

based rate tariff and the prices reported for use in price indices.

The five-year statute of limitations applies where the Commission seeks civil penalties for violations of the Anti-Manipulation rule or other rules, regulations, or orders to which the price information may be relevant.

The information maintained by the respondents under FERC-915 is used by the Commission to monitor the entities' sales, ensure that the prices are just and reasonable, maintain the integrity of the wholesale jurisdictional sales markets, and ensure that the entities comply with the requirements of the Federal Power Act, the Commission's regulations and

any orders authorizing market-based rate sales.

Type of Respondents: Public Utility Market-Based Rate Authorization Holders.

*Estimate of Annual Burden*¹: The Commission estimates the total Public Reporting Burden for this information collection as:

FERC-915 (IC12-13-000): PUBLIC UTILITY MARKET-BASED RATE AUTHORIZATION HOLDERS—RECORDS RETENTION REQUIREMENT

	Number of respondents	Number of responses per respondent	Total number of responses	Average burden hours per response	Estimated total annual burden
	(A)	(B)	(A) × (B) = (C)	(D)	(C) × (D)
Electric Utilities with Market-Based Rate Authority	1,730	1	1,730	1	1,730

The total estimated annual cost burden to respondents is \$369,638 [\$40,655 (labor costs) + \$315,792 (record retention/storage cost) + \$13,191 (electronic record-keeping cost) = \$369,638]

- Labor costs: \$40,655 [(1,730 hours ÷ 2² = 865 hours * \$19/hours³ = \$16,435) + (1730 hours ÷ 2 = 865 * \$28/hour⁴ = \$24,220)]

- Record retention/storage cost (using an estimate of 48,891 cubic feet): \$315,792⁵

- Electronic record retention/storage cost: \$13,191 (1,730 respondents ÷ 2 = 865 respondents * \$15.25/hour⁶ = \$13,191).⁷

Comments: Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.
