

this important public health problem, in 2010, CDC implemented the National Intimate Partner and Sexual Violence Survey (NISVS) which produces national and state level estimates of IPV, SV and stalking on an annual basis.

NISVS uses a dual-frame sampling strategy that includes both landline and cell phone. In 2010, approximately 45.2% of interviews were conducted by landline telephone and 54.8% of interviews were conducted using respondent's cell phone. The overall weighted response rate for 2010 data collection was 27.5%. The weighted cooperation rate was 81.3%. The cooperation rate reflects the proportion who agreed to participate in the interview among those who were contacted and determined eligible. The cooperation rate obtained for 2010 data collection suggests that, once contact was made and eligibility was determined, the majority of respondents chose to participate in the interview.

In the first year of data collection, NISVS data indicated that approximately 6.9 million women and 5.6 million men experienced rape, physical violence and/or stalking by an intimate partner within the last year. NISVS data also suggested that 18.3% of women and 1.4% of men in the U.S.

experienced rape in their lifetime. In addition, 44.5% of women and 22.2% of men experienced sexual violence other than rape during their lifetime.

Approximately 5 million women and 1.4 million men in the United States were stalked in the 12 months prior to the survey.

There are also overlaps between stalking and other forms of violence experienced in intimate relationships; approximately 14% of females who were stalked by an intimate partner in their lifetime also experienced physical violence. Approximately 12% of female victims experienced rape, physical violence and stalking by a current or former intimate partner in their lifetime. Furthermore, 76% of female victims of intimate partner homicides were stalked by their partners before they were killed.

The lifetime impact of these types of violence on victims is extensive. Nearly 1 in 3 women and 1 in 10 men in the United States have experienced rape, physical violence and/or stalking by an intimate partner and reported at least one impact related to experiencing these or other forms of violent behavior within the relationship (e.g., fear, concern for safety, post-traumatic stress disorder (PTSD) symptom, injury, crisis

hotline consult, at least one day of work or school missed, and needs for health care, housing, victim advocate, and legal services.)

CDC proposes to continue collecting national data that will provide more detailed and timely information on intimate partner violence, sexual violence and stalking victimization in the U.S. The proposed revision to the National Intimate Partner and Sexual Violence Survey (NISVS) involves no longer collecting data on special sub-populations (i.e. military, American Indian/Alaskan Native, elderly) and thus focusing the scope of data collection to the general population. The overarching purpose of the information collected has not changed.

A total of 73,318 eligible households will be screened annually; out of the households screened, approximately 58,318 will not consent or agree to participate and 15,000 will complete the survey each year. The survey will be conducted among English and/or Spanish speaking male and female adults (18 years and older) living in the United States.

There are no costs to respondents other than their time.

The total estimated annual burden hours are 9,916.

ESTIMATED ANNUALIZED BURDEN HOURS

Safety and Occupational Health Study Section (SOHSS), National Institute for Occupational Safety and Health (NIOSH)

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Centers for Disease Control and Prevention (CDC)

announces the following meeting of the aforementioned committee:

Times and Dates

8 a.m.–5 p.m., October 16, 2012 (Closed).

8 a.m.–5 p.m., October 17, 2012 (Closed).

Place: Embassy Suites, 1900 Diagonal Road, Alexandria, Virginia 22314, Telephone: (703) 684-5900, Fax: (703) 684-0653.

Status: The meeting will be closed to the public in accordance with provisions set forth in Section 552b(c) (4) and (6), Title 5 U.S.C., and the Determination of the Director, Management Analysis and Services Office, CDC, pursuant to Public Law 92-463.

Purpose: The Safety and Occupational Health Study Section will review, discuss, and evaluate grant application(s) received in response to

the Institute's standard grants review and funding cycles pertaining to research issues in occupational safety and health, and allied areas.

It is the intent of NIOSH to support broad-based research endeavors in keeping with the Institute's program goals. This will lead to improved understanding and appreciation for the magnitude of the aggregate health burden associated with occupational injuries and illnesses, as well as to support more focused research projects, which will lead to improvements in the delivery of occupational safety and health services, and the prevention of work-related injury and illness. It is anticipated that research funded will promote these program goals.

Matters To Be Discussed: The meeting will convene to address matters related to the conduct of Study Section business and for the study section to

consider safety and occupational health-related grant applications.

Agenda items are subject to change as priorities dictate.

Submission for OMB Review; Comment Request

Title: Emergency Contingency Fund for Temporary Assistance for Needy Families (TANF) Programs OFA-100.

OMB No.: 0970-0366.

Description

On February 17, 2009, the President signed the American Recovery and Reinvestment Act of 2009 (Recovery Act), which establishes the Emergency Contingency Fund for State TANF Programs (Emergency Fund) as section 403(c) of the Social Security Act (the Act). This legislation provides up to \$5 billion to help States, Territories, and Tribes in fiscal year (FY) 2009 and FY 2010 that have an increase in assistance caseloads and basic assistance expenditures, or in expenditures related to short-term benefits or subsidized employment. The Recovery Act made additional changes to TANF extending supplemental grants through FY 2010, expanding flexibility in the use of TANF funds carried over from one fiscal year to the next, and adding a hold-harmless provision to the caseload reduction credit for States and Territories serving more TANF families.

The Emergency Fund is intended to build upon and renew the principles of work and responsibility that underlie successful welfare reform initiatives. The Emergency Fund provides resources to States, Territories, and Tribes to support work and families during this difficult economic period.

On July 20, 2009 we issued a Program Instruction accompanied by the Emergency Fund Request Form (OFA-100), and instructions for jurisdictions

to complete the OFA-100 to apply for emergency funds.

Failure to collect this data would compromise ACF's ability to monitor caseload and expenditure data that must increase in order for jurisdictions to receive awards under the Emergency Fund.

Documentation maintenance on financial reporting for the Emergency Fund is governed by 45 CFR 92.20 and 45 CFR 92.42.

ACF is planning to extend the information collection with the adjustment to the Estimated Annual Burden shown in the table below. Based on our projections for a lower Estimated Annual Burden, we have revised the Number of Respondents to 6 from its previous number of 93 and the Number of Responses per Respondent to 3 from its previous number of 5. Because the Number of Respondents and the Number of Responses per Respondents have been revised, the Estimated Total Burden Hours is now 432, down from its previous number of 11,160.

Respondents

State, Territory, and Tribal agencies administering the Temporary Assistance for Needy Families (TANF) Program that are applying for the Emergency Fund.

ANNUAL BURDEN ESTIMATES

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
TANF Emergency Fund Request Form, OFA-100	6	5	24	432

Estimated Total Annual Burden Hours: 432.
