

DEPARTMENT OF THE INTERIOR**Fish and Wildlife Service****50 CFR Part 20**

[Docket No. FWS-R9-MB-2012-0005; FF09M21200-123-FXMB1231099BPP0L2]

RIN 1018-AX97

Migratory Bird Hunting; Migratory Bird Hunting Regulations on Certain Federal Indian Reservations and Ceded Lands for the 2012-13 Early Season**AGENCY:** Fish and Wildlife Service, Interior.**ACTION:** Final rule.

SUMMARY: This rule prescribes special early-season migratory bird hunting regulations for certain tribes on Federal Indian reservations, off-reservation trust lands, and ceded lands. This rule responds to tribal requests for U.S. Fish and Wildlife Service (hereinafter Service or we) recognition of tribal authority to regulate hunting under established guidelines. This rule allows the establishment of season bag limits and, thus, harvest, at levels compatible with populations and habitat conditions.

DATES: This rule takes effect on September 1, 2012.

ADDRESSES: You may inspect comments received on the special hunting regulations and tribal proposals during normal business hours in room 4107, Arlington Square Building, 4501 N. Fairfax Drive, Arlington, VA or at <http://www.regulations.gov> at Docket No. FWS-R9-MB-2012-0005.

FOR FURTHER INFORMATION CONTACT: Ron W. Kokel, U.S. Fish and Wildlife Service, Department of the Interior, MS MBSP-4107-ARLSQ, 1849 C Street NW., Washington, DC 20240; (703)-358-1714.

SUPPLEMENTARY INFORMATION: The Migratory Bird Treaty Act (MBTA) of July 3, 1918 (40 Stat. 755; 16 U.S.C. 703 *et seq.*), authorizes and directs the Secretary of the Department of the Interior, having due regard for the zones of temperature and for the distribution, abundance, economic value, breeding habits, and times and lines of flight of migratory game birds, to determine when, to what extent, and by what means such birds or any part, nest, or egg thereof may be taken, hunted, captured, killed, possessed, sold, purchased, shipped, carried, exported, or transported.

In the August 16, 2012, **Federal Register** (77 FR 49680), we proposed

special migratory bird hunting regulations for the 2012-13 hunting season for certain Indian tribes, under the guidelines described in the June 4, 1985, **Federal Register** (50 FR 23467). The guidelines respond to tribal requests for Service recognition of their reserved hunting rights, and for some tribes, recognition of their authority to regulate hunting by both tribal members and nonmembers on their reservations. The guidelines include possibilities for:

(1) On-reservation hunting by both tribal members and nonmembers, with hunting by nontribal members on some reservations to take place within Federal frameworks but on dates different from those selected by the surrounding State(s);

(2) On-reservation hunting by tribal members only, outside of usual Federal frameworks for season dates and length, and for daily bag and possession limits; and

(3) Off-reservation hunting by tribal members on ceded lands, outside of usual framework dates and season length, with some added flexibility in daily bag and possession limits. In all cases, the regulations established under the guidelines must be consistent with the March 10-September 1 closed season mandated by the 1916 Migratory Bird Treaty with Canada. We have successfully used the guidelines since the 1985-86 hunting season. We finalized the guidelines beginning with the 1988-89 hunting season (August 18, 1988, **Federal Register** [53 FR 31612]).

In the April 17, 2012, **Federal Register** (77 FR 23094), we requested that tribes desiring special hunting regulations in the 2012-13 hunting season submit a proposal including details on:

(a) Harvest anticipated under the requested regulations;

(b) Methods that would be employed to measure or monitor harvest (such as bag checks, mail questionnaires, etc.);

(c) Steps that would be taken to limit level of harvest, where it could be shown that failure to limit such harvest would adversely impact the migratory bird resource; and

(d) Tribal capabilities to establish and enforce migratory bird hunting regulations.

No action is required if a tribe wishes to observe the hunting regulations established by the State(s) in which an Indian reservation is located. On August 16, 2012, we published a proposed rule (77 FR 49680) that included special migratory bird hunting regulations for 30 Indian tribes, based on the input we received in response to the April 17, 2012, proposed rule. All the regulations

contained in this final rule were either submitted by the tribes or approved by the tribes and follow our proposals in the August 16 proposed rule.

Although the August 16 proposed rule included generalized regulations for both early- and late-season hunting, this rulemaking addresses only the early-season proposals. Therefore, it includes information for only 21 tribes. The letter designations for the paragraphs pertaining to each tribe in this rule are discontinuous because they follow the letter designations for the 30 tribes discussed in the August 8 proposed rule, which set forth paragraphs (a) through (dd). Late-season hunting will be addressed in late September. As a general rule, early seasons begin during September each year and have a primary emphasis on such species as mourning and white-winged doves. Late seasons begin about October 1 or later each year and have a primary emphasis on waterfowl.

Population Status and Harvest

Information on the status of waterfowl and information on the status and harvest of migratory shore and upland game birds, including detailed information on methodologies and results, is available at the address indicated under **FOR FURTHER INFORMATION CONTACT** or from our Web site at http://www.fws.gov/migratory_birds/NewsPublicationsReports.html.

Comments and Issues Concerning Tribal Proposals

For the 2012-13 migratory bird hunting season, we proposed regulations for 30 tribes and/or Indian groups that followed the 1985 guidelines. Only 26 tribes were considered appropriate for final rulemaking because we did not receive proposals from 4 of the tribes for whom we had proposed regulations. Some of the tribal proposals had both early- and late-season elements. However, as noted earlier, only those with early-season proposals are included in this final rulemaking; 21 tribes have proposals with early seasons. The comment period for the proposed rule, published on August 16, 2012, closed on August 27, 2012. Because of the necessary brief comment period, we will respond to any comments on the proposed rule and/or these regulations postmarked by August 27, but not received prior to final action by us, in the September late-season final rule. At this time, we have received three comments.

Great Lakes Indian Fish and Wildlife Commission's (GLIFWC) Proposal

We received two comments on GLIFWC's initial proposal from the State of Wisconsin and the Mississippi Flyway Council (MFC). We also received a subsequent comment from the GLIFWC in response to our August 16 proposed rule.

The State of Wisconsin, Department of Natural Resources (WDNR) and MFC noted the long history of working cooperatively with GLIFWC and individual tribes in the conservation of Wisconsin's waterfowl and wetland resources. However, WDNR and MFC believed the most significant problem with the GLIFWC proposal was the request to allow tribal members to hunt with the use of electronic calls for ducks and geese within the ceded territory. WDNR and MFC believe that, since the ceded territory covers one-third of the State of Wisconsin, one-half of the State of Michigan, significant areas of Minnesota, and significant areas of public hunting grounds and waters in those States, the use of electronic calls by tribal hunters would put any nontribal hunters in violation of the law when hunting in these areas. Thus, GLIFWC's proposal would, in effect, close public lands to hunting, increase conflicts among the hunting public, and create a safety concern and an unmanageable law enforcement environment. WDNR and MFC also opposed the extension of shooting hours to 60 minutes past sunset and removing species restrictions from the daily bag limit because of safety and resource concerns. WDNR and MFC also believe that GLIFWC's proposal to remove all species restrictions in hunting regulations fails to recognize the different status and regulations of each species and as such is inconsistent with established cooperative management practices. WDNR and MFC believe that management decisions could not be honored without species-level restrictions. WDNR and MFC believe that a tribal tundra swan hunting season in the ceded territory should not be implemented in 2012 because additional biological evaluation and harvest planning should be conducted, especially in light of the trumpeter swan issues. WDNR asks that the same criteria of not implementing duck hunting seasons prior to September 15 because of impacts to breeding ducks in Wisconsin be applied to tribal seasons as well. WDNR also opposes the tribes being exempt from decoy restrictions.

