Aluminum Extrusions From the People's Republic of China: Final Results of Changed Circumstances Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On July 5, 2012, the Department of Commerce ("the Department") published its preliminary results of a changed circumstances review ("CCR") of the antidumping duty order on aluminum extrusions from the People's Republic of China ("PRC"). The Department preliminarily determined that Guangdong Zhongya Aluminum Company Limited ("Guangdong Zhongya") is the successor-in-interest to Zhaoqing New Zhongya Aluminum Co., Ltd. ("New Zhongya").¹ We invited parties to comment. Since no parties submitted comments, the Department is making no changes to the *Preliminary Results*.

DATES: *Effective Date:* September 6, 2012.

FOR FURTHER INFORMATION CONTACT: Eve Wang, AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230; telephone: 202-482-6231.

SUPPLEMENTARY INFORMATION:

Background

New Zhongya, a producer of aluminum extrusions, participated in the antidumping duty investigation of aluminum extrusions from the PRC. The Department issued its final determination for this investigation on April 4, 2011.² As a result of that final determination, New Zhongya's weighted-average dumping margin is 33.28 percent.³ The antidumping duty order was issued on May 26, 2011.⁴

On November 7, 2011, New Zhongya requested a changed circumstances

review claiming that it had undergone a name change to Guangdong Zhongya Aluminum Company Limited.⁵ New Zhongya requested that the antidumping duty rate, which was assigned to New Zhongya and was in effect before the date of the name change (*i.e.*, August 16, 2011), continue under the new name. New Zhongya's request, stating that it underwent no changes other than the change in the name, was accompanied by supporting documents from Chinese government authorities,⁶ recognizing and approving the name change. Specifically, New Zhongya stated that no changes were made in personnel, management, ownership, facilities, customers, suppliers, *etc.*

In response to this request, on December 27, 2011, the Department initiated a CCR, and on January 27, 2012, the Department issued a questionnaire to New Zhongya. New Zhongya filed its questionnaire response on February 24, 2012. Its submission included organizational charts, employment contracts, board meeting minutes, monthly income statements and balance sheets, a product list, full lists of suppliers and home- and U.S.-market customers, and sample supplier and customer invoices, as well as narrative responses confirming a name change from New Zhongya to Guangdong Zhongya.

The petitioner in this proceeding, Aluminum Extrusions Fair Trade Committee, did not comment on New Zhongya's request or the *Preliminary Results* issued by the Department.

Scope of the Order

The merchandise covered by the order is aluminum extrusions which are shapes and forms, produced by an extrusion process, made from aluminum alloys having metallic elements corresponding to the alloy series designations published by The Aluminum Association commencing with the numbers 1, 3, and 6 (or proprietary equivalents or other certifying body equivalents). Specifically, the subject merchandise made from aluminum alloy with an Aluminum Association series designation commencing with the number 1 contains not less than 99 percent aluminum by weight. The

subject merchandise made from aluminum alloy with an Aluminum Association series designation commencing with the number 3 contains manganese as the major alloying element, with manganese accounting for not more than 3.0 percent of total materials by weight. The subject merchandise is made from an aluminum alloy with an Aluminum Association series designation commencing with the number 6 contains magnesium and silicon as the major alloying elements, with magnesium accounting for at least 0.1 percent but not more than 2.0 percent of total materials by weight, and silicon accounting for at least 0.1 percent but not more than 3.0 percent of total materials by weight. The subject aluminum extrusions are properly identified by a four-digit alloy series without either a decimal point or leading letter. Illustrative examples from among the approximately 160 registered alloys that may characterize the subject merchandise are as follows: 1350, 3003, and 6060.

Aluminum extrusions are produced and imported in a wide variety of shapes and forms, including, but not limited to, hollow profiles, other solid profiles, pipes, tubes, bars, and rods. Aluminum extrusions that are drawn subsequent to extrusion ("drawn aluminum") are also included in the scope.

Aluminum extrusions are produced and imported with a variety of finishes (both coatings and surface treatments), and types of fabrication. The types of coatings and treatments applied to subject aluminum extrusions include, but are not limited to, extrusions that are mill finished (*i.e.*, without any coating or further finishing), brushed, buffed, polished, anodized (including bright-dip anodized), liquid painted, or powder coated. Aluminum extrusions may also be fabricated, *i.e.*, prepared for assembly. Such operations would include, but are not limited to, extrusions that are cut-to-length, machined, drilled, punched, notched, bent, stretched, knurled, swedged, mitered, chamfered, threaded, and spun. The subject merchandise includes aluminum extrusions that are finished (coated, painted, *etc.*), fabricated, or any combination thereof.

