For both the DOE/NSF Nuclear Science Advisory Committee and the Committee of Visitors, meetings are scheduled for September 21, 2012. The meeting topics include updates on Long Range Planning, UCSC Physics Beamline, and the impact of the FY 2014 Budget on High Energy Physics.

The meeting will be available for public participation and will be broadcast live on the Internet. If you wish to make an oral statement during the meeting, you are required to file a written statement with the Committee at least 5 business days before the meeting. The minutes of the meeting will be archived on the PCAST Web site.

**DEPARTMENT OF ENERGY**

**U.S. Energy Information Administration**

Agency Information Collection Extension

**AGENCY:** U.S. Energy Information Administration (EIA), Department of Energy.

**ACTION:** Notice and request for OMB review and comment.

**SUMMARY:** The EIA has submitted an information collection request to the OMB for extension under the provisions of the Paperwork Reduction Act of 1995. The information collection requests a three-year extension of its Uranium Data Program, OMB Control Number 1905–0160. The proposed collection will modify and continue the use of Form EIA–851A “Domestic Uranium Production Report (Annual),” Form EIA–851Q “Domestic Uranium Production Report (Quarterly),” and the Form EIA–858 “Uranium Marketing Annual Survey.” EIA proposed minor changes to Form EIA–851Q and its reporting instructions, and to the reporting instructions to Form EIA–851A and Form EIA–858.

**DATES:** Comments regarding this proposed information collection must be received on or before September 26, 2012. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, please advise the DOE Desk Officer at OMB of your intention to make a submission as soon as possible. The Desk Officer may be telephoned at 202–395–4718.

**ADDRESSES:** Written comments should be sent to the DOE Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10102, 735 17th Street NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT:
Requests for additional information or copies of the information collection instrument and instructions should be directed to Douglas Bonnar at the contact information given above. Forms and instructions are also available on the Internet at: http://www.eia.gov/survey/#uranium.
SUPPLEMENTARY INFORMATION: This information collection request contains: (1) OMB No.: 1905–0160; (2) Information Collection Request Title: Uranium Data Program; (3) Type of Request: Extension of a currently approved collection; (4) Purpose: Collects basic data necessary to meet EIA’s legislative mandates as well as the needs of the Congress, Federal Government, State and local governments, industry, and the general public; (5) Annual Estimated Number of Respondents: 131; (6) Annual Estimated Number of Total Responses: 205; (7) Annual Estimated Number of Burden Hours: 1,460; (8) Annual Estimated Reporting and Recordkeeping Cost Burden: EIA estimates that there are no additional costs to respondents associated with the surveys other than the costs associated with the burden hours.

Issued in Washington, DC, on August 16, 2012.

Stephanie Brown,
Director, Office of Survey Development and Statistical Integration, U.S. Energy Information Administration.

[Docket No. CP12–496–000]

Colorado Interstate Gas Company, L.L.C.; Notice of Application

Take notice that on August 7, 2012, Colorado Interstate Gas Company, L.L.C. (CIG), Post Office Box 1087, Colorado Springs, Colorado 80944, filed in the above-captioned docket an application pursuant to section 7(c) of the Natural Gas Act (NGA) for a certificate of public convenience and necessity authorizing the construction of its High Plains 2013 Expansion Project. The project consists of: (i) A new 7.75 mile, 24-inch diameter pipeline, the Lancaster Lateral, in Weld County, Colorado; (ii) an overpressure protection facility; (iii) two new receipt meter stations, and (iv) the modification of existing facilities. Also CIG requests a predetermination of rolled in rate treatment related to the cost of service on the new facilities that will allow CIG to meet market demand for transportation service on the High Plains System from new natural gas processing facilities to the Cheyenne Hub located in Weld County, Colorado, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing may also be viewed on the Web at http://www.ferc.gov using the “eLibrary” link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 206–3676, or TTY, contact (202) 502–8659.

Any questions concerning this application may be directed to Francisco Tarin, Director, Regulatory Affairs, Colorado Interstate Gas Company, L.L.C.; P.O. Box 1087, Colorado Springs, Colorado 80944 at (719) 667–7517 or by fax at (719) 667–7534 or Mark A. Minich, General Counsel, Colorado Interstate Gas Company, L.L.C.; P.O. Box 1087, Colorado Springs, Colorado 80944 at (719) 520–4416 or by fax at (719) 520–4415.

Pursuant to section 157.9 of the Commission’s rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission’s public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff’s issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission’s public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff’s FEIS or EA.

There are two ways to become involved in the Commission’s review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission’s Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the “eFiling” link available under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission’s rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission’s environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission’s environmental review process.

Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission’s final order.

The Commission strongly encourages electronic filings of comments, protests, and interventions in lieu of paper using the “eFiling” link at http://www.ferc.gov. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. This filing is accessible online at http://www.ferc.gov, using the “eLibrary” link and is available for review in the Commission’s Public Reference Room in Washington, DC. There is an “eFiling” link on the Web site that enables subscribers to receive email notification when a