GLIFWC reiterated that their proposal was consistent with their underlying treaty rights and values, and that their

proposals were biologically sound and culturally appropriate. More specifically, they proposed allowing the use of electronic calls for geese from September 1 to 21, and for ducks from September 4 to 21 in the 1837 and 1842 Treaty areas. They stated that the proposed revision to their initial proposal would minimize any user conflicts since waterfowl seasons in Michigan, Minnesota, and Wisconsin are closed. They also offered to conduct a post-season harvest survey on the use of and harvest associated with electronic calls.

Regarding expanded shooting hours, GLIFWC proposed to extend shooting hours from 45 minutes before sunrise to 45 minutes after sunset, a reduction of 15 minutes from their initial proposal. They stated that this proposal was consistent with other Service-approved tribal proposals (69 FR 53990; September 3, 2004) and was consistent with recent changes in Wisconsin allowing the harvest of wolves at night.

GLIFWC also proposed changes to the swan hunting proposal. They requested the establishment of an experimental season in Ashland, Bayfield, Forest, and Oneida Counties in Wisconsin with a 2-bird daily bag limit, mandatory registration, and carcass verification.

Lastly, GLIFWC proposed to correct an oversight in the initial season proposal pertaining to mergansers and woodcock seasons. They amended the proposed season opening dates in the 1836 Treaty area for both species from September 4, rather than September 15.

Service Response: The GLIFWC 2012 proposal, and subsequent proposed revisions, had several significant changes from regulations approved last season. In the 1837 and 1842 Treaty Areas, the GLIFWC proposal would allow the use of electronic calls in September; would extend shooting hours by 15 minutes in both the morning and the evening to 45 minutes before sunrise and 45 minutes after sunset; would increase the daily bag limits to 50 ducks and remove all species restrictions within the daily bag limit for ducks; would allow the first harvest of sandhill cranes and tundra swans; would open the season (other than for geese) on September 4; and would remove restrictions for decoy use in Wisconsin. In the 1836 Treaty Area, the GLIFWC proposal would remove all species restrictions within the daily bag limit for ducks.

GLIFWC states that the regulatory changes are intended to provide tribal members a harvest opportunity within the scope of rights reserved in their various treaties and increase tribal subsistence harvest opportunities, while

protecting migratory bird populations. Under the GLIFWC proposed regulations, GLIFWC expects total ceded territory harvest to be approximately 1,575 ducks, 300 geese, 50 sandhill cranes, and 50 tundra swans, which is roughly similar to anticipated levels in previous years for those species for which seasons were established. GLIFWC further anticipates that tribal harvest will remain low given the small number of tribal hunters and the limited opportunity to harvest more than a small number of birds on most hunting trips.

Recent GLIFWC harvest surveys (1996–98, 2001, 2004, 2007–08, and preliminary 2011) indicate that tribal off-reservation waterfowl harvest has averaged less than 1,050 ducks and 200 geese annually. In the latest survey year for which we have specific results (2004), an estimated 53 hunters took an estimated 421 trips and harvested 645 ducks (1.5 ducks per trip) and 84 geese (0.2 geese per trip). Analysis of hunter survey data over 1996–2004 indicates a general downward trend in both harvest and hunter participation.

Many of the components of the GLIFWC proposal are acceptable to the Service and are adopted in this rule. However, a number of the components are not in the best interest of the conservation of migratory birds. More specific discussion follows below.

Allowing Electronic Calls

As we stated last year (76 FR 54676, September 1, 2011), the issue of allowing electronic calls and other electronic devices for migratory game bird hunting has been highly debated and highly controversial over the last 40 years, similar to other prohibited hunting methods such as baiting. Electronic calls, *i.e.*, the use or aid of recorded or electronic amplified bird calls or sounds, or recorded or electrically amplified imitations of bird calls or sounds to lure or attract migratory game birds to hunters, was Federally prohibited in 1957 because of its effectiveness in attracting and aiding the harvest of ducks and geese and is generally not considered a legitimate component of hunting. In 1999, after much debate, the migratory bird regulations were revised to allow the use of electronic calls for the take of light geese (lesser snow geese and Ross geese) during a light-geese-only season when all other waterfowl and crane hunting seasons, excluding falconry, were closed (64 FR 7507, February 16, 1999; 64 FR 71236, December 20, 1999; and 73 FR 65926, November 5, 2008). The regulations were subsequently changed also in 2006 to allow the use

of electronic calls for the take of resident Canada geese during Canada-geese-only September seasons when all other waterfowl and crane seasons, excluding falconry, were closed (71 FR 45964, August 10, 2006). In both instances, these changes were made in order to significantly increase the take of these species for population management due to either serious population overabundance, or depredation issues, or public health and safety issues, or both.

Available information from the use of additional hunting methods, such as electronic calls, during the special light-geese seasons indicate that total harvest increased approximately 50–69 percent. On specific days when light-geese special regulations were in effect, the mean light goose harvest increased 244 percent. One research study found that lesser snow goose flocks were 5.0 times more likely to fly within gun range (≤ 50 meters) in response to electronic calls than to traditional calls and the mean number of snow geese killed per hour per hunter averaged 9.1 times greater for electronic calls than for traditional calls. While these results are only directly applicable to light geese, we believe these results are applicable to most waterfowl species, and indicative of some likely adverse harvest impacts on other geese and ducks.

Removal of the electronic call prohibition would be inconsistent with our long-standing conservation concerns. Given available evidence on the effectiveness of electronic calls, and the large biological uncertainty surrounding any widespread use of electronic calls, we believe the potential for overharvest could contribute to long-term population declines. Further, migratory patterns, distribution, and localized abundance of migratory birds could be affected and it is possible that hunter participation could increase beyond GLIFWC's estimates (50 percent) and could result in additional conservation impacts, particularly on local breeding populations. Thus, we do not support allowing the use of electronic calls in the 1837 and 1842 Treaty Areas.

Additionally, given the fact that tribal waterfowl hunting covered by this proposal would occur on ceded lands that are not in the ownership of the Tribes, we believe the use of electronic calls to take waterfowl would lead to confusion on the part of the public, wildlife-management agencies, and law enforcement officials in implementing the requirements of 50 CFR part 20. Restricting the proposal to September 4–21 does not alleviate these concerns. Similar to the impacts of baiting,

uncertainties concerning the zone of influence attributed to the use of electronic calls could potentially increase harvest from nontribal hunters operating within areas electronic calls are being used, or were used, thereby posing risks to the migratory patterns and distribution of migratory waterfowl.

Lastly, we remind GLIFWC that electronic calls are permitted for the take of resident Canada geese during Canada-geese-only September seasons when all other waterfowl and crane seasons are closed. In the case of GLIFWC's proposed seasons, electronic calls could only be used September 1–3 for resident Canada geese (as GLIFWC's duck and crane season begins September 4, as they proposed). This specific regulatory change was implemented in 2006 in order to significantly control resident Canada geese due to widespread population overabundance, depredation issues, and public health and safety issues..