Subject aluminum extrusions may be described at the time of importation as parts for final finished products that are assembled after importation, including, but not limited to, window frames, door frames, solar panels, curtain walls, or furniture. Such parts that otherwise meet the definition of aluminum extrusions are included in the scope.

¹ See *Aluminum Extrusions from the People's Republic of China: Preliminary Results of Changed Circumstances Review*, 77 FR 39683 (July 5, 2012) ("Preliminary Results").

² See *Aluminum Extrusions From the People's Republic of China: Final Determination of Sales at Less Than Fair Value*, 76 FR 18524 (April 4, 2011); see also *Aluminum Extrusions From the People's Republic of China: Notice of Correction to the Final Determination of Sales at Less Than Fair Value*, 76 FR 20627 (April 13, 2011).

³ *Id.*

⁴ See *Aluminum Extrusions from the People's Republic of China: Antidumping Duty Order*, 76 FR 30650 (May 26, 2011).

⁵ See Letter from New Zhongya to the Department, "Extruded Aluminum from China" (request for Changed Circumstances Review), dated November 7, 2011.

⁶ These Chinese government authorities include the Bureau of Foreign Trade & Economic Cooperation of High and New Technology Industrial Development Zone of Zhaoqing and the Administration Bureau for Industry and Commerce of Zhaoqing City.

The scope includes the aluminum extrusion components that are attached (e.g., by welding or fasteners) to form subassemblies, i.e., partially assembled merchandise unless imported as part of the “finished goods kit” defined further below. The scope does not include the non-aluminum extrusion components of subassemblies or subject kits.

Subject extrusions may be identified with reference to their end use, such as fence posts, electrical conduits, door thresholds, carpet trim, or heat sinks (that do not meet the finished heat sink exclusionary language below). Such goods are subject merchandise if they otherwise meet the scope definition, regardless of whether they are ready for use at the time of importation.

The following aluminum extrusion products are excluded: Aluminum extrusions made from aluminum alloy with an Aluminum Association series designations commencing with the number 2 and containing in excess of 1.5 percent copper by weight; Aluminum extrusions made from aluminum alloy with an Aluminum Association series designation commencing with the number 5 and containing in excess of 1.0 percent magnesium by weight; and aluminum extrusions made from aluminum alloy with an Aluminum Association series designation commencing with the number 7 and containing in excess of 2.0 percent zinc by weight.

The scope also excludes finished merchandise containing aluminum extrusions as parts that are fully and permanently assembled and completed at the time of entry, such as finished windows with glass, doors with glass or vinyl, picture frames with glass pane and backing material, and solar panels. The scope also excludes finished goods containing aluminum extrusions that are entered unassembled in a “finished goods kit.” A finished goods kit is understood to mean a packaged combination of parts that contains, at the time of importation, all of the necessary parts to fully assemble a final finished good and requires no further finishing or fabrication, such as cutting or punching, and is assembled “as is” into a finished product. An imported product will not be considered a “finished goods kit” and, therefore, excluded from the scope of the investigation merely by including fasteners such as screws, bolts, etc. in the packaging with an aluminum extrusion product.

The scope also excludes aluminum alloy sheet or plates produced by other than the extrusion process, such as aluminum products produced by a method of casting. Cast aluminum

products are properly identified by four digits with a decimal point between the third and fourth digit. A letter may also precede the four digits. The following Aluminum Association designations are representative of aluminum alloys for casting: 208.0, 295.0, 308.0, 355.0, C355.0, 356.0, A356.0, A357.0, 360.0, 366.0, 380.0, A380.0, 413.0, 443.0, 514.0, 518.1, and 712.0. The scope also excludes pure, unwrought aluminum in any form.

The scope also excludes collapsible tubular containers composed of metallic elements corresponding to alloy code 1080A as designated by the Aluminum Association where the tubular container (excluding the nozzle) meets each of the following dimensional characteristics: (1) Length of 37 millimeters (“mm”) or 62 mm, (2) outer diameter of 11.0 mm or 12.7 mm, and (3) wall thickness not exceeding 0.13 mm.

