The public closure area comprises
14,153 acres, more or less in Pershing
County, Nevada.

The temporary closure is necessary
for the period of time from August 13
through September 17 because of the
event activities in the area, starting with
fencing the site perimeter, final setup,
the actual event (August 26 through
September 3), initial phases of cleanup,
and concluding with final site cleanup.

The public closure area comprises
about 13 percent of the Black Rock
Desert playa. Public access to other
areas of the playa will remain open and
the rest of the playa outside the closure
area will remain open to dispersed use.

Within the public closure area is the
event area, which is defined as the
portion of the public closure area (1)
entirely contained within the event
perimeter fence; (2) within 50 feet from
the outside of the event perimeter fence;
(3) within 25 feet from the outside of the
event access road; and (4) the aircraft
parking area outside the event perimeter
fence.

The temporary closure and temporary
restrictions are necessary to provide a
safe environment for the participants of
the Burning Man event and to members
of the public visiting the Black Rock
Desert, and to protect public land
resources by addressing law
enforcement and public safety concerns
associated with the event. The Burning
Man event is held on public lands
administered by the BLM. It is expected
to attract approximately 60,900
participants to a remote rural area, far
from urban infrastructure and support,
including law enforcement, public
safety, transportation, and
communication services. During the
event, Black Rock City, the temporary
city associated with the event, becomes
the tenth-largest population area in
Nevada. This event is authorized on
public land under Special Recreation
Permit #NVW03500-12-01.

The vast majority of Burning Man event participants do not cause any problems for the event organizers or the BLM. Actions by a few participants at previous events have resulted in law enforcement and public safety incidents similar to those observed in urban areas of similar-size populations. Incidents that have required BLM law enforcement action in prior years include: Aircraft crashes; motor vehicle accidents with injuries both within and outside the event (a temporary fence is installed around the event perimeter); fights; sexual assault; assault on law enforcement officers; reckless or threatening behavior; crimes against property; crowd control issues; issues associated with possession and use of alcoholic beverages; persons acting in a manner where they may pose a danger to themselves or to others; possession, use, and distribution of controlled substances; and increased use of public lands outside the event perimeter.

The Burning Man event takes place within Pershing County, a rural county with a small population and a small Sheriff's Department. Pershing County has limited ability to provide additional law enforcement officers to work at the event. The temporary closure and temporary restrictions are necessary to enable the BLM law enforcement personnel to provide for public safety and to protect the environment on public lands, as well as to support state and local law enforcement agencies with enforcement of existing laws.

Use of the playa by up to 60,900 participants creates potential impacts to public resources associated with disposal of wastes and litter. Implementation of the temporary restrictions will increase interaction with and education of users by the BLM law enforcement and educational staff which will indirectly increase appreciation and protection of the public resources.

A temporary closure and temporary restriction order, under the authority of 43 CFR 8364.1, is used because it is more appropriate than establishing supplementary rules for a single event. A temporary closure and temporary restriction order is specifically tailored to the timeframe that is necessary to provide a safe environment for the public and for participants at the Burning Man event, and to protect public land resources while avoiding imposing restrictions that may not be necessary in the area during the remainder of the year.

The BLM will post information signs and maps about the temporary closure and temporary restrictions at main entry points around the playa, at the BLM

Winnemucca District Office, and at the Black Rock Visitor Center.

Under the authority of Section 303(a) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1733(a)), 43 CFR 8360.0-7, and 43 CFR 8364.1, the BLM will enforce the following temporary closure and temporary restrictions within the public closure area:

I. Temporary Restrictions—Between August 13, 2012, and September 17, 2012 Inclusive

A. Aircraft Landing

The public closure area is closed to aircraft landing, taking off, and taxiing. Aircraft is defined in Title 18, U.S.C., section 31(a)(1) and includes lighter-than-air craft and ultra-light craft. The following exceptions apply:

1. All aircraft operations, to include ultra-light and helicopter landings/take-offs, will occur at the designated event landing strip. The authorized event landing strip is a designated and Federal Aviation Administration approved public landing strip.

2. Only helicopters providing emergency medical services may land at the designated Emergency Medical Services helicopter pad or at other locations when required for medical incidents. The BLM authorizing officer may approve other helicopter landings and take-offs when deemed necessary for the benefit of the law enforcement operation.

3. Landings or take-offs of lighter-than-air craft previously approved by the BLM authorized officer.

B. Alcohol

1. Possession of an open container of an alcoholic beverage by the driver or operator of any motorized vehicle, whether or not the vehicle is in motion is prohibited.

2. Possession of alcohol by minors

(a) The following are prohibited:
(1) Consumption or possession of any alcoholic beverage by a person under 21 years of age on public lands.

(2) Selling, offering to sell, or otherwise furnishing or supplying any alcoholic beverage to a person under 21 years of age on public lands.

3. Operation of a motor vehicle while under the influence

(a) Title 43 CFR 8341.1(f)3 prohibits the operation of an off-road motor vehicle on public land while under the influence of alcohol, narcotics, or dangerous drugs.

(b) In addition to the prohibition found in 43 CFR 8341.1(f)3, it is prohibited for any person to operate or be in actual physical control of a motor vehicle while:

(1) The operator is under the combined influence of alcohol, a drug, or drugs to a degree that renders the operator incapable of safe operation of that vehicle; or

(2) The alcohol concentration in the operator's blood or breath is 0.08 grams or more of alcohol per 100 milliliters of blood or 0.08 grams or more of alcohol per 210 liters of breath.