Expanded Shooting Hours

Normally, shooting hours for migratory game birds are one-half hour before sunrise to sunset. A number of reasons and concerns have been cited for extending shooting hours past sunset. Potential impacts to some locally breeding populations (e.g., wood ducks), hunter safety, difficulty of identifying birds, retrieval of downed birds, and impacts on law enforcement are some of the normal concerns raised when discussing potential expansions of shooting hours. However, despite these concerns, in 2007, we supported the expansion of shooting hours by 15 minutes after sunset in the 1837, 1842, and 1836 Treaty Areas (72 FR 58452, October 15, 2007). We had previously supported this expansion in other tribal areas and have not been made aware of any wide-scale problems. At that time, we further believed that the continuation of a specific species restriction within the daily bag limit for mallards, and the implementation of a species restriction within the daily bag limit for wood ducks, would allay potential conservation concerns for these species. We supported the increase with the understanding that we would need to closely monitor tribal harvest through either GLIFWC's own increased harvest surveys or GLIFWC's assisting the Service to survey tribal hunters.

Last year, in deference to tribal traditions and in the interest of cooperation, we approved shooting 30 minutes after sunset (an extension of 15 minutes from the then-current 15 minutes after sunset) (76 FR 54676, September 1, 2011). This was consistent

with other Tribes in the general area (Fond du Lac, Leech Lake, Oneida, Sault Ste Marie, and White Earth). Extending shooting hours on both the front end and the back end of the day to 45 minutes before sunrise and 45 minutes after sunset as GLIFWC has proposed would be contrary to public safety and only heightens our previously identified concerns. It is widely considered dark 45 minutes after sunset (and 45 minutes before sunrise), and we see no viable remedies to allay our concerns. Shooting this early or late would also significantly increase the potential take of non-game birds. Thus, we cannot support increasing the shooting hours by 15 minutes in the 1837 and 1842 Treaty Areas (to 45 minutes before sunrise and 45 minutes after sunset).

Regarding GLIFWC's comments concerning our consistency with other previous tribal proposals and recent changes in Wisconsin wolf hunting regulation, we note that the referenced approval of shooting hours 45 minutes after sunset was for on-reservation hunting only at Sokaogon Chippewa Community in Cranston, Wisconsin. Ceded lands were not part of the Sokaogon's proposal or our approval. Lastly, we view the State of Wisconsin's allowance for the hunting of wolves at night as a State prerogative and not germane to the hunting of migratory birds (to improve public safety, the Wisconsin Department of Natural Resources has imposed additional restrictions for night wolf hunting to include: (1) Using bait or predator call, which the Service prohibits for waterfowl; and (2) from a stationary position). We also note that 29.185(6)(d) (published April 16, 2012) limits wolf night hunting until after the close of the deer season for safety concerns. This new State allowance does not alleviate our previously identified concerns.

Increasing the Overall Daily Bag Limit for Ducks

Based on the proposed increased daily bag limits (from 30 to 50 ducks per day in the 1837 and 1842 Treaty Areas), GLIFWC is estimating a relatively small additional duck harvest (1,050 to 1,575 ducks). While it is possible that hunter participation and harvest could increase beyond their estimates (50 percent), we do not anticipate such an increase given their relatively small average daily harvest (2.2 ducks per day) and the GLIFWC proposals we are adopting. Further, GLIFWC reports that the largest number of ducks reportedly harvested in a single day was 20. Thus, we do not anticipate any large-scale harvest shifts or significant biological conservation impacts with GLIFWC's proposal.

However, we also note that GLIFWC's own dated harvest data indicates that present daily bag limits do not appear to be a hindrance or limiting factor for Tribal harvest, and increasing the daily bag limit to 50 ducks from the present 30-duck daily bag limit would be far in excess of anything we currently have experience with regarding tribal migratory bird hunting regulations. We further note that in 2007, in an effort to obtain the necessary information, we implemented a pilot expansion of the daily bag limit for ducks to 30 birds per day in the 1837 and 1842 Treaty Areas. We supported this change with the understanding that we would need to closely monitor tribal harvest through either GLIFWC's own increased harvest surveys or GLIFWC's assisting the Service to survey tribal hunters. We have reiterated our request over the past several years for GLIFWC to continue their current harvest survey based on our implementation of this pilot bag limit increase for ducks in the 1837 and 1842 Treaty Areas in 2007, particularly for species such as mallards, the bag limits for which were subsequently significantly increased in 2008 (from 10 to 30 per day). To date, we have not been presented with any new final reports since the 2008 harvest survey results.

Remove Restrictions on Decoy Use in Wisconsin

In Wisconsin, State law requires that decoys may not be placed more than an hour before legal shooting hours or left out more than 20 minutes after legal shooting hours. As we stated last year concerning a similar decoy restriction in Michigan (76 FR 54676, September 1, 2011), while we believe that there may be safety concerns with elimination of such a restriction, we take no position on the relative need or lack of need for such a restriction. Other than regulations on National Wildlife Refuges and other Federal lands, there are no Federal restrictions requiring the removal of unattended decoys.

Additionally, given the fact that tribal waterfowl hunting covered by this rule would occur on ceded lands that are not in the ownership of the Tribes, we believe the use of unattended decoys to "reserve" hunting areas in public waters (*i.e.*, those lands in the ceded territories outside of lands directly controlled by the Tribes) could lead to confusion and frustration on the part of the public, hunters, wildlife-management agencies, and law enforcement officials due to the inherent difficulties of different sets of hunting regulations for different areas and groups of hunters. However, we view this issue as a Tribal-State issue,

and the Service takes no position on it in this rule.

Removal of Species Restrictions for Ducks

We have several concerns with GLIFWC's proposal to remove all species restrictions within the overall duck daily bag limits in the 1837 and 1842 Treaty Areas. We have a number of duck species that are either showing long-term downward population trends (pintails and black ducks), or other species for which an increased daily bag limit of 50 birds per day could potentially have conservation impacts (scaup, canvasbacks), particularly on locally breeding ducks (mallards and wood ducks). Overharvest of these species in localized areas due to removal of species restrictions could contribute to long-term declines. However, while we believe the proposal to eliminate all species restrictions within the daily bag limit for ducks could potentially have resource conservation impacts on locally breeding duck populations, and would prefer not to implement such a change at this time, we are willing to remove the restrictions for tribal harvest in the 1836, 1837, and 1842 ceded areas. As we stated last year regarding the removal of possession limits (76 FR 54676, September 1, 2011), we make this change with some trepidation. However, we see no significant conservation implications given the relatively small numbers of tribal hunters, and in the interest of our long-term relationship with GLIFWC and the high importance GLIFWC has placed on this issue, we would agree with this important change. We note that, should resource conservation impacts be discovered, or should a particular species' population status warrant action, we would expect that the lack of species restrictions would be revisited and adjusted accordingly, especially if a particular species warranted a nationwide closed season (*e.g.*, canvasbacks).

