SUPPLEMENTARY INFORMATION:

I. Background

The recent enactment of Public Law 112–96 (The Middle Class Tax Relief and Job Creation Act of 2012, referred to hereafter as “MCTRJC” or “the act”) contains Subtitle D, Short-Time

Compensation Program, also known as the “Layoff Prevention Act of 2012”. The sections of the law under this subtitle concern states that currently participate in, or wish to initiate a new program in, a layoff aversion program known as short time compensation (STC) or work sharing.

Section 2161 establishes the operational rules for the STC program and Section 2162 covers the temporary financing of STC payments by the Federal Government to states with programs currently in their law. Section 2163 establishes the temporary financing of STC payments by the Federal Government to states operating an STC program under an agreement with the Secretary of Labor and Section 2164 covers grants the Federal Government can provide to state applicants whose STC laws conform to the requirements of Section 2161 for the purpose of implementation or improved administration of an STC program, or for promotion and enrollment in the program.

Each of these sections of the law requires, to varying extents, applications, new administrative processes, monitoring and reporting of data between the state workforce agencies (SWAs) and ETA. ETA has principal oversight responsibility for the Unemployment Insurance (UI) program that SWAs operate. As a result of the many changes to the funding and administration of the UI system introduced in Public Law 112–96, ETA needs to allow for additional reporting and data collection for proper oversight of state STC programs.

SUPPLEMENTARY INFORMATION:**I. Background**

ETA is seeking to renew a collection of information for the purposes of describing reemployment activities for UI claimants in Federal programs. The basic report format is very similar to the existing ETA 9002 report (Office of Management and Budget number 1205-0240) that covers quarterly performance data for Wagner-Peyser Act funded public labor exchange. ETA has well established reporting instructions, reporting software, reporting formats and reporting logic that is used for existing reemployment service delivery reporting for UI claimants, and ETA uses this existing structure to serve UI claimants in Federal programs, as required by Section 2142 of the Middle Class Tax Relief and Job Creation Act of 2012 (Pub. L. 112-96). ETA believes that the use of an existing standard in reporting for reemployment service delivery minimizes the burden on states as they seek to rapidly implement the requirements of Public Law 112-96. ETA believes that adapting an existing, approved reporting structure that is extensively used, well tested and well understood presents the best, and possibly only option, for collecting meaningful performance and evaluation data on this program.

II. Review Focus

The Department is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary
