Title: WIC Program Regulations—Reporting and Recordkeeping Burden.
OMB Number: 0584–0043.

Expiration Date: November 30, 2012.

Type of Request: Revision to a Currently Approved Collection.

Abstract: The purpose of the Special Supplemental Nutrition Program for Women, Infants and Children (WIC) is to provide supplemental foods, nutrition education, and health care referrals to low income, nutritionally at risk pregnant, breastfeeding and postpartum women, infants, and children up to age five. Currently, WIC operates through State health departments in 50 States, the District of Columbia, Puerto Rico, Guam, the Commonwealth of the Northern Mariana Islands, America Samoa, and the Virgin Islands. Additionally, 34 Indian Tribal Organizations (ITOs) serve as WIC State agencies. The Federal regulations

governing the WIC Program (7 CFR part 246) require that certain Program-related information be collected and that full and complete records concerning WIC operations are maintained. The information reporting and recordkeeping burdens are necessary to ensure appropriate and efficient management of the WIC Program.

The reporting and recordkeeping burdens covered by this Information Collection Burden (ICB) include requirements that involve the certification of WIC participants; the nutrition education that is provided to participants; the authorization, training and monitoring of vendors; and the collection of vendor pricing information in order to comply with the Federal regulations regarding WIC cost containment. State Plans are the principal source of information about how each State agency operates its WIC Program. Information collected from participants and local agencies is collected through State-developed forms or Management Information Systems. The information collected is used by the Department of Agriculture to manage, plan, evaluate, make decisions and report on WIC Program operations. This information collection is requesting a revision in the burden hours due to program changes that have reduced the frequency of certification requirements for children and due to program adjustments that primarily reflect expected changes in the number of WIC participants, WIC authorized vendors, and WIC local agencies. The revisions

increase approved reporting burden by 42,215 hours and increase the total approved recordkeeping burden by 372,489 hours.