Earlier Duck Season Opening Date

The Migratory Bird Treaty allows the hunting of migratory game birds beginning September 1. Generally, we have tried to guide Tribes to select an opening date for duck hunting of no earlier than September 15. This guidance is based on our concern that hunting prior to September 15 significantly increases the potential for taking ducks that have not yet fully fledged (normally the result of late-nesting or re-nesting hens) or species misidentification due to the fact that some species and/or sexes are not yet

readily distinguishable. While these impacts primarily concern locally breeding ducks, the potential does exist for the take of molt migrants, *i.e.*, birds that have specifically migrated to an area to complete the molting process. We would prefer that GLIFWC adhere to this guidance and would prefer not to implement such a change at this time. However, we see no significant conservation implications given the relatively small numbers of tribal hunters and are willing to allow GLIFWC to begin the duck season on September 4 in the 1836, 1837, and 1842 ceded areas. We are implementing this change in the interest of our long-term relationship with GLIFWC and the understanding that if significant conservation impacts are discovered, we would adjust the duck season opening date accordingly.

Sandhill Crane Season

We have no objections to the establishment of a sandhill crane season in the 1837 and 1842 Treaty Areas. We note that at least one other Tribe currently has a sandhill crane season (see (c) Fond du Lac Band of Lake Superior Chippewa in Minnesota elsewhere in this rule) and another proposed establishing a new season this year (see (d) Grand Traverse Band of Ottawa and Chippewa in Michigan elsewhere in this rule). All cranes in these current and new hunt areas are Eastern Population (EP) sandhill cranes. EP sandhill cranes rebounded from near extirpation in the late 1800s to more than 30,000 cranes by 1996. As of last year, the current 3-year average population index for EP cranes was 51,217 cranes. As a result of this rebound and their continued range expansion, the Atlantic and Mississippi Flyway Councils developed a cooperative management plan for this population, and criteria were developed describing when hunting seasons could be opened. The State of Kentucky held its first hunting season on this population in 2011–12 and harvested 50 cranes. Further, allowance for Tribal harvest is specifically considered in the EP plan.

GLIFWC estimates that no more than 50 cranes will be harvested during the season. We note that two cranes were harvested last year in the inaugural Fond du Lac sandhill crane season. We support the establishment of GLIFWC's new sandhill crane season. However, given the need to closely monitor the harvest of this species, we requested that GLIFWC implement either a special crane harvest tag or crane harvest reporting system/survey to track crane harvest, similar to that implemented by

Fond du Lac last year, and requested of Grand Traverse this year (see (d) Grand Traverse Band of Ottawa and Chippewa Indians in Michigan elsewhere in this rule).

Tundra Swan Season

As we stated with sandhill cranes, we are not opposed to the establishment of a tundra swan season in Wisconsin. However, unlike the sandhill crane issue, the establishment of a new tundra swan season in the ceded territory areas in question involves several significant concerns and special considerations. We believe these concerns need further study and consideration before any implementation of a new tundra swan season in the ceded territories.

First, the GLIFWC proposed areas in question are also home to trumpeter swans. Many cooperators, including GLIFWC, worked together to reestablish a breeding trumpeter swan population in the Great Lakes. These efforts have been largely successful with the removal of this species from the Wisconsin endangered species list in 2009. After a 25-year recovery program, there are currently about 200 breeding pairs in Wisconsin. However, it is very difficult to distinguish between tundra and trumpeter swans unless swans vocalize in flight. We have significant concerns over the accidental harvest of trumpeter swans by tribal hunters hunting during a tundra swan season. Further, within Wisconsin, the northern ceded territory is an area of high trumpeter swan use containing over 80 percent of the breeding pairs. We believe such areas should be avoided either temporally or geographically to the extent possible. When a hunting season on tundra swans is ultimately implemented, we believe it would be best to focus hunting efforts on the primary tundra swan migration concentration areas while avoiding areas of significant trumpeter swan numbers. Unfortunately, most such areas are located outside of the ceded territories of northern Wisconsin.

In addition to the concerns about potential impacts to trumpeter swans, we believe it is imperative that any tribal tundra swan hunting proposal follow the Eastern Population of tundra swans management plan including a quota permit system and harvest reporting. The EP tundra swan management plan was cooperatively developed by the Atlantic, Central, and Mississippi Flyway Councils in 2007 and guides the management and harvest of EP tundra swans.

While we appreciate GLIFWC's proposed revisions to their initial tundra swan season proposal (area restrictions, mandatory registration, and

carcass verification), we continue to believe that a tribal tundra swan hunting season in the ceded territory should not be implemented this year. Given that all these concerns can be worked through over the next year, we do not believe that implementation of a tundra swan season next season is unrealistic. We note that both the Service and the State wildlife agencies have considerable trumpeter swan information that would be helpful in conducting additional biological evaluation and harvest planning and are available to work with GLIFWC on resolution of these issues. We would prefer that all these issues be carefully considered and resolved by all involved parties to ensure that whatever action permitted for tundra swans in the future is not detrimental to trumpeter swans. We encourage GLIFWC to contact the Service early next year to cooperatively work through the issues involved with implementing a tundra swan season in the ceded territories.

Correction to Merganser and Woodcock Seasons

As we stated regarding the earlier duck season opening date, while we would prefer that GLIFWC not implement such a change at this time, we see no significant conservation implications given the relatively small numbers of tribal hunters and are willing to allow GLIFWC to begin both the merganser and woodcock seasons on September 4 in the 1836 Treaty ceded areas. We are implementing this change in the interest of our long-term relationship with GLIFWC and the understanding that if significant conservation impacts are discovered, we would adjust the season opening dates accordingly.

NEPA Consideration

NEPA considerations are covered by the programmatic document "Final Supplemental Environmental Impact Statement: Issuance of Annual Regulations Permitting the Sport Hunting of Migratory Birds (FSER 88-14)," filed with the Environmental Protection Agency on June 9, 1988. We published a notice of availability in the **Federal Register** on June 16, 1988 (53 FR 22582). We published our Record of Decision on August 18, 1988 (53 FR 31341). In addition, an August 1985 environmental assessment entitled "Guidelines for Migratory Bird Hunting Regulations on Federal Indian Reservations and Ceded Lands" is available from the address indicated under the caption **FOR FURTHER INFORMATION CONTACT**.

In a notice published in the September 8, 2005, **Federal Register** (70 FR 53376), we announced our intent to develop a new Supplemental Environmental Impact Statement (SEIS) for the migratory bird hunting program. Public scoping meetings were held in the spring of 2006, as detailed in a March 9, 2006, **Federal Register** (71 FR 12216). We released the draft SEIS on July 9, 2010 (75 FR 39577). The draft SEIS is available either by writing to the address indicated under **FOR FURTHER INFORMATION CONTACT** or by viewing our Web site at <http://www.fws.gov/migratorybirds>.

Endangered Species Act Consideration

Section 7 of the Endangered Species Act, as amended (16 U.S.C. 1531-1543; 87 Stat. 884), provides that, "The Secretary shall review other programs administered by him and utilize such programs in furtherance of the purposes of this Act" (and) shall "insure that any action authorized, funded, or carried out * * * is not likely to jeopardize the continued existence of any endangered species or threatened species or result in the destruction or adverse modification of [critical] habitat. * * *"

Consequently, we conducted formal consultations to ensure that actions resulting from these regulations would not likely jeopardize the continued existence of endangered or threatened species or result in the destruction or adverse modification of their critical habitat. Findings from these consultations are included in a biological opinion, which concluded that the regulations are not likely to jeopardize the continued existence of any endangered or threatened species. Additionally, these findings may have caused modification of some regulatory measures previously proposed, and the final frameworks reflect any such modifications. Our biological opinions resulting from this section 7 consultation are public documents available for public inspection at the address indicated under **ADDRESSES**.

