In accordance with the preamble to the Department’s regulations,2 in our
Initiation Notice the Department set aside a period of time for parties to raise
issues regarding product coverage, and encouraged all parties to submit
comments within 20 calendar days of publication of the Initiation Notice. No
interested party submitted comments during that period. However, on May
17, 2012, the petitioner, Whirlpool Corporation, requested that the
Department exclude automatic washing machines with a vertical rotational axis
and a rated capacity of less than 3.70 cubic feet from the scope of this and the
concurrent antidumping duty (AD) investigations of washing machines
from Mexico and Korea. Subsequently, the Department received comments
from respondents Samsung Electronics Co., Ltd. (Samsung) on May 23, 2012,
and from LG Electronics, Inc. on May 24, 2012, objecting to the petitioner’s
scope exclusion request. On June 21, 2012, the Department contacted U.S.
Customs and Border Protection (CBP) seeking its input on whether the
petitioner’s proposed scope exclusion request, if granted by the Department,
would be enforceable by CBP.4 On July 11, 2012, General Electric Company
(GE), a domestic producer and importer of washing machines, filed comments
on the record of the AD investigation of washing machines from Korea in
support of the petitioner’s scope exclusion request. On July 18, 2012. Also on
July 18, Staber Industries, Inc., a domestic producer of washing
machines, filed comments in support of the petitioner’s scope exclusion request.

Based on the comments received from the interested parties and information
provided by CBP, the Department is amending the scope of the
investigations to exclude top-load washing machines with a vertical rotational axis and a rated capacity of less than 3.70 cubic feet.5

5 — On July 11, 2012, General Electric Company
(GE), a domestic producer and importer of
washing machines, filed comments on the record of the AD investigation of
washing machines from Korea in support of the petitioner’s scope exclusion request. GE’s comments were placed on the record of this CVD investigation on July 18, 2012. Also on July 18, Staber Industries, Inc., a domestic producer of washing machines, filed comments in support of the petitioner’s scope exclusion request.

Based on the comments received from the interested parties and information
provided by CBP, the Department is amending the scope of the
investigations to exclude top-load
washing machines with a vertical
rotational axis and a rated capacity of
less than 3.70 cubic feet.5
702(b)(1) of the Tariff Act of 1930 (as amended) (the Act), states that a "petition may be amended at such time, and upon such conditions, as the administering authority * * * may permit." In making a request to amend the scope of the investigations, the petitioner is essentially asking for the Department to amend the petition. It is, therefore, within the Department’s authority to permit such an amendment. Further, it is the Department’s practice to provide ample deference to the petitioner with respect to the merchandise from which it intends to seek relief.

Amended Scope of the Investigation

The product covered by this investigation is all large residential washers and certain subassemblies thereof from Korea.

For purposes of this investigation, the term "large residential washers" denotes all automatic clothes washing machines, regardless of the orientation of the rotational axis, except as noted below, with a cabinet width (measured from its widest point) of at least 24.5 inches (62.23 cm) and no more than 32.0 inches (81.28 cm).

Also covered are certain subassemblies used in large residential washers, namely: (1) All assembled cabinets designed for use in large residential washers which incorporate, at a minimum: (a) At least three of the six cabinet surfaces; and (b) a bracket; (2) All assembled tubs designed for use in large residential washers which incorporate, at a minimum: (a) A tub and (b) a seal; (3) All assembled baskets designed for use in large residential washers which incorporate, at a minimum: (a) A side wrapper; (b) A base; and (c) A drive hub; and (4) Any combination of the foregoing subassemblies.

Excluded from the scope are stacked washer-dryers and commercial washers. The term "stacked washer-dryers" denotes distinct washing and drying machines that are built on a unitary frame and share a common console that controls both the washer and the dryer. The term "commercial washer" denotes an automatic clothes washing machine designed for the "pay per use" market meeting either of the following two definitions:

(1)(a) It contains payment system electronics; (b) It is configured with an externally mounted steel frame at least six inches high that is designed to house a coin/token operated payment system (whether or not the actual coin/token operated payment system is installed at the time of importation); (c) it contains a push button user interface with a maximum of six manually selectable wash cycle settings, with no ability of the end user to otherwise modify water temperature, water level, or spin speed for a selected wash cycle setting; and (d) the console containing the user interface is made of steel and is assembled with security fasteners; or

(2)(a) It contains payment system electronics; (b) the payment system electronics are enabled (whether or not the payment acceptance device has been installed at the time of importation) such that, in normal operation, the unit cannot begin a wash cycle without first receiving a signal from a bona fide payment acceptance device such as an electronic credit card reader; (c) it contains a push button user interface with a maximum of six manually selectable wash cycle settings, with no ability of the end user to otherwise modify water temperature, water level, or spin speed for a selected wash cycle setting; and (d) the console containing the user interface is made of steel and is assembled with security fasteners.

