Federal Highway Administration

Notice of Final Federal Agency Actions on United States Highway 77

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of Limitation on Claims for Judicial Review of Actions by FHWA and Other Federal Agencies.

SUMMARY: This notice announces actions taken by the FHWA and other Federal agencies that are final within the meaning of 23 U.S.C. § 139(l)(1). The actions relate to a proposed highway project, United States (US) 77, extending from Interstate Highway 37 (IH 37) in Corpus Christi, Texas to US 83 in Harlingen, Texas. Those actions grant licenses, permits, and approvals for the project.

DATES: By this notice, the FHWA is advising the public of final agency actions subject to 23 U.S.C. 139(l)(1). A claim seeking judicial review of the Federal agency actions on the highway project will be barred unless the claim is filed on or before February 11, 2013. If the Federal law that authorizes judicial review of a claim provides a time period of less than 180 days for filing such claim, then that shorter time period still applies.

FOR FURTHER INFORMATION CONTACT: Mr. Gregory Punske, P.E., District Engineer, District B (South), Federal Highway Administration, 300 East 8th Street, Room 826, Austin, Texas 78701; telephone: (512) 536-5960; email: gregory.punske@dot.gov. SUPPLEMENTARY INFORMATION: Notice is hereby given that the FHWA and other Federal agencies have taken final agency actions by issuing licenses, permits, and approvals for the following highway project in the State of Texas: United States highway (US) 77 extending from Interstate Highway 37 (IH 37) in Corpus Christi, Texas to US 83 in Harlingen, Texas. The proposed US 77 Upgrade Project area is approximately 122 miles in length and is defined by its northern logical terminus at the interchange of

US 77 and IH 37 in Corpus Christi, Texas to the interchange of US 77 and US 83 in Harlingen, Texas at its southern terminus. The proposed project consists of upgrading the mainlanes of existing US 77 to a controlled access facility that meets Interstate standards, along with new location relief routes around Driscoll and Riviera. The typical section is anticipated to remain a four-lane divided roadway for the entire project length. In select locations, the four main lanes would be supplemented by access roads, overpasses, and interchanges to facilitate local access. The purpose of the proposed project is to improve safety, mobility, and continuity within the US 77 Upgrade Project corridor. The actions by the Federal agencies, and the laws under which such actions were taken, are described in the Environmental Assessment (EA) for the project, dated June 2012, in the FHWA Finding of No Significant Impact (FONSI) issued on July 10, 2012 and in other documents in the FHWA project technical files. SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the Federal Motor Carrier Safety Regulations for a 2-year period if it finds “such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption.” The

statute also allows the Agency to renew exemptions at the end of the 2-year period. The 17 individuals listed in this notice have recently requested such an exemption from the diabetes prohibition in 49 CFR 391.41(b)(3), which applies to drivers of CMVs in interstate commerce. Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting the exemption will achieve the required level of safety mandated by the statutes.
