Medicare Program; Prior Authorization for Power Mobility Device (PMD) Demonstration

AGENCY: Centers for Medicare & Medicaid Services (CMS), HHS.

ACTION: Notice.

SUMMARY: This notice announces a 3-year Medicare Prior Authorization for Power Mobility Device (PMD) Demonstration for certain PMD codes in seven states where there have been high incidences of fraudulent claims and improper payments.

DATES: This demonstration begins on September 1, 2012.

FOR FURTHER INFORMATION CONTACT: Daniel Schwartz, 410–786–4197.

Questions regarding the Medicare Prior Authorization for PMD Demonstration should be sent to pademo@cms.hhs.gov.

SUPPLEMENTARY INFORMATION:

I. Background

Power Mobility Devices have had historically high incidents of fraud and improper payments. PMD suppliers also continue to be subject to significant law enforcement investigation.

The Health Care Fraud Prevention and Enforcement Action Team (HEAT) Task Force was launched in May 2009 and is co-chaired by the Deputy Secretary of HHS and the Deputy Attorney General of DOJ. Medicare Fraud Strike Force teams are a key component of HEAT, since their inception and based on data driven investigations, prosecutors have filed more than 600 cases charging more than 1,150 defendants who collectively billed the Medicare program more than $2.9 billion in fraudulent claims. DME is a primary focus of investigation for these strike forces.

The Comprehensive Error Rate Testing (CERT) Program noted in a 2010 Report 1 that 92.6 percent of claims for motorized wheelchairs did not meet Medicare coverage requirements. Although we recognize that many improper payments are not the result of willful fraud, this error rate represents over $822 million in estimated improper payments.

II. Legislative Authority

Section 402(a)(1)(J) of the Social Security Amendments of 1967, 42 U.S.C. 1395b–1(a)(1)(J), authorizes the Secretary to conduct demonstrations designed to develop or demonstrate improved methods for the investigation and prosecution of fraud in the provision of care or services provided under the Medicare program. We plan to conduct a demonstration that implements a prior authorization process for power mobility devices (PMDs), an area with historically high levels of fraud and improper payments, to develop improved methods for the investigation and prosecution of fraud