(c) Tests:

(1) At the request or direction of any law enforcement officer authorized by the Department of the Interior to enforce this closure and restriction order, who has probable cause to believe that an operator of a motor vehicle has violated a provision of paragraph (a) or (b) of this section, the operator shall submit to one or more tests of the blood, breath, saliva, or urine for the purpose of determining blood alcohol and drug content.

(2) Refusal by an operator to submit to a test is prohibited and proof of refusal may be admissible in any related judicial proceeding.

(3) Any test or tests for the presence of alcohol and drugs shall be determined by and administered at the direction of an authorized person.

(4) Any test shall be conducted by using accepted scientific methods and equipment of proven accuracy and reliability operated by personnel certified in its use.

(d) Presumptive levels

(1) The results of chemical or other quantitative tests are intended to supplement the elements of probable cause used as the basis for the arrest of an operator charged with a violation of paragraph (a) of this section. If the alcohol concentration in the operator's blood or breath at the time of testing is less than alcohol concentrations specified in paragraph (b)(2) of this section, this fact does not give rise to any presumption that the operator is or is not under the influence of alcohol.

(2) The provisions of paragraph (d)(1) of this section are not intended to limit the introduction of any other competent evidence bearing upon the question of whether the operator, at the time of the alleged violation, was under the influence of alcohol, a drug or multiple drugs, or any combination thereof.

4. Definitions:

(a) Open container: Any bottle, can, or other container which contains an alcoholic beverage, if that container does not have a closed top or lid for which the seal has not been broken. If the container has been opened one or more times, and the lid or top has been replaced, that container is an open container.

(b) Possession of an open container includes any open container that is

physically possessed by the driver or operator, or is adjacent to and reachable by that driver or operator. This includes but is not limited to containers in a cup holder or rack adjacent to the driver or operator, containers on a vehicle floor next to the driver or operator, and containers on a seat or console area next to a driver or operator.

Notice of Intent To Repatriate Cultural Items: San Diego State University, San Diego, CA

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: The San Diego State University Archaeology Collections Management Program, in consultation with the appropriate Indian tribe, has determined that the cultural items meet the definition of objects of cultural patrimony and repatriation to the Indian tribe stated below may occur if no additional claimants come forward. Representatives of any Indian tribe that

believes itself to be culturally affiliated with the cultural items may contact San Diego State University Archaeology Collections Management Program.

DATES: Representatives of any Indian tribe that believes it has a cultural affiliation with the cultural items should contact San Diego State University Archaeology Collections Management Program at the address below by September 13, 2012.

ADDRESSES: Jaime Lennox, Interim Director, San Diego State University Archaeology Collections Management Program, 5500 Campanile Dr., San Diego, CA 92182-6040, telephone (619) 594-4575.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3005, of the intent to repatriate cultural items in the possession of the San Diego State University Archaeology Collections Management Program, San Diego, CA, that meet the definition of objects of cultural patrimony under 25 U.S.C. 3001.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American cultural items. The National Park Service is not responsible for the determinations in this notice.

History and Description of the Cultural Items

The 39 objects include one cradleboard and 38 baskets. In 1961, Awona Harrington, daughter of well-known ethnographer and linguist John P. Harrington, donated objects from her father's collection to the San Diego State University Archaeology Collections Management Program. This collection was accessioned as the Harrington Ethnographic Collection (SDSU-0461) and included objects gathered by Harrington throughout his career; including one cradleboard and 38 baskets. Subsequent analysis of diagnostic features has identified the objects as Yokut.

In consultation with representatives of the Santa Rosa Indian Community of the Santa Rosa Rancheria, California, these 39 items were determined to be culturally significant and meet the definition of objects of cultural patrimony under NAGPRA. The objects were examined on March 20, 2012, by representatives of the Santa Rosa Indian Community of the Santa Rosa Rancheria and a positive identification of

diagnostic characteristics and utilitarian attributes of the objects was made. The representatives of the Santa Rosa Indian Community of the Santa Rosa Rancheria also provided supporting ethnographic documentation for the cultural significance of the objects.

Determinations Made by the San Diego State University

Officials of the San Diego State University Archaeology Collections Management Program have determined that:

- Pursuant to 25 U.S.C. 3001(3)(D), the 39 cultural items described above have ongoing historical, traditional, or cultural importance central to the Native American group or culture itself, rather than property owned by an individual.
- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the cradleboard and the baskets and the Santa Rosa Indian Community of the Santa Rosa Rancheria, California.

Additional Requestors and Disposition

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the objects of cultural patrimony should contact Jaime Lennox, Interim Director, San Diego State University Archaeology Collections Management Program, 5500 Campanile Dr., San Diego, CA 92182-6040, telephone (619) 594-4575, before September 13, 2012. Repatriation of the objects of cultural patrimony to the Santa Rosa Indian Community of the Santa Rosa Rancheria, California, may proceed after that date if no additional claimants come forward.

The San Diego State University Collections Management Program is responsible for notifying the Santa Rosa Indian Community of the Santa Rosa Rancheria, California, that this notice has been published.

Dated: July 20, 2012.