Also excluded from the scope are automatic clothes washing machines with a vertical rotational axis and a rated capacity of less than 3.70 cubic feet, as certified to the U.S. Department of Energy pursuant to 10 CFR 429.12 and 10 CFR 429.20, and in accordance with the test procedures established in 10 CFR part 430.

The products subject to this investigation are currently classifiable under subheading 450.20.0090 of the Harmonized Tariff System of the United States (HTSUS). Products subject to this investigation may also enter under HTSUS subheadings 8450.11.0040, 8450.11.0080, 8450.90.2000, and 8450.90.6000. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise subject to this scope is dispositive.

Suspension of Liquidation

As noted in the Preliminary Determination, sections 703(d)(1)(B) and (2) of the Act require the Department, upon making an affirmative preliminary determination, to direct CBP to suspend liquidation of all entries of the subject merchandise from Korea, other than those exported by companies with a de minimis ad valorem subsidy rate, that are entered, or withdrawn from warehouse, for consumption on or after the publication date of the preliminary determination in the Federal Register, and to require a cash deposit for such entries of the merchandise in the amounts of the calculated subsidy rates or all-others rate, as appropriate.

Because the scope of this investigation is being amended, the Department will direct CBP to suspend liquidation of entries of the subject merchandise from Korea using the amended scope language.

Public Comment

Interested parties who wish to comment on the amended scope language should do so when submitting case briefs. As noted in the Preliminary Determination, the Department will notify parties of the schedule for submitting case briefs and rebuttal briefs, in accordance with 19 CFR 351.309(c) and 19 CFR 351.309(d)(1), respectively. A list of authorities relied upon, a table of contents, and an executive summary of issues should accompany any briefs submitted to the Department. Executive summaries should be limited to five pages total, including footnotes. Based on timely requests by the petitioner and Samsung, the Department intends to hold a public hearing to afford interested parties an opportunity to discuss the arguments raised in case or rebuttal briefs. The Department will notify all parties regarding the scheduling of the public hearing, which will be held at the U.S. Department of Commerce, 14th Street and Constitution Avenue NW.,

[Application No. 10–3A001]

Export Trade Certificate of Review

SUMMARY: The Office of Competition and Economic Analysis (“OCEA”) of the International Trade Administration, Department of Commerce, has received an application to amend an Export Trade Certificate of Review (“Certificate”). This notice summarizes the proposed amendment and requests comments relevant to whether the amended Certificate should be issued.

FOR FURTHER INFORMATION CONTACT: Joseph Flynn, Director, Office of Competition and Economic Analysis, International Trade Administration, (202) 482–5131 (this is not a toll-free number) or email at etca@trade.gov.

SUPPLEMENTARY INFORMATION: Title III of the Export Trading Company Act of 1982 (15 U.S.C. 4001–21) authorizes the Secretary of Commerce to issue Export Trade Certificates of Review. An Export Trade Certificate of Review protects the holder and the members identified in the Certificate from State and Federal government antitrust actions and from private treble damage antitrust actions for the export conduct specified in the Certificate and carried out in compliance with its terms and conditions. Section 302(b)(1) of the Export Trading Company Act of 1982 and 15 CFR 325.6(a) require the Secretary to publish a notice in the Federal Register identifying the applicant and summarizing its proposed export conduct.

Request for Public Comments

Interested parties may submit written comments relevant to the determination whether an amended Certificate should be issued. If the comments include any privileged or confidential business information, it must be clearly marked and a nonconfidential version of the comments (identified as such) should be included. Any comments not marked as privileged or confidential business information will be deemed to be nonconfidential.

An original and five (5) copies, plus two (2) copies of the nonconfidential version, should be submitted no later than 20 days after the date of this notice to: Export Trading Company Affairs, International Trade Administration, U.S. Department of Commerce, Room 7021–X, Washington, DC 20230.

Information submitted by any person is exempt from disclosure under the Freedom of Information Act (5 U.S.C. 552). However, nonconfidential versions of the comments will be made available to the applicant if necessary for determining whether or not to issue the Certificate. Comments should refer to this application as “Export Trade Certificate of Review, application number 10–3A001.”

ALCC’s original Certificate was issued on May 13, 2010 (75 FR 29514, May 26, 2010). A summary of the current application for an amendment follows.

Summary of the Application

Contact: Duncan R. McIntosh, Attorney, Telephone: (206) 624–5950.

Application No.: 10–3A001.

Date Deemed Submitted: July 18, 2012.
