

of the Act⁹ and Rule 19b-4(f)(6)(iii) thereunder.¹⁰

A proposed rule change filed under Rule 19b-4(f)(6)¹¹ normally does not become operative for 30 days after the date of filing. However, pursuant to Rule 19b-4(f)(6)(iii)¹² the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest. FINRA has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing.

The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest, as it will allow the pilot program to continue uninterrupted, thereby avoiding the investor confusion that could result from a temporary interruption in the pilot program. For this reason, the Commission designates the proposed rule change to be operative upon filing.¹³

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Self-Regulatory Organizations; New York Stock Exchange LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Implementing Certain Changes to the Credits Within the New York Stock Exchange Price List That Are Applicable to Supplemental Liquidity Providers

August 2, 2012.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange is proposing certain changes to the credits within its Price List that are applicable to SLPs, which the Exchange proposes to become operative on August 1, 2012.

SLPs are eligible for credits when adding liquidity to the NYSE.³ The amount of the credit is currently determined by the “tier” that the SLP qualifies for, which is based on the SLP’s level of quoting and the average daily volume (“ADV”)⁴ of liquidity added by the SLP in assigned securities.

The Exchange proposes to amend the Price List, such that only the following three credit rates would apply to SLPs:⁵

1. [sic] The current standard credit of \$0.0015 per share (or \$0.0010 per share if a Non-Displayed Reserve Order) would apply when adding liquidity to the Exchange in securities with a per share price of \$1.00 or more, if the SLP does not qualify for the higher credit set forth in paragraph 2, below.

2. [sic] The current credit of \$0.0020 per share (or \$0.0015 per share if a Non-Displayed Reserve Order) would be increased to \$0.0021 per share (or \$0.0016 per share if a Non-Displayed Reserve Order) and would apply when adding liquidity to the Exchange in securities with a per share price of \$1.00 or more if the SLP (i) meets the 10% average or more quoting requirement in the assigned security pursuant to Rule 107B⁶ and (ii) adds liquidity of an ADV

³ SLP credits are not applicable to executions of securities with a per share price of \$1.00 or more at the close.

⁴ For purposes of SLP liquidity credits, ADV calculations exclude early closing days.

⁵ SLP execution of securities with a per share price of \$1.00 or more at the close would continue to be free.

⁶ Quotes of an SLP that is a proprietary trading unit of a member organization (“SLP-Prop”) and an

of more than 10 million shares for all assigned SLP securities in the aggregate.⁷ The current requirement related to adding liquidity of a certain percentage of consolidated ADV (“CADV”) for an assigned security in the applicable month would no longer be applicable.

3. [sic] The current credit of \$0.005 per share when adding liquidity to the Exchange in securities with a per share price of less than \$1.00 if the SLP (i) meets the 10% average or more quoting requirement in an assigned security pursuant to Rule 107B⁸ and (ii) adds liquidity of an ADV of more than 10 million shares for all assigned SLP securities in the aggregate.⁹

The result of this proposed change is that the current credit tiers of \$0.0021 per share (or \$0.0016 per share if a Non-Displayed Reserve Order) and \$0.0024 per share (or \$0.0019 per share if a Non-Displayed Reserve Order) will be removed from the Price List, as will the corresponding threshold requirements that are currently applicable to these credits.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Securities Exchange Act of 1934 (the “Act”),¹⁰ in general, and furthers the objectives of Section 6(b)(4) of the Act,¹¹ in particular, because it provides for the equitable allocation of reasonable dues, fees, and other charges among its members and issuers and other persons using its facilities and does not unfairly discriminate between customers, issuers, brokers or dealers.

The Exchange believes that the proposed rule change is reasonable, equitable and not unfairly discriminatory because it would encourage SLPs to send additional orders to the Exchange for execution in order to qualify for an incrementally higher credit for such executions that add liquidity on the Exchange. In this regard, the Exchange believes that this may incentivize SLPs to increase the orders sent directly to the Exchange and therefore provide liquidity that supports the quality of price discovery and promotes market transparency.

SLP registered as a market maker at the Exchange (“SLMM”) of the same member organization are not aggregated for purposes of this calculation.

⁷ This calculation includes shares of both an SLP-Prop and an SLMM of the same member organization.
