Civil Action No. 12-cv-00395-RPM-MEH

UNITED STATES OF AMERICA  
Plaintiff, v. SG INTERESTS I, LTD., SG INTERESTS VII, LTD., and GUNNISON ENERGY CORPORATION, Defendants.

**RESPONSE OF PLAINTIFF UNITED STATES TO PUBLIC COMMENTS ON THE PROPOSED FINAL JUDGMENT**

Pursuant to the requirements of the Antitrust Procedures and Penalties Act, 15 U.S.C. § 16(b)-(h) ("Tunney Act"), the United States files the public comments concerning the proposed Final Judgment in this case and its response to those comments. After careful consideration, the United States continues to believe that the relief sought in the proposed Final Judgment will provide an effective and appropriate remedy for the antitrust violation alleged in the Complaint. The United States will move the Court for entry of the proposed Final Judgment after it has posted all public comments and this response on the Antitrust Division Web site and published in the **Federal Register** this response and the Web site address at which the public comments may be viewed and downloaded, as set forth in the Court's order of June 5, 2012.

On February 15, 2012, the United States filed a civil antitrust complaint against Defendant Gunnison Energy Corporation ("GEC") and Defendants SG Interests I, Ltd. and SG Interests VII, Ltd. ("SGI") seeking damages and other relief to remedy the effects of an anticompetitive agreement between SGI and GEC that eliminated competitive bidding between the companies for four leases of federal land in the Ragged Mountain Area ("RMA") of Western Colorado. As alleged in the Complaint, this agreement significantly reduced competition for these leases, and as a result, the United States received substantially less revenue from the sale of the leases than it would have had SGI and GEC competed against each other at the auctions.

Simultaneously with the filing of the Complaint, the United States filed a proposed Final Judgment and a

Stipulation signed by the United States and Defendants consenting to the entry of the proposed Final Judgment after compliance with the requirements of the Tunney Act. Pursuant to those requirements, the United States filed a Competitive Impact Statement ("CIS") in this Court on February 15, 2012; published the proposed Final Judgment and CIS in the **Federal Register** on February 23, 2012, see *United States v. SG Interests I LTD., et al.*, Proposed Final Judgment and Competitive Impact Statement, 77 Fed. Reg. 10775 (Feb. 23, 2012); and caused to be published summaries of the terms of the proposed Final Judgment and CIS, together with directions for the submission of written comments relating to the proposed Final Judgment, in *The Washington Times* for seven days (March 1 and March 2, and March 5 through March 9, 2012) and in *The Denver Post* for seven days (March 1 through March 7, 2012). The 60-day period for public comments ended on May 7, 2012. The United States received seventy-six comments, as described below, which are attached hereto.

**I. THE INVESTIGATION AND PROPOSED FINAL JUDGMENT**

**A. The Investigation**

The proposed Final Judgment is the culmination of an investigation into two agreements executed by SGI and GEC pursuant to which they jointly bid for and acquired twenty-two leases of federal lands in the RMA. As part of its investigation, the United States issued Civil Investigative Demands to both firms; reviewed the documents and other materials produced in response to these Demands; and interviewed market participants.

After carefully analyzing the investigatory materials and evaluating the competitive effects of these two agreements in light of all relevant circumstances, the United States concluded that Defendants' Memorandum of Understanding ("MOU"), executed in February 2005 and amended in May 2005, was an unlawful restraint of trade in violation of Section 1 of the Sherman Act, 15 U.S.C. § 1. Accordingly, the United States filed the Complaint in this action challenging Defendants' joint acquisition of four leases pursuant to this agreement.

In contrast, the United States concluded that Defendants' subsequent noncompete agreement was ancillary to a broader joint development and production collaboration established by Defendants in the summer of 2005. On this basis, the United States determined not to challenge Defendants' joint
