

accidents (29 U.S.C. 657). The OSHA Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

The information collection requirements in the Lead in General Industry Standard are designed to reduce occupational lead exposure in general industry. Lead exposure can result in both acute and chronic effects and can be fatal in severe cases of lead toxicity. The standard specifies the following requirements that impose paperwork burdens on employers: Establishing a compliance program and notifying laundry personnel of lead hazards; instituting programs for exposure monitoring and medical surveillance (including medical examinations); notifying workers of exposure levels and biological monitoring results; the option for multiple physician review; providing information to physicians; obtaining written medical opinions; implementing worker information and training programs; recording medical removals; maintaining and transferring records of exposure monitoring and medical surveillance results, medical removals, and objective data used for the initial exposure monitoring exemption; and making records available to specified parties.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting an adjustment decrease in burden hours from 1,225,253 to 1,127,123 (a total decrease of 98,130 hours). The adjustment is primarily due to a reduction in plants and a decrease in covered workers, based on updated data.

Type of Review: Extension of a currently approved collection.

Title: Lead in General Industry (29 CFR 1910.1025).

OMB Number: 1218-0092.

Affected Public: Business or other for-profits; Federal Government; State, Local or Tribal Government.

Number of Respondents: 56,947.

Frequency of Response: On occasion; quarterly, bi-monthly; semi-annually; annually.

Total Responses: 3,882,119.

Average Time per Response: Varies from 5 minutes (.08 hour) to maintain records to 1.5 hours to complete a medical examination.

Estimated Total Burden Hours: 1,127,123.

Estimated Cost (Operation and Maintenance): \$143,191,684.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows: (1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (fax); or (3) by hard copy. All comments, attachments, and other material must identify the Agency name and the OSHA docket number for the ICR (Docket No. OSHA-2012-0013). You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled ADDRESSES). The additional materials must clearly identify your electronic comments by your name, date, and the docket number so the Agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden

(time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

The purpose of the Lead in Construction Standard and its information collection requirements is to reduce occupational lead exposure in the construction industry. Lead exposure can result in both acute and chronic effects and can be fatal in severe cases of lead toxicity. Some of the health effects associated with lead exposure include brain disorders which can lead to seizures, coma, and death; anemia; neurological problems; high blood pressure; kidney problems; reproductive problems; and decreased red blood cell production. The Standard requires that employers: Establish and maintain a training program; review the compliance program annually; provide exposure monitoring and medical surveillance programs; and maintain exposure monitoring and medical surveillance records. The records are used by employees, physicians, employers and OSHA to determine the effectiveness of the employer's compliance efforts. The Standard seeks to reduce disease by requiring exposure monitoring to determine if lead exposures are too high, by requiring medical surveillance to determine if employee blood lead levels are too high, and by requiring treatment to reduce blood lead levels.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and

- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting an adjustment increase in burden hours from 1,363,802 to 1,425,907 (a total increase of 62,105 hours). The adjustment is primarily due to estimated increases in the number of firms, based on updated data and estimates.

Type of Review: Extension of a currently approved collection.

Title: Lead in Construction Standard (29 CFR 1926.62).

OMB Number: 1218-0189.

Affected Public: Business or other for-profits; Federal Government; State, Local or Tribal Government.

Number of Respondents: 209,490.

Frequency of Response: On occasion; Quarterly, Bi-monthly; Semi-annually; Annually.

Total Responses: 9,366,454.

Average Time per Response: Varies from 1 minute (.02 hour) for a clerical employee to notify employees of their right to seek a second medical opinion to 8 hours to develop a compliance plan.

Estimated Total

Burden Hours: 1,425,907.

Estimated Cost (Operation and Maintenance): \$60,093,015.

- I. Introduction
- II. Notice of Filings
- III. Ordering Paragraphs

I. Introduction

In accordance with 39 U.S.C. 3642 and 39 CFR 3020.30 *et seq.*, the Postal Service filed a formal request and associated supporting information to add Express Mail Contract 12 to the competitive product list.¹ The Postal Service asserts that Express Mail Contract 12 is a competitive product "not of general applicability" within the meaning of 39 U.S.C. 3632(b)(3). Request at 1. The Request has been assigned Docket No. MC2012-36.

The Postal Service contemporaneously filed a redacted contract related to the proposed new product under 39 U.S.C. 3632(b)(3) and 39 CFR 3015.5. *Id.* Attachment B. The instant contract has been assigned Docket No. CP2012-44.

Request. To support its Request, the Postal Service filed six attachments as follows:

- Attachment A—a redacted copy of Governors' Decision No. 11-6, authorizing the new product;
- Attachment B—a redacted copy of the contract;

¹ Request of the United States Postal Service to Add Express Mail Contract 12 to Competitive Product List and Notice of Filing (Under Seal) of Unredacted Governors' Decision Contract, and Supporting Data, August 3, 2012 (Request).
