5. Estimated annual reporting hours: 549,878 hours.

Estimated average time per response: 3.50 hours.

Number of respondents: 2,669 weekly and 4,380 quarterly.

General description of report: This information collection is mandatory by the Federal Reserve Act (12 U.S.C. 248(a), 461, 603, and 615) and Regulation D (12 CFR part 204). The data are given confidential treatment (5 U.S.C. 552(b)(4)).

Abstract: Institutions with net transaction accounts greater than the exemption amount are called nonexempt institutions. Institutions with total transaction accounts, savings deposits, and small time deposits greater than or equal to the reduced reporting limit, regardless of the level of their net transaction accounts, are also referred to as nonexempt institutions. Nonexempt institutions submit FR 2900 data either weekly or quarterly. An institution is required to report weekly if its total transaction accounts, savings deposits, and small time deposits are greater than or equal to the nonexempt deposit cutoff. If the nonexempt institution’s total transaction accounts, savings deposits, and small time deposits are less than the nonexempt deposit cutoff then the institution must report quarterly or may elect to report weekly. U.S. branches and agencies of...
foreign banks and banking Edge and agreement corporations submit the FR 2900 data weekly, regardless of their size. These mandatory data are used by the Federal Reserve for administering Regulation D (Reserve Requirements of Depository Institutions) and for constructing, analyzing, and monitoring the monetary and reserve aggregates.

Agency form Number: FR 2930.
OMB Control Number: 7100–0088.

Reporters: Depository institutions.
Estimated annual reporting hours: 32 hours.
Estimated average time per response: 15 minutes.
Number of respondents: 126.

General description of report: This information collection is mandatory by the Federal Reserve Act (12 U.S.C. 248(a), 461, 603, and 615) and Regulation D (12 CFR part 204). The data are given confidential treatment (5 U.S.C. 552(b)(4)).

Abstract: The FR 2930 provides information on the allocation of the low reserve tranche and the reservable liabilities exemption for depository institutions with offices in more than one state or Federal Reserve District or for those operating under operational convenience. For calculation of required reserves on net transaction accounts, there is a low reserve tranche within which deposits are reserved at a lower reserve requirement ratio than are amounts in excess of the low reserve tranche. Within the low reserve tranche, deposits under the reservable liabilities exemption amount are reserved at zero. All U.S. offices of the same parent depository institution share one low reserve tranche and one reservable liabilities exemption. This report provides the basis for allocating these amounts across separate reporting offices.

Current Actions: On May 23, 2012, the Federal Reserve published a notice in the Federal Register (77 FR 30532) requesting public comment for 60 days on the extension, without revision, of the FR 2930. The comment period for this notice expired on July 23, 2012. The Federal Reserve did not receive any comments.

the Federal Reserve, the Federal Reserve could make the surveys mandatory. The ability of the Federal Reserve to maintain the confidentiality of information provided by respondents to the FR 3052 surveys is determined on a case-by-case basis depending on the type of information provided for a particular survey. Depending upon the survey questions, confidential treatment could be warranted under subsections (b)(4), (b)(6), and (b)(8) of the Freedom of Information Act (5 U.S.C. 552(b)(4), (6), and (8)).

Abstract: The supervision and policy functions of Federal Reserve have occasionally needed to gather data on an ad-hoc basis from the banking and financial industries on their financial condition (outside of the standardized regulatory reporting process) and decisions that organizations have made to adjust to the changes in the economy. Further, the data may relate to a particular business activity that requires a more detailed presentation of the information than is available through regulatory reports [such as the (FFIEC 031 and FFIEC 041; OMB No. 7100–0036) (FFIEC 002; OMB No. 7100–0032) (FR 2886b; OMB No. 7100–0086), and (FR Y–9C; OMB No. 7100–0128)]. These data may be particularly needed in times of critical economic or regulatory changes or when issues of immediate supervisory concern arise from Federal Reserve supervisory initiatives and working groups or requests from Board Members and the Congress. The Federal Reserve uses this event-driven survey to obtain information specifically tailored to the Federal Reserve’s supervisory, regulatory, operational, and other responsibilities. The Federal Reserve conducts the survey as needed up to 24 times per year. The frequency and content of the questions depend on changing economic, regulatory, supervisory, or legislative developments.
