SUPPLEMENTARY INFORMATION:

I. Submitting Comments

A. How can I access the docket and/or submit comments?

1. Docket Access Instructions

EPA has established a public docket for the ICRs listed in the SUPPLEMENTARY INFORMATION, section II. B. The docket is available for online viewing at http://www.regulations.gov, or in person viewing at the Enforcement and Compliance Docket and Information Center (ECDIC), in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue NW, Washington, DC. The EPA/DC Public Reading Room is open from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566–1744, and the telephone number for the Enforcement and Compliance Docket and Information Center (ECDIC) docket is (202) 566–1752.

Use http://www.regulations.gov to obtain a copy of the draft collection of information, submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the public docket that are available electronically. When in the system, select “search,” then key in the docket ID number identified in this document.

2. Instructions for Submitting Comments

Submit your comments by one of the following methods:

(b) Email: docket.oeca@epa.gov.

(c) Fax: (202) 566–1511.

(d) Mail: Enforcement and Compliance Docket and Information Center (ECDIC), Environmental Protection Agency, EPA Docket Center (EPA/DC), Mail code: 2201T, 1200 Pennsylvania Avenue NW., Washington, DC 20460.

Direct your comments to the specific docket listed in SUPPLEMENTARY INFORMATION, section II. B. and reference the OMB Control Number for the ICR.

B. What information is EPA particularly interested in?

Pursuant to section 3506(c)(2)(A) of the Paperwork Reduction Act (PRA), EPA is soliciting comments and information to enable it to:

(1) Evaluate whether the proposed collections of information are necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.

(2) Evaluate the accuracy of the Agency’s estimates of the burdens of the proposed collections of information.

(3) Enhance the quality, utility, and clarity of the information to be collected.

(4) Minimize the burden of the collections of information on those who are to respond, including through the use of appropriate automated or electronic collection technologies or other forms of information technology, e.g., permitting electronic submission of responses.

C. What should I consider when I prepare my comments for EPA?

You may find the following suggestions helpful for preparing comments:

(1) Explain your views as clearly as possible and provide specific examples.

(2) Describe any assumptions that you made.

(3) Provide copies of any technical information and/or data you used that support your views.
(4) If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
(5) Offer alternative ways to improve the collection activity.
(6) Make sure to submit your comments by the deadline identified under DATES.
(7) To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and Federal Register citation.

II. ICRs To Be Renewed

A. For All ICRs

The Agency computed the burden for each of the recordkeeping and reporting requirements applicable to the industry for the currently approved ICRs listed in this notice. Where applicable, the Agency identified specific tasks and made assumptions, while being consistent with the concept of the PRA.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions to; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The listed ICRs address Clean Air Act information collection requirements in standards (i.e., regulations) which have mandatory recordkeeping and reporting requirements. Records collected under the New Source Performance Standards (NSPS) must be retained by the owner or operator for at least two years and the records collected under the National Emission Standards for Hazardous Air Pollutants (NESHAP) must be retained by the owner or operator for at least five years. In general, the required collections consist of emissions data and other information deemed not to be private.

In the absence of such information collection requirements, enforcement personnel would be unable to determine whether the standards are being met on a continuous basis as required by the Clean Air Act.