Regulatory Planning and Review (Executive Orders 12866 and 13563)

Executive Order 12866 provides that the Office of Management and Budget's (OMB) Office of Information and Regulatory Affairs (OIRA) will review all significant rules. OIRA has determined that this rule is significant because it will have an annual effect of \$100 million or more on the economy.

Executive Order 13563 reaffirms the principles of E.O. 12866 while calling for improvements in the Nation's regulatory system to promote predictability, to reduce uncertainty,

and to use the best, most innovative, and least burdensome tools for achieving regulatory ends. The executive order directs agencies to consider regulatory approaches that reduce burdens and maintain flexibility and freedom of choice for the public where these approaches are relevant, feasible, and consistent with regulatory objectives. E.O. 13563 emphasizes further that regulations must be based on the best available science and that the rulemaking process must allow for public participation and an open exchange of ideas. We have developed this rule in a manner consistent with these requirements.

An economic analysis was prepared for the 2008–09 season. This analysis was based on data from the 2006 National Hunting and Fishing Survey, the most recent year for which data are available (see discussion in Regulatory Flexibility Act section below). This analysis estimated consumer surplus for three alternatives for duck hunting (estimates for other species are not quantified due to lack of data). The alternatives are (1) Issue restrictive regulations allowing fewer days than those issued during the 2007–08 season, (2) Issue moderate regulations allowing more days than those in alternative 1, and (3) Issue liberal regulations identical to the regulations in the 2007–08 season. For the 2008–09 season, we chose alternative 3, with an estimated consumer surplus across all flyways of \$205–\$270 million. We also chose alternative 3 for the 2009–10 and the 2010–11 seasons. At this time, we are proposing no changes to the season frameworks for the 2012–13 season, and as such, we will again consider these three alternatives. However, final frameworks for waterfowl will be dependent on population status information available later this year. For these reasons, we have not conducted a new economic analysis, but the 2008–09 analysis is part of the record for this rule and is available at <http://www.fws.gov/migratorybirds/NewReports/Publications/SpecialTopics/SpecialTopics.html#HuntingRegs> or at <http://www.regulations.gov> at Docket No. FWS–R9–MB–2012–0005.

Regulatory Flexibility Act

The annual migratory bird hunting regulations have a significant economic impact on substantial numbers of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). We analyzed the economic impacts of the annual hunting regulations on small business entities in detail as part of the 1981 cost-benefit analysis. This analysis was revised annually from 1990–95. In 1995,

the Service issued a Small Entity Flexibility Analysis (Analysis), which was subsequently updated in 1996, 1998, 2004, and 2008. The primary source of information about hunter expenditures for migratory game bird hunting is the National Hunting and Fishing Survey, which is conducted at 5-year intervals. The 2008 Analysis was based on the 2006 National Hunting and Fishing Survey and the U.S. Department of Commerce’s County Business Patterns, from which it was estimated that migratory bird hunters would spend approximately \$1.2 billion at small businesses in 2008. Copies of the Analysis are available upon request from the Division of Migratory Bird Management (see **ADDRESSES**) or from our Web site at <http://www.fws.gov/migratorybirds/NewReports/Publications/SpecialTopics/SpecialTopics.html#HuntingRegs> or at <http://www.regulations.gov> at Docket No. FWS–R9–MB–2012–0005.

Small Business Regulatory Enforcement Fairness Act

This rule is a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act. For the reasons outlined above, this rule will have an annual effect on the economy of \$100 million or more. However, because this rule establishes hunting seasons, we are not deferring the effective date under the exemption contained in 5 U.S.C. 808(1).

Paperwork Reduction Act

We examined these regulations under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). The various recordkeeping and reporting requirements imposed under regulations established in 50 CFR part 20, subpart K, are utilized in the formulation of migratory game bird hunting regulations. Specifically, OMB has approved the information collection requirements of our Migratory Bird Surveys and assigned control number 1018–0023 (expires 4/30/2014). This information is used to provide a sampling frame for voluntary national surveys to improve our harvest estimates for all migratory game birds in order to better manage these populations. A Federal agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Unfunded Mandates Reform Act

We have determined and certify, in compliance with the requirements of the Unfunded Mandates Reform Act, 2 U.S.C. 1502 *et seq.*, that this rulemaking

will not impose a cost of \$100 million or more in any given year on local or State government or private entities. Therefore, this rule is not a “significant regulatory action” under the Unfunded Mandates Reform Act.

Civil Justice Reform—Executive Order 12988

The Department, in promulgating this rule, has determined that this rule will not unduly burden the judicial system and that it meets the requirements of sections 3(a) and 3(b)(2) of Executive Order 12988.

Takings Implication Assessment

In accordance with Executive Order 12630, this rule, authorized by the Migratory Bird Treaty Act, does not have significant takings implications and does not affect any constitutionally protected property rights. This rule will not result in the physical occupancy of property, the physical invasion of property, or the regulatory taking of any property. In fact, this rule allows hunters to exercise otherwise unavailable privileges and, therefore, reduce restrictions on the use of private and public property.

Energy Effects—Executive Order 13211

Executive Order 13211 requires agencies to prepare Statements of Energy Effects when undertaking certain actions. While this rule is a significant regulatory action under Executive Order 12866, it is not expected to adversely affect energy supplies, distribution, or use. Therefore, this action is not a significant energy action and no Statement of Energy Effects is required.

Government-to-Government Relationship With Tribes

In accordance with the President’s memorandum of April 29, 1994, “Government-to-Government Relations with Native American Tribal Governments” (59 FR 22951), Executive Order 13175, and 512 DM 2, we have evaluated possible effects on Federally-recognized Indian tribes and have determined that there are no effects on Indian trust resources. However, in the April 17 **Federal Register**, we solicited proposals for special migratory bird hunting regulations for certain Tribes on Federal Indian reservations, off-reservation trust lands, and ceded lands for the 2012–13 migratory bird hunting season. The resulting proposals were contained in a separate August 16, 2012, proposed rule (77 FR 49680). By virtue of these actions, we have consulted with Tribes affected by this rule.

Federalism Effects

Due to the migratory nature of certain species of birds, the Federal Government has been given responsibility over these species by the Migratory Bird Treaty Act. We annually prescribe frameworks from which the States make selections regarding the hunting of migratory birds, and we employ guidelines to establish special regulations on Federal Indian reservations and ceded lands. This process preserves the ability of the States and tribes to determine which seasons meet their individual needs. Any State or Indian tribe may be more restrictive than the Federal frameworks at any time. The frameworks are developed in a cooperative process with the States and the Flyway Councils. This process allows States to participate in the development of frameworks from which they will make selections, thereby having an influence on their own regulations. These rules do not have a substantial direct effect on fiscal capacity, change the roles or responsibilities of Federal or State governments, or intrude on State policy or administration. Therefore, in accordance with Executive Order 13132, these regulations do not have significant federalism effects and do not have sufficient federalism implications to warrant the preparation of a federalism summary impact statement.

