

doses will remain well below regulatory limits.

Regulatory limits on radiological effluent releases are independent of burnup. The requirements of 10 CFR part 20, 10 CFR 50.36a, and Appendix I to 10 CFR part 50 ensure that routine releases of gaseous, liquid or solid radiological effluents to unrestricted areas is kept "As Low As is Reasonably Achievable." Therefore, the NRC staff concludes that during routine operations, there would be no significant increase in the amount of gaseous radiological effluents released into the environment as a result of the proposed actions, nor will there be a significant increase in the amount of liquid radiological effluents or solid radiological effluents released into the environment.

The proposed actions will not change normal plant operating conditions (i.e., no changes are expected in the fuel handling, operational, or storing processes). The fuel storage and handling, radioactive waste, and other systems which may contain radioactivity are designed to assure adequate safety under normal conditions. There will be no significant changes in radiation levels during these evolutions, and no significant increase in the allowable individual or cumulative occupational radiation exposure is expected to occur.

The use of Optimized ZIRLO™ clad fuel with a burnup limit of 62 GWD/MTU will not change the potential environmental impacts of incident-free transportation of spent nuclear fuel or the accident risks associated with spent fuel transportation if the fuel is cooled for 5 years after being discharged from the reactor. A PNNL report for the NRC (NUREG/CR-6703, January 2001) concluded that doses associated with incident-free transportation of spent fuel with burnup to 75 GWD/MTU are bound by the doses given in 10 CFR 51.52, Table S-4 for all regions of the country, based on the dose rates from the shipping casks being maintained within regulatory limits. Increased fuel burnup will decrease the annual discharge of fuel to the spent fuel pool which will postpone the need to remove spent fuel from the pool.

NUREG/CR-6703 determined that no increase in environmental effects of spent fuel transportation accidents is expected as a result of increasing fuel burnup to 75 GWD/MTU.

Based on the nature of the amendment and exemption, these proposed actions do not result in changes to land use or water use, or result in changes to the quality or quantity of non-radiological effluents.

No changes to the National Pollution Discharge Elimination System permit are needed. No effects on the aquatic or terrestrial habitat in the vicinity of the plant, or to threatened, endangered, or protected species under the Endangered Species Act, or impacts to essential fish habitat covered by the Magnuson-Stevens Act are expected. There are no impacts to the air or ambient air quality. There are no impacts to historic and cultural resources. There would be no noticeable effect on socioeconomic conditions in the region. Therefore, no changes or different types of non-radiological environmental impacts are expected as a result of the proposed actions. Accordingly, the NRC staff concludes that there are no significant environmental impacts associated with the proposed actions.

For more detailed information regarding the environmental impacts of extended fuel burnup, please refer to the study conducted by PNNL for the NRC, entitled "Environmental Effects of Extending Fuel Burnup Above 60 GWD/MTU" (NUREG/CR-6073, PNNL-13257, January 2001, Accession No. ML010310298). The NRC staff's detailed safety review will be conveyed in the Safety Evaluation issued concurrently with the amendment.

Environmental Impacts of the Alternatives to the Proposed Actions

As an alternative to the proposed actions, the NRC staff considered denial of the proposed actions (i.e., the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. Thus, the environmental impacts of the proposed actions and the alternative action are similar.

Alternative Use of Resources

The proposed actions do not involve the use of any different resources than those previously considered in the Final Environmental Statement for Donald C. Cook Nuclear Plant, Unit 2, or the Generic Environmental Impact Statement for License Renewal of Nuclear Plants: Regarding Donald C. Cook Nuclear Plant, Units 1 and 2—Final Report (NUREG-1437, Supplement 20), dated May 2005.

Agencies and Persons Consulted

In accordance with its stated policy, on June 1, 2012, the NRC staff consulted with the Michigan State official regarding the environmental impact of the proposed action. The State officials had no comments.

Finding of No Significant Impact

On the basis of the environmental assessment, the NRC staff concludes that the proposed actions will not have a significant effect on the quality of the human environment. Accordingly, the NRC staff determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed actions, see the licensee's letters dated September 29, 2011, and July 25, 2012. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available documents created or received at the NRC are accessible electronically from the ADAMS Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC PDR Reference staff by telephone at 1-800-397-4209 or 301-415-4737, or send an email to pdr.resource@nrc.gov.

Dated at Rockville, Maryland, this 16th day of August 2012.

For the Nuclear Regulatory Commission.

Peter S. Tam,

Senior Project Manager, Plant Licensing Branch III-1, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.

SECURITIES AND EXCHANGE COMMISSION

Submission for OMB Review; Comment Request; Correction

AGENCY: Securities and Exchange Commission.

