For the first administrative review of any order, there will be no assessment of antidumping or countervailing duties on entries of subject merchandise entered, or withdrawn from warehouse, for consumption during the relevant provisional-measures “gap” period, of the order, if such a gap period is applicable to the period of review.

Interested parties must submit applications for disclosure under administrative protective orders in accordance with 19 CFR 351.305. On January 22, 2008, the Department published Antidumping and Countervailing Duty Proceedings: Documents Submission Procedures; APO Procedures, 73 FR 3634 (January 22, 2008). Those procedures apply to administrative reviews included in this notice of initiation. Parties wishing to participate in any of these administrative reviews should ensure that they meet the requirements of these procedures (e.g., the filing of separate letters of appearance as discussed at 19 CFR 351.103(d)).

Any party submitting factual information in an antidumping duty or countervailing duty proceeding must certify to the accuracy and completeness of that information. See section 782(b) of the Act. Parties are hereby reminded that revised certification requirements are in effect for company/government officials as well as their representatives in all segments of any antidumping duty or countervailing duty proceedings initiated on or after March 14, 2011. See Certification of Factual Information to Import Administration During Antidumping and Countervailing Duty Proceedings: Interim Final Rule, 76 FR 7491 (February 10, 2011) (“Interim Final Rule”), amending 19 CFR 351.303(g)(1) and (2). The formats for the revised certifications are provided at the end of the Interim Final Rule. The Department intends to reject factual submissions in any proceeding segments initiated on or after March 14, 2011 if the submitting party does not comply with the revised certification requirements.

These initiations and this notice are in accordance with section 751(a) of the Act (19 U.S.C. 1675(a)) and 19 CFR 351.221(c)(1)(i).

Dated: August 20, 2012.

Gary Taverman,
Senior Advisor for Antidumping and Countervailing Duty Operations.

BILLING CODE 3510–0S–P
Annex B, Section: Operator Authentication Mechanisms—the comments received indicated that the specification for the strength of the operator’s authentication method was incomplete, particularly with respect to biometrics. For biometric authentication, NIST proposes the use of a Liveness Detection method associated with the Session False Match Rate for one attempt and the Generalized False Accept Rate for multiple attempts in one minute. NIST would appreciate comments on the proposed approach.

Comments on sections not specifically listed in this notice will not be considered.

Prior to the submission of the FIPS 140–3 to the Secretary of Commerce for review and approval, it is essential that consideration is given to the needs and views of the public, users, the information technology industry, and Federal, State and local government organizations. The purpose of this notice is to solicit such views on specific sections of the “2009 Draft.”

E.O. 12866: This notice has been determined not to be significant for the purpose of E.O. 12866.

Willie E. May,
Associate Director for Laboratory Programs.
