[Docket No. AD12-12-000]

Coordination Between Natural Gas and Electricity Markets; Supplemental Notice of Technical Conference

As announced in the Notices issued on July 5, 2012¹ and July 17, 2012,² the Federal Energy Regulatory Commission (Commission) staff will hold a technical conference on Thursday, August 23, 2012, from 9:00 a.m. to approximately 4:45 p.m. local time to discuss gas-electric coordination issues in the Southeast region.³ The agenda and list of roundtable participants for this conference is attached. This conference is free of charge and open to the public. Commission members may participate in the conference.

The Southeast region technical conference will be held at the following venue: Commission Headquarters, 888 First Street NE., Washington, DC 20426.

If you have not already done so, those who plan to attend the Southeast region technical conference are strongly encouraged to complete the registration form located at: www.ferc.gov/whats-new/registration/nat-gas-elec-mkts-form.asp. There is no deadline to register to attend the conference. The dress code for the conference will be business casual. The agenda and

roundtable participants for the remaining technical conferences will be issued in supplemental notices at later dates.

The Southeast region technical conference will not be transcribed. However, there will be a free webcast of the conference. The webcast will allow persons to listen to the Southeast region technical conference, but not participate. Anyone with Internet access who desires to listen to the Southeast region conference can do so by navigating to www.ferc.gov's Calendar of Events and locating the Southeast region technical conference in the Calendar. The Southeast region technical conference will contain a link to its webcast. The Capitol Connection provides technical support for the webcast and offers the option of listening to the meeting via phone-bridge for a fee. If you have any questions, visit www.CapitolConnection.org or call 703-993-3100.⁴

Information on this and the other regional technical conferences will also be posted on the Web site www.ferc.gov/industries/electric/indus-act/electric-coord.asp, as well as the Calendar of Events on the Commission's Web site www.ferc.gov. Changes to the agenda or list of roundtable participants for the Southeast region technical conference, if any, will be posted on the Web site www.ferc.gov/industries/electric/indus-act/electric-coord.asp prior to the conference.

Commission conferences are accessible under section 508 of the Rehabilitation Act of 1973. For accessibility accommodations, please send an email to accessibility@ferc.gov or call toll free 1-866-208-3372 (voice) or 202-208-1659 (TTY), or send a FAX to 202-208-2106 with the required accommodations.

Coordination Between Natural Gas and Electricity Markets

Docket No. AD12-12-000
Southeast Region- August 23, 2012
FERC Headquarters, Washington, DC

Agenda

- 9:00-9:15 Welcome and Opening Remarks
- 9:15-9:45 Regional Energy Infrastructure Presentation (FERC staff)
- 9:45-11:45 First Roundtable Discussion: Gas-Electric Coordination in the Southeast

There has been significant growth in the Southeast region's use of gas as fuel for electricity generation. By some accounts, the Southeast now leads the country both in the total volume of electric generation gas demand, and as a percentage of total US gas burn.⁵ Given this rapid increase in gas demand for electricity generation, the region's electric and gas entities may face future operational challenges involving coincident peaks, the flexibility of pipeline services, and infrastructure adequacy.

Roundtable participants are encouraged to be prepared to respond to the following:

1. How do Southeastern electric utilities' scheduling and commitment practices align with the NAESB standard natural gas pipeline business practices? How do the region's utilities and generators manage the risks associated with differences in the daily practices from one industry to the next?
2. Given the significant percentage of gas demand for industrial use in this region, as well as the growth in electric generation gas demand, how is the adequacy of gas infrastructure evaluated? Are there ways the region can better deploy existing capacity to meet demand growth?
3. What types of services offered by natural gas pipelines and storage
