the effects that a proposed action may have on the listed ESU. The best available information in the Final Recovery Plan on the natural history, threats, and potential limiting factors, and priorities for recovery can be used to help assess risks. Consistent with the adoption of this Final Recovery Plan for Central California Coast coho salmon, we will implement relevant actions for which we have authority, work cooperatively on implementation of other actions, and encourage other Federal and state agencies to implement recovery actions for which they have responsibility and authority.

Recovery of Central California Coast coho salmon will require a long-term effort in cooperation and coordination with Federal, state, tribal and local government agencies, and the community.

**Conclusion**

NMFS has reviewed the Plan for compliance with the requirements of ESA section 4(f), determined that it does incorporate the required elements and is therefore adopting it as the Final Recovery Plan for Central California Coast coho salmon.

**Public Meetings**

Public meetings are planned for Ukiah, Santa Cruz, and Santa Rosa, CA. Workshops will be held at the locations and dates listed below:

<table>
<thead>
<tr>
<th>Date</th>
