entire watershed. The survey will be conducted in several phases. The farm operator will only be involved in part of the survey. With the farmers permission the field enumerators will return several times during the growing season to measure and collect samples from the target areas.

The primary objectives of the National Agricultural Statistics Service are to prepare and issue State and national estimates of crop production, livestock production, economic statistics, and environmental statistics related to agriculture and to conduct the Census of Agriculture and its follow-on surveys. This project is conducted as a cooperative effort with USDA's Agricultural Research Service (ARS).

Authority: These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104–13) and