ACTION: Notice; correction.

Extension: Rule 17f-1(b), OMB Control No. 3235-0032, SEC File No. 270-28.

SUMMARY: The Securities and Exchange Commission published a document in the **Federal Register** of August 16, 2012, concerning its request for the Office of Management and Budget's ("OMB") approval of an extension of the previously approved collection of information provided for in Rule 17f-1(b) (17 CFR 240.17f-1(b)) under the Securities Exchange Act of 1934 (15 U.S.C. 78a et seq.). The document contained an incorrect OMB Control Number.

FOR FURTHER INFORMATION CONTACT: Remi Pavlik-Simon, Securities and Exchange Commission, 6432 General Green Way, Alexandria, VA 22312 or send an email to: PRA_Mailbox@sec.gov.

Correction

In the **Federal Register** issue of Thursday, August 16, 2012, in FR Doc. 2012-20098, on page 49475, in the second line from the bottom of the second column, correct the OMB Control No. to read as noted above.

Dated: August 20, 2012.

Elizabeth M. Murphy,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

Sunshine Act Meeting

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Public Law 94-409, that the Securities and Exchange Commission will hold an Open Meeting on August 29, 2012 at 10 a.m., in the Auditorium, Room L-002.

The subject matter of the Open Meeting will be:

The Commission will consider whether to propose rules to eliminate the prohibition against general solicitation and general advertising in securities offerings conducted pursuant to Rule 506 of Regulation D under the Securities Act and Rule 144A under the Securities Act, as mandated by Section 201(a) of the Jumpstart Our Business Startups Act.

At times, changes in Commission priorities require alterations in the scheduling of meeting items.

For further information and to ascertain what, if any, matters have been added, deleted, or postponed, please contact:

The Office of the Secretary at (202) 551-5400.

Dated: August 21, 2012.

Elizabeth M. Murphy,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

Sunshine Act Meeting

FEDERAL REGISTER CITATION OF PREVIOUS ANNOUNCEMENT: [77 FR 39749, July 5, 2012].

STATUS: Open Meeting.

PLACE: 100 F Street NW., Washington, DC.

DATE AND TIME OF PREVIOUSLY ANNOUNCED MEETING:

August 22, 2012 at 10 a.m.

CHANGE IN THE MEETING: Deletion of an Item.

The following item will not be considered during the Commission's Open Meeting on August 22, 2012 at 10 a.m.:

The Commission will consider rules to eliminate the prohibition against general solicitation and general advertising in securities offerings conducted pursuant to Rule 506 of Regulation D under the Securities Act and Rule 144A under the Securities Act, as mandated by Section 201(a) of the Jumpstart Our Business Startups Act.

This item is being rescheduled for consideration at an Open Meeting on August 29, 2012 as announced in a separate meeting notice.

At times, changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact the Office of the Secretary at (202) 551-5400.

Dated: August 21, 2012.

Elizabeth M. Murphy,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-67680; File No. SR-Phlx-2012-106]

Self-Regulatory Organizations; NASDAQ OMX PHLX LLC; Notice of Filing of Proposed Rule Change To Modify Exchange Rule 3307 To Institute a Five Millisecond Delay in the Execution Time of Marketable Orders on NASDAQ OMX PSX

August 17, 2012.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on August 9, 2012, NASDAQ OMX PHLX LLC ("Phlx" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to modify Exchange Rule 3307 to institute a five millisecond delay in the execution time of marketable orders on NASDAQ OMX PSX ("PSX"). The Exchange proposes to implement the proposed rule change within 30 days of Commission approval. The text of the proposed rule change is available at <http://nasdaqomxphlx.cchwallstreet.com/nasdaqomxphlx/phlx>, at Phlx's principal office and at the Commission's Public Reference room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to modify Exchange Rule 3307 to institute a five millisecond delay in the execution time of marketable orders. The proposal will be implemented initially on a one-year pilot basis with respect to the trading of securities listed on the NASDAQ Stock Market ("Tape C Securities"). The Exchange introduced PSX, which features a unique price/size/pro-rata execution algorithm, in order to encourage market participants to display more liquidity in a transparent market environment. As among equally priced orders on the PSX book, PSX allocates execution opportunities in proportion to the size of the posted order, rather than its time of entry. Thus, the Exchange's market model is intended to deemphasize the importance of speed in realizing trading opportunities.

Although PSX has enjoyed a measure of success, the Exchange is concerned that slower liquidity providers that post on PSX are sometimes subject to suboptimal executions due to disparities in the speed with which market participants are able to react to market
