## SUPPLEMENTARY INFORMATION:

### I. Abstract

The purpose of the Rural Water Program is to provide assistance to small communities of 50,000 inhabitants or less, including tribes and tribal organizations, to plan the design and construction of projects to serve rural areas with industrial, municipal, and residential water. Specifically, the Bureau of Reclamation (Reclamation) is authorized to provide financial and technical assistance to conduct appraisal investigations and feasibility studies for rural water supply projects. Reclamation's regulation, 43 CFR part 404, establishes criteria governing how the program will be implemented, including eligibility and prioritization criteria, and criteria to evaluate appraisal and feasibility studies. Entities interested in participating in the Rural Water Program are requested to submit information regarding proposed appraisal investigation and feasibility studies, to allow Reclamation to evaluate and prioritize requests for financial or technical assistance under the program. Reclamation will apply the program criteria to the information provided to determine whether the entity seeking assistance is eligible, whether the project is eligible for assistance, and to what extent the project meets Reclamation's prioritization criteria. Requests for assistance under the Rural Water Program will be made on a voluntary basis. There is no form associated with this information collection.