Regulations Promulgation

The rulemaking process for migratory game bird hunting must, by its nature, operate under severe time constraints. However, we intend that the public be given the greatest possible opportunity to comment. Thus, when the preliminary proposed rulemaking was published, we established what we believed were the longest periods possible for public comment. In doing this, we recognized that when the comment period closed, time would be of the essence. That is, if there were a delay in the effective date of these regulations after this final rulemaking, States and Tribes would have insufficient time to select season dates and limits; to communicate those selections to us; and to establish and publicize the necessary regulations and procedures to implement their decisions. We therefore find that "good cause" exists, within the terms of 5 U.S.C. 553(d)(3) of the Administrative Procedure Act, and these seasons will, therefore, take effect less than 30 days after the date of publication.

Accordingly, with each participating Tribe having had an opportunity to participate in selecting the hunting

seasons desired for its reservation or ceded territory on those species of migratory birds for which open seasons are now prescribed, and consideration having been given to all other relevant matters presented, certain sections of title 50, chapter I, subchapter B, part 20, subpart K, are hereby amended as set forth below.

List of Subjects in 50 CFR Part 20

Exports, Hunting, Imports, Reporting and recordkeeping requirements, Transportation, Wildlife.

Accordingly, part 20, subchapter B, chapter I of title 50 of the Code of Federal Regulations is amended as follows:

PART 20—[AMENDED]

- 1. The authority citation for part 20 continues to read as follows:

Authority: Migratory Bird Treaty Act, 40 Stat. 755, 16 U.S.C. 703–712; Fish and Wildlife Act of 1956, 16 U.S.C. 742a–j; Pub. L. 106–108, 113 Stat. 1491, Note Following 16 U.S.C. 703.

Note: The following hunting regulations provided for by 50 CFR 20.110 will not appear in the Code of Federal Regulations because of their seasonal nature.

- 2. Section 20.110 is revised to read as follows:

§ 20.110 Seasons, limits, and other regulations for certain Federal Indian reservations, Indian Territory, and ceded lands.

Unless specifically provided for below, all of the regulations contained in 50 CFR part 20 apply to the seasons listed herein.

(a) *Colorado River Indian Tribes, Parker, Arizona (Tribal Members and Nontribal Hunters).*

Doves

Season Dates: Open September 1 through 15, 2012; then open November 10 through December 24, 2012.

Daily Bag and Possession Limits: For the early season, daily bag limit is 10 mourning or white-winged doves, singly, or in the aggregate. For the late season, the daily bag limit is 10 mourning doves. Possession limits are twice the daily bag limits after the first day of the season.

General Conditions: All persons 14 years and older must be in possession of a valid Colorado River Indian Reservation hunting permit before taking any wildlife on tribal lands. Any person transporting game birds off the Colorado River Indian Reservation must have a valid transport declaration form. Other tribal regulations apply, and may be obtained at the Fish and Game Office

in Parker, Arizona. The early season will be open from one-half hour before sunrise until noon. For the late season, shooting hours are from one-half hour before sunrise to sunset.

(b) *Confederated Salish and Kootenai Tribes, Flathead Indian Reservation, Pablo, Montana (Tribal Hunters).*

Tribal Members Only

Ducks (Including Mergansers)

Season Dates: Open September 2, 2012, through March 9, 2013.

Daily Bag and Possession Limits: The Tribe does not have specific bag and possession restrictions for Tribal members. The season on harlequin duck is closed.

Coots

Season Dates: Same as ducks.

Daily Bag and Possession Limits: Same as ducks.

Geese

Season Dates: Same as ducks.

Daily Bag and Possession Limits: Same as ducks.

General Conditions: Tribal and nontribal hunters must comply with all basic Federal migratory bird hunting regulations contained in 50 CFR part 20 regarding manner of taking. In addition, shooting hours are sunrise to sunset, and each waterfowl hunter 16 years of age or older must carry on his/her person a valid Migratory Bird Hunting and Conservation Stamp (Duck Stamp) signed in ink across the stamp face. Special regulations established by the Confederated Salish and Kootenai Tribes also apply on the reservation.

(c) *Fond du Lac Band of Lake Superior Chippewa Indians, Cloquet, Minnesota (Tribal Members Only).*

Ducks

1854 and 1837 Ceded Territories:

Season Dates: Begin September 15 and end November 25, 2012.

Daily Bag Limit: 18 ducks, including no more than 12 mallards (only 3 of which may be hens), 9 black ducks, 9 scaup, 9 wood ducks, 9 redheads, 9 pintails, and 9 canvasbacks.

Reservation:

Season Dates: Begin September 1 and end November 25, 2012.

Daily Bag Limit: 12 ducks, including no more than 9 mallards (only 2 of which may be hens), 6 black ducks, 6 scaup, 6 redheads, 6 pintails, 6 wood ducks, and 6 canvasbacks.

Mergansers

1854 and 1837 Ceded Territories:

Season Dates: Begin September 15 and end November 25, 2012.

Daily Bag Limit: 15 mergansers, including no more than 6 hooded mergansers.

Reservation:

Season Dates: Begin September 1 and end November 25, 2012.

Daily Bag Limit: 10 mergansers, including no more than 4 hooded mergansers.

Canada Geese: All Areas

Season Dates: Begin September 1 and end November 25, 2012.

Daily Bag Limit: 20 geese.

Coots and Common Moorhens (Common Gallinules)

1854 and 1837 Ceded Territories:

Season Dates: Begin September 15 and end November 25, 2012.

Daily Bag Limit: 20 coots and common moorhens, singly or in the aggregate.

Reservation:

Season Dates: Begin September 1 and end November 25, 2012.

Daily Bag Limit: 20 coots and common moorhens, singly or in the aggregate.

Sandhill Cranes: 1854 Ceded Territory only:

Season Dates: Begin September 1 and end November 25, 2012.

Daily Bag Limit: Two sandhill cranes. Crane carcass tags are required prior to hunting.

Sora and Virginia Rails: All Areas.

Season Dates: Begin September 1 and end November 25, 2012.

Daily Bag Limit: 25 sora and Virginia rails, singly or in the aggregate.

Common Snipe: All Areas.

Season Dates: Begin September 1 and end November 25, 2012.

Daily Bag Limit: Eight common snipe.

Woodcock: All Areas.

Season Dates: Begin September 1 and end November 25, 2012.

Daily Bag Limit: Three woodcock.

Mourning Dove: All Areas.

Season Dates: Begin September 1 and end October 30, 2012.

Daily Bag Limit: 30 mourning dove.

General Conditions:

1. While hunting waterfowl, a tribal member must carry on his/her person a valid tribal waterfowl hunting permit.

2. Except as otherwise noted, tribal members will be required to comply with tribal codes that will be no less restrictive than the provisions of Chapter 10 of the Model Off-Reservation Code. These regulations parallel Federal requirements in 50 CFR part 20 as to hunting methods, transportation, sale, exportation, and other conditions generally applicable to migratory bird hunting.

3. Band members in each zone will comply with State regulations providing

for closed and restricted waterfowl hunting areas.

4. There are no possession limits on any species, unless otherwise noted above. For purposes of enforcing bag and possession limits, all migratory birds in the possession or custody of band members on ceded lands will be considered to have been taken on those lands unless tagged by a tribal or State conservation warden as having been taken on-reservation. All migratory birds that fall on reservation lands will not count as part of any off-reservation bag or possession limit.

