

Appendix 2—Statement of Chairman Gary Gensler

I support the proposed relief from the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act) swaps provisions for certain electricity and electricity-related energy transactions between rural electric cooperatives; state, municipal, and tribal power authorities; and federal power authorities.

Congress directed the CFTC, when it is in the public interest, to provide relief from the Dodd-Frank Act's swaps market reform provisions for certain transactions between these entities.

For decades, these entities have been recognized as performing a public service mission, a fundamentally different function than investor-owned utilities. The purpose of these entities is to provide their customers or cooperative members with reliable electric energy at the lowest cost possible. They have been largely exempt from regulation by the Federal Energy Regulatory Commission because of their government entity status or their not-for-profit cooperative status.

The scope of the proposed relief extends only to non-financial electricity and electricity-related energy transactions for the generation, transmission and delivery of electric energy to customers. Such transactions must be intended for making or taking physical delivery of the underlying commodity.

I look forward to receiving public comment on the proposed relief.

SUPPLEMENTARY INFORMATION:

Title: CFPB Office of Intergovernmental Affairs Outreach Activities.

OMB Number: 3170-00xx.

Type of Review: New generic collection.

Abstract: The Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act) contemplates that the Bureau will conduct outreach activities, as appropriate. See, e.g. 12 U.S.C. 5495; 12 U.S.C. 5512(c)(1), 12 U.S.C. 5493(d), 12 U.S.C. 5493(b)(2), 12 U.S.C. 5511(c)(6). The Bureau’s Office of Intergovernmental Affairs seeks to conduct outreach by collecting information from state, local, and tribal governments related to the Bureau’s exercise of its functions under the Dodd-Frank Act. These governments interact closely with consumers and are critical partners in promoting transparency and competition in the marketplace, preventing unfair and unlawfully discriminatory practices, and enforcing consumer financial laws.

The information collected through the Office of Intergovernmental Affairs Outreach Activities will be shared, as appropriate, within the Bureau in the exercise of its functions, such as the Bureau’s financial education, rulemaking, market monitoring, outreach to traditionally underserved populations, fair lending monitoring, supervision, and enforcement functions.

The information collected may be used to form policies and programs presented to state, local, and tribal

governments, as well as to other federal agencies and the general public. Nearly all information collection will involve the use of electronic communication or other forms of information technology and telephonic means.

The Bureau received one comment letter on the proposed collection from a coalition of cities committed to local action for financial empowerment and consumer protection. The comment supported the Bureau’s proposal to formalize processes for information collection from local governments, noting that the proposed information collection would maximize efficiency of information sharing and minimize burden on cities. The letter recommended that the Bureau set up protocols to solicit information and develop a mechanism for local governments to provide information to the Bureau. The letter further recommended that the Bureau offer cities a distinct communication channel through which cities can obtain information from the Bureau and inform regulatory or enforcement actions. The Bureau notes that this regular and structured solicitation of information may help mitigate the effects of future ruptures in consumer financial markets by helping to facilitate effective monitoring of local markets for risks to consumers.

Affected Public: State, Local, or Tribal Governments.

Estimated Number of Responses: 1,600.

Estimated Time per Respondent: 2 hours.

Estimated Total Annual Burden Hours: 3,200.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB control number.

The Bureau issued a 60-day **Federal Register** notice on April 30, 2012, 77 FR 25438-39. Comments were solicited and continue to be invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the Bureau, including whether the information shall have practical utility; (b) the accuracy of the Bureau’s estimate of the burden of the collection of information, including the validity of the methodology and the assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Approved: August 17, 2012.

Chris Willey,
Chief Information Officer, Bureau of
Consumer Financial Protection.

Onshore, research on Unconventional Resources will focus on protecting groundwater and air quality, understanding rock and fluid interactions, and integrated environmental protection, including water treatment technologies and water management. For Small Producers, the Program will focus on extending the life of mature fields in an environmentally sustainable way.

Offshore, research on Ultra-Deepwater will focus on improved understanding of systems risk, reducing risk through the acquisition of real-time information
