Rural Utilities Service

Title: 7 CFR 1730, Review Rating Summary.

OMB Control Number: 0572-0025.

Summary of Collection: The Rural Utilities Service (RUS) manages loan programs in accordance with the Rural Electrification Act (RE Act) of 1936, 7 U.S.C. 901 *et seq.*, as amended. An important part of safeguarding loan security is to see that RUS financed facilities are being responsible used, adequately operated, and adequately maintained. Future needs have to be anticipated to ensure that facilities will continue to produce revenue and loans will be repaid as required by the RUS mortgage. Regular periodic operations and maintenance (O&M) review can identify and correct inadequate O&M practices before they cause extensive harm to the system. Inadequate O&M practices can result in public safety hazards, increased power outages for consumers, added expense for emergency maintenance, and premature aging of the borrower's systems, which could increase the loan security risk to RUS.

Need and Use of the Information: RUS will collect information using form 300 Review Rate Summary to identify items that may be in need of additional attention; to plan corrective actions when needed; to budget funds and manpower for needed work; and to initiate ongoing programs as necessary to avoid or minimize the need for "catch-up" programs.

Description of Respondents: Not-for-profit institutions; Business or other for-profit.

Number of Respondents: 217.

Frequency of Responses: Reporting; On occasion.

water and waste facilities in rural areas. In addition to providing loans and loan guarantees, one of RUS' main objectives is to safeguard loan security until the loan is repaid. The RE Act also authorizes the Secretary to make studies, investigations, and reports concerning the progress of borrowers' furnishing of adequate telephone service and publish and disseminate this information.

Need and Use of the Information: Information from the Operating Report for both telecommunication and broadband borrowers provides RUS with vital financial information needed to ensure the maintenance of the security for the Government's loans and service data which enables RUS to ensure the provision of quality telecommunications and broadband service as mandated by the RE Act of 1936. Form 674, "Certificate of Authority to Submit or Grant Access to Data" will allow telecommunication and broadband borrowers to file electronic Operating Reports with the agency using the new USDA Data Collection System. RUS, in representing the Federal Government as Mortgagee, relies on the information provided by the borrowers in their financial statements to make lending decisions as to borrowers' credit worthiness and to assure that loan funds are approved, advanced and disbursed for proper Act purposes. Borrowers are required to furnish a full and complete report of their financial condition, operations and cash flows, in form and substance satisfactory to RUS.

Need and Use of the Information: RUS will collect information to evaluate borrowers' financial performance, determine whether current loans are at financial risk, and determine the credit worthiness of future losses. Need and Use of the Information: RUS will collect information to consider whether or not to approve a borrower's request to make an investment in a rural development project when such an investment would cause the borrower to exceed its allowable investment level. If this information was not collected, RUS could not thoroughly assess the economic impact of such an investment.