(d) *Grand Traverse Band of Ottawa and Chippewa Indians, Suttons Bay, Michigan (Tribal Members Only).*

All seasons in Michigan, 1836 Treaty Zone:

Ducks

Season Dates: Open September 15, 2012, through January 15, 2013.

Daily Bag Limit: 20 ducks, which may include no more than 5 pintail, 3 canvasback, 5 black ducks, 1 hooded merganser, 5 wood ducks, 3 redheads, and 9 mallards (only 4 of which may be hens).

Canada and Snow Geese

Season Dates: Open September 1 through November 30, 2012; and open January 1, 2013, through February 8, 2013.

Daily Bag Limit: 10 geese.

Other Geese (White-fronted Geese and Brant)

Season Dates: Open September 20 through November 30, 2012.

Daily Bag Limit: Five geese.

Sora Rails, Common Snipe, and Woodcock

Season Dates: Open September 1 through November 14, 2012.

Daily Bag Limit: 10 rails, 10 snipe, and 5 woodcock.

Mourning Doves

Season Dates: Open September 1 through November 14, 2012.

Daily Bag Limit: 10 mourning doves.

Sandhill Cranes

Season Dates: Open September 1 through November 30, 2012.

Daily Bag Limit: One sandhill crane.

General Conditions: A valid Grand Traverse Band Tribal license is required and must be in possession before taking any wildlife. All other basic regulations contained in 50 CFR part 20 are valid. Other tribal regulations apply, and may be obtained at the tribal office in Suttons Bay, Michigan.

(e) *Great Lakes Indian Fish and Wildlife Commission, Odanah, Wisconsin (Tribal Members Only).*

The 2012–13 waterfowl hunting season regulations apply to all treaty areas (except where noted):

Ducks

Season Dates: Begin September 4 and end December 31, 2012.

Daily Bag Limit: 1837 and 1842 Ceded Territories: 50 ducks.

1836 Ceded Territory: 30 ducks.

Mergansers

Season Dates: Begin September 4 and end December 31, 2012.

Daily Bag Limit: 10 mergansers.

Geese

Season Dates: Begin September 1 and end December 31, 2012. In addition, any portion of the ceded territory that is open to State-licensed hunters for goose hunting after December 1 will also be open concurrently for tribal members.

Daily Bag Limit: 20 geese in aggregate.

Other Migratory Birds

Coots and Common Moorhens (Common Gallinules):

Season Dates: 1836 Treaty Area

Season Dates: Begin September 15 and end December 31, 2012.

1837 and 1842 Treaty Area Season Dates: Begin September 4 and end December 31, 2012.

Daily Bag Limit: 20 coots and common moorhens (common gallinules), singly or in the aggregate.

Sora and Virginia Rails

Season Dates: 1836 Treaty Area

Season Dates: Begin September 15 and end December 31, 2012.

1837 and 1842 Treaty Area Season Dates: Begin September 4 and end December 31, 2012.

Daily Bag and Possession Limits: 20 sora and Virginia rails, singly or in the aggregate, 25.

Common Snipe

Season Dates: 1836 Treaty Area

Season Dates: Begin September 15 and end December 31, 2012.

1837 and 1842 Treaty Area Season Dates: Begin September 4 and end December 31, 2012.

Daily Bag Limit: 16 common snipe.

Woodcock

Season Dates: Begin September 4 and end December 31, 2012.

Daily Bag Limit: 10 woodcock.

Mourning Dove: 1837 and 1842 Ceded Territories.

Season Dates: Begin September 1 and end November 9, 2012.

Daily Bag Limit: 15.

Sandhill Cranes: 1837 and 1842 Ceded Territories only.

Season Dates: Begin September 4 and end December 31, 2012.

Daily Bag Limit: 1 crane.

General Conditions

A. All tribal members will be required to obtain a valid tribal waterfowl hunting permit.

B. Except as otherwise noted, tribal members will be required to comply with tribal codes that will be no less restrictive than the model ceded territory conservation codes approved by Federal courts in the *Lac Courte Oreilles v. State of Wisconsin (Voigt)*, *Mille Lacs Band v. State of Minnesota*, and *United States v. Michigan* cases. Chapter 10 in each of these model codes regulates ceded territory migratory bird hunting. Both versions of Chapter 10 parallel Federal requirements as to hunting methods, transportation, sale, exportation, and other conditions generally applicable to migratory bird hunting. They also automatically incorporate by reference the Federal migratory bird regulations adopted in response to this regulation.

C. Particular regulations of note include:

1. Nontoxic shot will be required for all waterfowl hunting by tribal members.

2. Tribal members in each zone will comply with tribal regulations providing for closed and restricted waterfowl hunting areas. These regulations generally incorporate the same restrictions contained in parallel State regulations.

3. There is no possession limit. For purposes of enforcing bag limits, all migratory birds in the possession and custody of tribal members on ceded lands will be considered to have been taken on those lands unless tagged by a tribal or State conservation warden as taken on reservation lands. All migratory birds that fall on reservation lands will not count as part of any off-reservation bag or possession limit.

4. The baiting restrictions included in the respective section 10.05(2)(h) of the model ceded territory conservation codes will be amended to include language which parallels that in place for nontribal members as published at 64 FR 29799, June 3, 1999.

5. The shell limit restrictions included in the respective section 10.05(2)(b) of the model ceded territory conservation codes will be removed.

6. Hunting hours shall be from a half hour before sunrise to 30 minutes after sunset.

(f) [Reserved.]

(g) *Kalispel Tribe, Kalispel Reservation, Usk, Washington (Tribal Members and Nontribal Hunters)*.

Nontribal Hunters on Reservation

Geese

Season Dates: Open September 1 through 13, 2012, for the early-season, and open October 1, 2012, through January 31, 2013, for the late-season. During this period, days to be hunted are specified by the Kalispel Tribe. Nontribal hunters should contact the Tribe for more detail on hunting days.

Daily Bag and Possession Limits: 5 Canada geese for the early season, and 3 light geese and 4 dark geese, for the late season. The daily bag limit is 2 brant (when the State's season is open) and is in addition to dark goose limits for the late-season. The possession limit is twice the daily bag limit.

Ducks

Season Dates: Open September 22, 2012, through January 31, 2013.

Daily Bag and Possession Limits: 7 ducks, including no more than 2 female mallards, 2 pintail, 1 canvasback, 3 scaup, and 2 redheads. The possession limit is twice the daily bag limit.

Tribal Hunters Within Kalispel Ceded Lands

Ducks

Season Dates: Open October 1, 2012, through January 31, 2013.

Daily Bag and Possession Limits: 7 ducks, including no more than 2 female mallards, 2 pintail, 1 canvasback, 3 scaup, and 2 redheads. The possession limit is twice the daily bag limit.

Geese

Season Dates: Open September 1, 2012, through January 31, 2013.

Daily Bag Limit: 6 light geese and 4 dark geese. The daily bag limit is 2 brant and is in addition to dark goose limits.

General: Tribal members must possess a validated Migratory Bird Hunting and Conservation Stamp and a tribal ceded lands permit.

(h) [Reserved.]

(i) *Leech Lake Band of Ojibwe, Cass Lake, Minnesota (Tribal Members Only)*.

