ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

Approval and Promulgation of Air Quality Implementation Plans; District of Columbia; the 2002 Base Year Inventory

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve the fine particulate matter (PM$_{2.5}$) 2002 base year emissions inventory portion of the District of Columbia State Implementation Plan (SIP) revision submitted by the District of Columbia, through the District Department of the Environment (DDOE), on April 2, 2008. The emissions inventory is part of the District of Columbia’s April 2, 2008 SIP revision that was submitted to meet nonattainment requirements related to the District of Columbia’s portion of the Washington DC-MD-VA nonattainment area (hereafter referred to as DC Area or Washington DC-MD-VA nonattainment area (hereafter referred to as DC Area or Area) for the 1997 PM$_{2.5}$ National Ambient Air Quality Standard (NAAQS) SIP. EPA is proposing to approve the 2002 base year PM$_{2.5}$ emissions inventory submitted by DDOE in accordance with the requirements of the Clean Air Act (CAA).

DATES: Written comments must be received on or before September 24, 2012.

ADDRESSES: Submit your comments, identified by Docket ID Number EPA–R03–OAR–2010–0152 by one of the following methods:

A. www.regulations.gov. Follow the on-line instructions for submitting comments.

B. Email: mastro.donna@epa.gov.

D. Hand Delivery: At the previously-listed EPA Region III address. Such deliveries are only accepted during the Docket’s normal hours of operation, and special arrangements should be made for deliveries of boxed information.

Instructions: Direct your comments to Docket ID No. EPA–R03–OAR–2010–0152. EPA’s policy is that all comments received will be included in the public docket without change, and may be made available online at www.regulations.gov, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through www.regulations.gov or email. The www.regulations.gov Web site is an “anonymous access” system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an electronic comment directly to EPA without going through www.regulations.gov, your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD–ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

Docket: All documents in the electronic docket are listed in the www.regulations.gov index. Although listed in the index, some information is not publicly available, i.e., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically in www.regulations.gov or in hard copy during normal business hours at the Air Protection Division, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103. Copies of the State submittal are available at the District of Columbia Department of the Environment, Air Quality Divia 1st Street NE., 5th floor, Washington, DC 20002.

FOR FURTHER INFORMATION CONTACT: Asrah Khadr, (215) 814–2071, or by email at khadr.asrah@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

Throughout this document, whenever “we,” “us,” or “our” is used, we mean EPA. On July 18, 1997 (62 FR 38652), EPA published the 1997 PM$_{2.5}$ NAAQS, including an annual standard of 15.0 µg/m$^3$ based on a 3-year average of annual mean PM$_{2.5}$ concentrations, and a 24-hour (or daily) standard of 65 µg/m$^3$ based on a 3-year average of the 98th percentile of 24-hour concentrations. EPA established the standards based on significant evidence and numerous health studies demonstrating that serious health effects are associated with exposures to PM$_{2.5}$.

Following promulgation of a new or revised NAAQS, EPA is required by the CAA to designate areas throughout the United States as attaining or not attaining the NAAQS; this designation process is described in section 107(d)(1) of the CAA. In 1999, EPA and state air-quality agencies initiated the monitoring process for the 1997 PM$_{2.5}$ NAAQS and, by January 2001, established a complete set of air-quality monitors. On January 5, 2005, EPA published initial air-quality designations for the 1997 PM$_{2.5}$ NAAQS (70 FR 944), which became effective on April 5, 2005, based on air-quality monitoring data for calendar years 2001–03.

On April 14, 2005, EPA promulgated a supplemental rule amending the agency’s initial designations (70 FR 19844), with the same effective date (April 5, 2005) as that which was promulgated at 70 FR 944. As a result of this supplemental rule, PM$_{2.5}$ nonattainment designations are in effect for 39 areas, comprising 208 counties within 20 states (and the District of Columbia) nationwide, with a combined population of approximately 88 million. The DC Area which is the subject of this rulemaking was included in the list of areas not attaining the 1997 PM$_{2.5}$ NAAQS.

On January 12, 2009 (74 FR 1146), EPA determined that the District of Columbia had attained the 1997 PM$_{2.5}$ NAAQS in the DC Area. That determination was based upon quality assured, quality controlled and certified ambient air monitoring data that showed the Area had monitored attainment of the 1997 PM$_{2.5}$ NAAQS for the 2004–2006 monitoring period and that continued to show attainment of the 1997 PM$_{2.5}$ NAAQS based on the 2005–07 data. The January 12, 2009 determination suspended the requirements for the District of Columbia to submit an attainment demonstration, associated reasonably available control measures, a reasonable further progress plan, contingency measures, and other planning SIP revisions related to attainment of the standard for so long as the nonattainment area continues to meet the 1997 PM$_{2.5}$ NAAQS. On February 6,
The CAA section 172(c)(3) emissions inventory is developed by the incorporation of data from multiple sources. States were required to develop and submit to EPA a triennial emissions inventory according to the Consolidated Emissions Reporting Rule (CERR) for all source categories (i.e., point, area, nonroad mobile and on-road mobile). The 2002 emissions inventory was based on data developed by DDOE and the Metropolitan Washington Council of Government (MWCOG). The data were developed according to current EPA emissions inventory guidance, “Emissions Inventory Guidance for Implementation of Ozone and Particulate Matter NAAQS and Regional Haze Regulations,” August 2005. EPA agrees that the process used to develop this emissions inventory is adequate to meet the requirements of CAA section 172(c)(3), the implementing regulations, and EPA guidance for emission inventories. More information regarding the review of the base year inventory can be found in the technical support document (TSD) titled “2002 SIP Base Year Inventory” that is located in this docket.

IV. Proposed Action

EPA is proposing to approve the 2002 base year emissions inventory portion of the SIP revision submitted by the District of Columbia through DDOE on April 2, 2008. We have made the determination that this action is consistent with section 110 of the CAA. EPA is soliciting public comments on the issues discussed in this document. These comments will be considered before taking final action.

II. Summary of SIP Revision

The 2002 base year emission inventory submitted by DDOE on April 2, 2008 includes emissions estimates that cover the general source categories of point sources, non-road mobile sources, area sources, on-road mobile sources, and biogenic sources. The pollutants that comprise the inventory are nitrogen oxides (NO\textsubscript{x}), volatile organic compounds (VOCs), PM\textsubscript{2.5}, coarse particles (PM\textsubscript{10}), ammonia (NH\textsubscript{3}), and sulfur dioxide (SO\textsubscript{2}). EPA has reviewed the results, procedures and methodologies for the base year emissions inventory submitted by DDOE. The year 2002 was selected by DDOE as the base year for the emissions inventory per 40 CFR 51.1008(b). A discussion of the emissions inventory development as well as the emissions inventory can be found in Appendix B of the April 3, 2008 SIP submittal.

Table 1 provides a summary of the annual 2002 emissions of NO\textsubscript{x}, VOCs, PM\textsubscript{2.5}, PM\textsubscript{10}, NH\textsubscript{3}, and SO\textsubscript{2} which were included in the District of Columbia submittal.

Table 1—Emissions of Pollutants in Tons per Year (TPY)

V. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely proposes to approve state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

• Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
• Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);
• Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);
• Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
• Does not have Federalism implications as specified in Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Nitrogen dioxide, Particulate matter, Reporting and recordkeeping requirements, Sulfur oxides, Volatile organic compounds.

Authority: 42 U.S.C. 7401 et seq.

Dated: August 8, 2012.

W.C. Early,
Acting Regional Administrator, Region III.
