

of its outreach efforts, the United States encourages the responsible authorities to step up efforts to combat piracy and counterfeiting in these and similar markets.

2. Public Comments

a. Written Comments

The Special 301 Subcommittee invites written submissions from the public concerning potential examples of Internet and physical “notorious markets.” Notorious markets are those where counterfeit or pirated products are prevalent to such a degree that the market exemplifies the problem of marketplaces that deal in infringing goods and help sustain global piracy and counterfeiting.

b. Requirements for Comments

Interested parties must submit written comments by September 14, 2012. Written comments should be as detailed as possible and should clearly identify the reason or reasons why the nature or scope of activity associated with the identified market or markets exemplify the problem of marketplaces that deal in infringing goods and help sustain global piracy and counterfeiting. Potentially helpful information could include: Location; principal owners/operators (if known); types of products sold, distributed, or otherwise made available; information on the volume of Internet traffic associated with a Web site (such as a recent Alexa ranking); any known civil or criminal enforcement activity against the market; other efforts to remove/limit infringing materials (e.g., a Web site’s responsiveness to requests to remove or disable access to allegedly infringing material); and any other relevant information, including with respect to positive progress made by operators of the market in addressing infringing activity. Any comments that include quantitative loss claims should be accompanied by the methodology used in calculating such estimated losses. Comments must be in English.

All comments should be sent electronically via <http://www.regulations.gov>, docket number USTR–2012–0011. To submit comments to <http://www.regulations.gov>, find the docket by entering the number USTR–2012–0011 in the “Enter Keyword or ID” window at the <http://www.regulations.gov> home page and click “Search.” The site will provide a search-results page listing all documents associated with this docket. The <http://www.regulations.gov> site provides the option of providing comments by filling in a “Type comment” field, or by attaching a document. USTR prefers that comments be provided in an attached document. If a document is attached, please type “2011 Out-of-Cycle Review of Notorious Markets” in the “Type comment” field. USTR prefers submissions in Microsoft Word (.doc) or Adobe Acrobat (.pdf). If the submission is in an application other than those two, please indicate the name of the application in the “Type comment” field.

3. Inspection of Comments

USTR will maintain a docket on the 2012 Out-of-Cycle Review of Notorious Markets that is accessible to the public. The public file will include all comments received which will be placed in the docket and open to public inspection pursuant to 15 CFR 2006.13, except confidential business information exempt from public inspection in accordance with 15 CFR 2006.15. Comments may be viewed on the <http://www.regulations.gov> Web site by entering docket number USTR–2012–0011 in the search field on the home page.

4. Business Confidential Information

A person requesting that information contained in a comment submitted by that person be treated as confidential business information must certify that such information is business confidential and would not customarily be released to the public by the submitter. Confidential business information must be clearly designated as such, the submission must be marked “Business Confidential” at the top and bottom of the cover page and each succeeding page, and the submission should indicate, via brackets, the specific information that is confidential. Additionally, “Business Confidential” should be included in the “Type comment” field. Anyone submitting a comment containing business confidential information must also submit as a separate submission a nonconfidential version of the confidential submission, indicating where confidential information has been redacted. The non-confidential