Ducks

Season Dates: Open September 15 through December 31, 2012.

Daily Bag Limits: 10 ducks, including no more than 5 pintail, 5 canvasback, and 5 black ducks.

Geese

Season Dates: Open September 1 through December 31, 2012.

Daily Bag Limits: 10 geese.

General: Possession limits are twice the daily bag limits. Shooting hours are one-half hour before sunrise to one-half hour after sunset. Nontoxic shot is required. Use of live decoys, bait, and commercial use of migratory birds are prohibited. Waterfowl may not be pursued or taken while using motorized craft.

(j) [Reserved.]

(k) *The Little Traverse Bay Bands of Odawa Indians, Petoskey, Michigan (Tribal Members Only)*.

Ducks

Season Dates: Open September 15, 2012, through January 31, 2013.

Daily Bag Limits: 20 ducks, including no more than 5 hen mallards, 5 black ducks, 5 redheads, 5 wood ducks, 5 pintail, 5 hooded merganser, 5 scaup, and 5 canvasback.

Coots and Gallinules

Season Dates: Open September 15 through December 31, 2012.

Daily Bag Limit: 20.

Canada Geese

Season Dates: Open September 1, 2012, through February 8, 2013.

Daily Bag Limit: 20.

Sora and Virginia Rails

Season Dates: Open September 1 through December 31, 2012.

Daily Bag Limit: 20.

Snipe

Season Dates: Open September 15 through December 31, 2012.

Daily Bag Limit: 16.

Mourning Doves

Season Dates: Open September 1 through November 14, 2012.

Daily Bag Limit: 15.

Woodcock

Season Dates: Open September 5 through December 1, 2012.

Daily Bag Limit: 10.

General: Possession limits are twice the daily bag limits.

(l) [Reserved.]

(m) *Lower Elwha Klallam Tribe, Port Angeles, Washington (Tribal Members Only)*.

Ducks

Season Dates: Open September 15, 2012, through January 6, 2013.

Daily Bag and Possession Limits: Seven ducks, including no more than two hen mallards, one pintail, one canvasback, and two redheads. Possession limit is twice the daily bag limit. Bag and possession limits for harlequin ducks is one per season.

Geese

Season Dates: Open September 15, 2012, through January 6, 2013.

Daily Bag and Possession Limits: Four geese, and may include no more than three light geese. The seasons on Aleutian Canada geese and brant are closed. Possession limit is twice the daily bag limit.

Coots

Season Dates: Open September 15, 2012, through January 6, 2013.

Daily Bag and Possession Limits: 25 and 50 coots, respectively.

Mourning Doves

Season Dates: Open September 15, 2012, through January 6, 2013.

Daily Bag and Possession Limits: 10 and 20 doves, respectively.

Snipe

Season Dates: Open September 15, 2012, through January 6, 2013.

Daily Bag and Possession Limits: 8 and 16 snipe, respectively.

Band-Tailed Pigeon

Season Dates: Open September 15, 2012, through January 6, 2013.

Daily Bag and Possession Limits: 2 and 4 pigeons, respectively.

General: Tribal members must possess a tribal hunting permit from the Lower Elwha Klallam Tribe pursuant to tribal law. Hunters must observe all basic Federal migratory bird hunting regulations in 50 CFR part 20.

(n) *Makah Indian Tribe, Neah Bay, Washington (Tribal Members)*.

Band-Tailed Pigeons

Season Dates: Open September 15 through October 28, 2012.

Daily Bag Limit: Two band-tailed pigeons.

Ducks and Coots

Season Dates: Open September 22, 2012, through January 26, 2013.

Daily Bag Limit: Seven ducks including no more than five mallards (only two of which can be a hen), one redhead, one pintail, three scaup, and one canvasback. The seasons on wood duck and harlequin are closed.

Geese

Season Dates: Open September 22, 2012, through January 26, 2013.

Daily Bag Limit: Four including no more than one brant. The seasons on Aleutian and dusky Canada geese are closed.

General

All other Federal regulations contained in 50 CFR part 20 apply. The following restrictions also apply:

(1) As per Makah Ordinance 44, only shotguns may be used to hunt any species of waterfowl. Additionally, shotguns must not be discharged within 0.25 miles of an occupied area.

(2) Hunters must be eligible, enrolled Makah tribal members and must carry their Indian Treaty Fishing and Hunting Identification Card while hunting. No tags or permits are required to hunt waterfowl.

(3) The Cape Flattery area is open to waterfowl hunting, except in designated wilderness areas, or within 1 mile of Cape Flattery Trail, or in any area that is closed to hunting by another ordinance or regulation.

(4) The use of live decoys and/or baiting to pursue any species of waterfowl is prohibited.

(5) Steel or bismuth shot only for waterfowl is allowed; the use of lead shot is prohibited.

(6) The use of dogs is permitted to hunt waterfowl.

(7) Shooting hours for all species of waterfowl are one-half hour before sunrise to one-half hour after sunset.

(8) Open hunting areas are: GMUs 601 (Hoko), a portion of the 602 (Dickey) encompassing the area north of a line between Norwegian Memorial and east to Highway 101, and 603 (Pysht).

(o) *Navajo Nation, Navajo Indian Reservation, Window Rock, Arizona (Tribal Members and Nontribal Hunters)*.

Band-Tailed Pigeons

Season Dates: Open September 1 through 30, 2012.

Daily Bag and Possession Limits: 5 and 10 pigeons, respectively.

Mourning Doves

Season Dates: Open September 1 through 30, 2012.

Daily Bag and Possession Limits: 10 and 20 doves, respectively.

General Conditions: Tribal and nontribal hunters will comply with all basic Federal migratory bird hunting regulations in 50 CFR part 20, regarding shooting hours and manner of taking. In addition, each waterfowl hunter 16 years of age or over must carry on his/her person a valid Migratory Bird Hunting and Conservation Stamp (Duck Stamp) signed in ink across the face. Special regulations established by the Navajo Nation also apply on the reservation.

(p) *Oneida Tribe of Indians of Wisconsin, Oneida, Wisconsin (Tribal Members Only)*.

Ducks (including mergansers)

Season Dates: Open September 15 through November 16, 2012, and open

November 26 through December 4, 2012.

Daily Bag and Possession Limits: Six, including no more than six mallards (three hen mallards), six wood ducks, one redhead, two pintail, and one hooded merganser. The possession limit is twice the daily bag limit.

Geese

Season Dates: Open September 1 through November 16, 2012; and open November 26 through December 30, 2012.

Daily Bag and Possession Limits: 5 and 10 Canada geese, respectively, from September 1 through 14, 2012; and 3 and 6 Canada geese, respectively, the remainder of the season. Hunters will be issued five tribal tags during the early season and three tribal tags during the late season for geese in order to monitor goose harvest. An additional three tags will be issued each time birds are registered. A seasonal quota of 300 birds is adopted. If the quota is reached before the season concludes, the season will be closed at that time.

Woodcock

Season Dates: Open September 1 through November 4, 2012.

Daily Bag and Possession Limits: 5 and 10 woodcock, respectively.

Dove

Season Dates: Open September 1 through November 4, 2012.

Daily Bag and Possession Limits: 10 and 20 doves, respectively.

General Conditions: Tribal member shooting hours are one-half hour before sunrise to one-half hour after sunset.
