AGENCY: Federal Communications Commission.

ACTION: Notice; request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burden and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the Federal Communications Commission invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s). Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information burden for small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid OMB control number.

Total Annual Burden: 10,168 hours.

Total Annual Cost: N/A.

Privacy Impact Assessment: N/A.

Nature and Extent of Confidentiality: Although the Commission does not believe that any confidential information will need to be disclosed in order to comply with the certification and notification requirements and the corresponding PSAP response provisions, covered carriers or PSAPs are free to request that materials or information submitted to the Commission be withheld from public inspection and from the E911 web site. Entities wishing to submit confidential information may do so according to 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission seeks Office of Management and Budget (OMB) approval for an extension (no change in the reporting, recordkeeping and third party disclosure requirements) after this comment period. There is no change in the Commission's 2009 burden estimates.

Under the Commission's E911 rules, a wireless carrier must provide E911 service to a particular Public Safety Answering Point (PSAP) within six months only if that PSAP makes a request for the service and is capable of receiving and utilizing the information provided. In the City of Richardson, TX Order, the Commission's actions were intended to facilitate the E911 implementation process by encouraging parties to communicate with each other early in the implementation process, and to maintain a constructive, on-going dialog throughout the implementation process.

The Order contains the following information collection requirements for which the Commission seeks continued OMB approval:

(a) The Commission established a procedure whereby wireless carriers that have completed all necessary steps toward E911 implementation that are not dependent on PSAP readiness may have their compliance obligation temporarily tolled, if the PSAP is not ready to receive the information at the end of the six-month period, and the carrier files a certification to that effect with the Commission.

(b) As part of the certification and notification process (third party disclosure requirements), a carrier must notify the PSAP of its intent to file a certification with the Commission that the PSAP is not ready to receive and use the information. The PSAP is permitted to send a response to the carrier's notification to affirm that it is not ready to receive E911 information or to challenge the carrier's characterization of its state of readiness. Carriers are required to include any response they receive from the PSAP in their certification filing to the Commission.

(c) The Commission clarified that noting in its rules prevented wireless carriers and PSAPs from mutually agreeing to an E911 deployment schedule at variance with the schedule contained in the Commission's rules. Carriers and PSAPs may choose to participate in the certification and private negotiation process. The Commission does not require participation.

The Commission will use the certification filings from wireless carriers to determine each carrier's compliance with its E911 obligations. The Commission will review carrier certifications to ensure that carriers have sufficiently explained the basis for their conclusion that a particular PSAP will not be ready and have identified all of the specific steps for the PSAP to provide the requested service. The Commission retains the discretion to investigate a carrier's certification and take enforcement action if appropriate.

Total Annual Cost: \$52,519,656.

Nature and Extent of Confidentiality: There is no need for confidentiality and respondents are not being asked to submit confidential information to the Commission.

Needs and Uses: On January 28, 2010, the Commission adopted a First Report and Order and Further Notice of Proposed Rulemaking ("Rural First R&O") in MB Docket No. 09-52, FCC 10-24, 25 FCC Rcd 1583 (2010). In the

Rural First R&O, the Commission adopted a Tribal Priority under Section 307(b) of the Communications Act of 1934, as amended, to assist federally recognized Native American Tribes and Alaska Native Villages ("Tribes") and entities primarily owned or controlled by Tribes in obtaining broadcast radio construction permits designed primarily to serve Tribal Lands (the "Tribal Priority"). Tribal affiliated applicants that meet certain conditions regarding Tribal membership and signal coverage qualify for the Tribal Priority, which in most cases will enable the qualifying applicants to obtain radio construction permits without proceeding to competitive bidding, in the case of commercial stations, or to a point system evaluation, in the case of noncommercial educational ("NCE") stations.

On March 3, 2011, the Commission adopted a Second Report and Order ("Rural Second R&O"), First Order on Reconsideration, and Second Further Notice of Proposed Rule Making in MB Docket No. 09-52, FCC 11-28, 26 FCC Rcd 2556 (2011). On December 28, 2011, the Commission adopted a Third Report and Order in MB Docket No. 09-52, FCC 11-190, 26 FCC Rcd 17642 (2011) ("Rural Third R&O"). In the Rural Third R&O the Commission further refined the use of the Tribal Priority in the commercial FM radio context, specifically adopting a "Threshold Qualifications" approach to commercial FM application processing.

Furthermore, under the Commission's Tribal Priority procedures, entities obtaining:

(a) An AM authorization for which the applicant claimed and received a dispositive Section 307(b) priority because it qualified for the Tribal Priority; or

(b) An FM commercial non-reserved band station awarded:

(1) To the applicant as a singleton Threshold Qualifications Window applicant,

(2) To the applicant after a settlement among Threshold Qualifications Window applicants, or

(3) To the applicant after an auction among a closed group of bidders composed only of threshold qualified Tribal applicants; or

(c) A reserved-band NCE FM station for which the applicant claimed and received the Tribal Priority in a fair distribution analysis as set forth in 47 CFR 73.7002(b)(1), may not assign or transfer the authorization during the period beginning with issuance of the construction permit, until the station has completed four years of on-air operations, unless the assignee or

transferee also qualifies for the Tribal Priority. Pursuant to procedures set forth in the Rural Third R&O, 26 FCC Rcd at 17645–50, the Tribal Priority Holding Period is now applied in the context of authorizations obtained using Tribal Priority Threshold Qualifications.

Consistent with actions taken by the Commission in the Rural Third R&O, the following changes are made to Forms 314 and 315: Section I of each form includes a question asking applicants to indicate whether any of the authorizations involved in the subject transaction were obtained: after award of a dispositive Section 307(b) preference using the Tribal Priority; through Threshold Qualification procedures; or through the Tribal Priority as applied before the NCE fair distribution analysis. A subsequent question then asks whether both the assignor/transferee and assignee/transferee qualify for the Tribal Priority in all respects. Applicants not meeting the Tribal Priority qualifications and proposing an assignment or transfer during the Holding Period must provide an exhibit demonstrating that the transaction is consistent with the Tribal Priority policies or that a waiver is warranted. The instructions for Section I of Forms 314 and 315 have been revised to assist applicants with completing the questions.
