SUPPLEMENTARY INFORMATION:

I. Abstract

The purpose of the Rural Water Program is to provide assistance to small communities of 50,000 inhabitants or less, including tribes and tribal organizations, to plan the design and construction of projects to serve rural areas with industrial, municipal, and residential water. Specifically, the Bureau of Reclamation (Reclamation) is authorized to provide financial and technical assistance to conduct appraisal investigations and feasibility studies for rural water supply projects. Reclamation’s regulation, 43 CFR part 404, establishes criteria governing how the program will be implemented, including eligibility and prioritization criteria, and criteria to evaluate appraisal and feasibility studies. Entities interested in participating in the Rural Water Program are requested to submit information regarding proposed appraisal investigation and feasibility studies, to allow Reclamation to evaluate and prioritize requests for financial or technical assistance under the program. Reclamation will apply the program criteria to the information provided to determine whether the entity seeking assistance is eligible, whether the project is eligible for assistance, and to what extent the project meets Reclamation’s prioritization criteria. Requests for assistance under the Rural Water Program will be made on a voluntary basis. There is no form associated with this information collection.

II. Data

OMB Control Number: 1006–0029.
Title: Reclamation Rural Water Supply Program, 43 CFR part 404.
Frequency: Once annually.
Respondents: States, tribes, municipalities, water districts, and other entities created under State law with water management authority.
Estimated Annual Total Number of Respondents: 56.
Estimated Number of Responses per Respondent: 1.
Estimated Total Number of Annual Responses: 56.
Estimated Total Annual Burden on Respondents: 2,100 hours.

III. Request for Comments

We invite your comments on:
(a) Whether the proposed collection of information is necessary for the proper performance of our functions, including whether the information will have practical use;
(b) The accuracy of our burden estimate for the proposed collection of information;
(c) Ways to enhance the quality, usefulness, and clarity of the information to be collected; and
(d) Ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. A 60-day comment period soliciting comments on this collection of information was published in the Federal Register on June 7, 2012. No public comments were received.

Roseann Gonzales,
Director, Policy and Administration, Denver Office.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731–TA–1189 (Final)]
Large Power Transformers From Korea Determination

On the basis of the record developed in the subject investigation, the United States International Trade Commission (Commission) determines, pursuant to section 735(b) of the Tariff Act of 1930 (19 U.S.C. 1673d(b)) (the Act), that an industry in the United States is materially injured, by reason of imports from Korea of large power transformers, provided for in subheadings 8504.23.00 and 8504.90.95 of the Harmonized Tariff Schedule of the United States, that have been found by the Department of Commerce (Commerce) to be sold in the

1 The record is defined in sec. 207.2[f] of the Commission’s Rules of Practice and Procedure (19 CFR 207.2[f]).
2 Commissioner Daniel R. Pearson not participating.
