[Docket No. FMCSA–2012–0209]

Agency Information Collection Activities; Revision of a Currently-Approved Information Collection Request: Information Technology Services Survey Portal Consumer Satisfaction Assessment (Formerly COMPASS Portal Consumer Satisfaction Assessment)

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FMCSA announces its plan to submit the Information Collection Request (ICR) described below to the Office of Management and Budget (OMB) for its review and approval and invites public comment. The collection involves the assessment of FMCSA’s strategic decision to integrate its Information Technology (IT) with its business processes using portal technology to consolidate its systems and databases through the FMCSA Information Technology Services Survey modernization initiative. The information to be collected will be used to assess the satisfaction of Federal, State, and industry customers with the FMCSA Information Technology Services Survey Portal. The name of the “COMPASS Portal Customer Satisfaction Assessment” information collection request (ICR) is being changed to “Information Technology Services Survey Portal Customer Satisfaction Assessment,” to reflect the need for a broader term than “COMPASS” for the portal.

DATES: We must receive your comments on or before October 29, 2012.

ADDRESSES: You may submit comments identified by Federal Docket Management System (FDMS) Docket Number FMCSA–2012–0209 using any of the following methods:

You can obtain electronic submission and retrieval help and guidelines under the “help” section of the Federal eRulemaking Portal Web site. If you want us to notify you that we received your comments, please include a self-addressed, stamped envelope or postcard, or print the acknowledgement page that appears after submitting comments online. Comments received after the comment closing date will be included in the docket and will be considered to the extent practicable.

SUPPLEMENTARY INFORMATION:

Background Title II, section 207 of the E-Government Act of 2002 requires Government agencies to improve the methods by which government information, including information on the Internet, is organized, preserved, and made accessible to the public. To meet this goal, FMCSA plans to provide a survey on the FMCSA Portal, allowing users to assess its functionality. This functionality includes the capability for Federal, State, and Industry users to access the Agency’s existing safety IT systems with a single set of credentials and have easy access to safety data about the companies that do business with FMCSA. The Information Technology program will also focus on improving the accuracy of data to help ensure information, such as carrier name and address, is valid and reliable. FMCSA’s legacy information systems are currently operational. However, having this many stand-alone systems has led to data quality concerns, a need for excessive IDs and passwords, and significant operational and maintenance costs. Integrating our information technologies with our business processes will, in turn, improve our operations considerably, particularly in terms of data quality, ease of use, and reduction of maintenance costs. In early 2007, FMCSA’s Information Technology program launched a series of releases of a new FMCSA Portal to its Federal, State and Industry customers. Over the coming years, more than 15 releases are planned. These releases will use portal technology to fuse and provide numerous services and functions via a single user interface and provide tailored services that seek to meet the needs of specific constituencies within our customer universe.

The FMCSA Information Technology Services Survey Portal will use considerable expenditure of Federal Government dollars over the years and will fundamentally impact the nature of
the relationship between the Agency and its Federal, State, and Industry customers. Consequently, the Agency intends to conduct regular and ongoing assessments of customer satisfaction with Information Technology Services Survey.

The primary purposes of this assessment are to:

- Determine the extent to which the FMCSA Portal functionality continues to meet the needs of Agency customers.
- Identify and prioritize additional modifications.
- Determine the extent that the FMCSA Portal has impacted FMCSA’s relationships with its main customer groups.

The assessment will address:

- Overall customer satisfaction.
- Customer satisfaction against specific items.
- Performance of systems integrator against agreed objectives.
- Desired adjustments and modifications to systems.
- Demonstrated value of investment to FMCSA and DOT.
- Items about the FMCSA Portal that customers like best.
- Customer ideas for making the FMCSA Portal better.

**Background**

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the Federal Motor Carrier Safety Regulations for a 2-year period if it finds “such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption.”

FMCSA can renew exemptions at the end of each 2-year period. The 19 individuals listed in this notice have each requested such an exemption from the vision requirement in 49 CFR 391.41(b)(10), which applies to drivers of CMVs in interstate commerce. Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting an exemption will achieve the required level of safety mandated by statute.