Also excluded from the scope of this order are finished heat sinks. Finished heat sinks are fabricated heat sinks made from aluminum extrusions the design and production of which are organized around meeting certain specified thermal performance requirements and which have been fully, albeit not necessarily individually, tested to comply with such requirements.

Imports of the subject merchandise are provided for under the following categories of the Harmonized Tariff Schedule of the United States (“HTS”): 7604.21.0000, 7604.29.1000, 7604.29.3010, 7604.29.3050, 7604.29.5030, 7604.29.5060, 7608.20.0030, 7608.20.0090, 9506.11.4080, 9506.51.4000, 9506.51.6000, 9506.59.4040, 9506.70.2090, 9506.99.0510, 9506.99.0520, 9506.99.0530, 9506.99.1500, 9506.99.2000, 9506.99.2580, 9506.99.2800, 9506.99.6080, 9507.30.2000, 9507.30.4000, 9507.30.6000, 9507.90.6000, 8419.90.1000, 8302.10.3000, 8302.10.6030, 8302.10.6060, 8302.10.6090, 8302.30.3010, 8302.30.3060, 8302.41.3000, 8302.41.6015, 8302.41.6045, 8302.41.6050, 8302.41.6080, 8302.42.3010, 8302.42.3015, 8302.42.3065, 8302.49.6035, 8302.49.6045, 8302.49.6055, 8302.49.6085, 8302.60.9000, 8306.30.0000, 9403.90.8061, 9403.90.1040, 9403.90.1050, 9403.90.1085, 9403.90.2540, 9403.90.2580, 9403.90.4005, 9403.90.4010, 9403.90.4060, 9403.90.5005, 9403.90.5010, 9403.90.5080, 9403.90.6005, 9403.90.6010, 9403.90.6080, 9403.90.7005,

9403.90.7010, 9403.90.7080, 9403.90.8010, 9403.90.8015, 9403.90.8020, 9403.90.8041, 9403.90.8051, 9403.10.00, 9403.20.00, 8479.89.98, 8479.90.94, 8513.90.20, 8302.50.0000, 9506.91.0010, 9506.91.0020, 9506.91.0030, 7615.19.30, 7615.19.50, 7615.19.70, 7615.19.90, 7615.19.10, 7615.20.00, 7616.99.10 and 7616.99.50. The subject merchandise entered as parts of other aluminum products may be classifiable under the following additional Chapter 76 subheadings: 7610.10, 7610.90, 7615.19, 7615.20, and 7616.99 as well as under other HTS chapters. In addition, fin evaporator coils may be classifiable under HTS numbers: 8418.99.80.50 and 8418.99.80.60. While HTS subheadings are provided for convenience and customs purposes, the written description of the scope is dispositive.

Final Results of Changed Circumstances Review

Because no parties have submitted comments opposing the Department’s *Preliminary Results*, and because there is no other information or evidence on the record that calls into question the *Preliminary Results*, the Department determines that Guangdong Zhongya is the successor-in-interest to New Zhongya for the purpose of determining antidumping duty liability.

Instructions to U.S. Customs and Border Protection

The Department will instruct U.S. Customs and Border Protection to suspend liquidation and collect a cash deposit rate of 33.28 percent on all shipments of the subject merchandise exported by Guangdong Zhongya and entered, or withdrawn from warehouse, for consumption, on or after the publication date of these results of changed circumstances review.⁷

Notification

This notice serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.306. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations

⁷ See *Stainless Steel Plate in Coils From Belgium: Notice of Final Results of Antidumping Duty Changed Circumstances Review*, 77 FR 21963 (April 12, 2012), and accompanying Issues and Decision Memorandum; see also *Notice of Final Results of Antidumping Duty Changed Circumstances Review: Certain Frozen Warmwater Shrimp From Thailand*, 75 FR 74684 (December 1, 2010), and accompanying Issues and Decision Memorandum.

and terms of an APO is a sanctionable violation.

We are issuing and publishing these final results and notice in accordance with sections 751(b) and 777(i) of the Tariff Act of 1930, as amended, and 19 CFR 351.216 and 351.221(c)(3).

Dated: August 30, 2012.

Paul Piquado,

Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Input From Hawaii's Boat-based Anglers

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before November 5, 2012.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at Jjessup@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Christopher Hawkins, (808) 944-2291 or Christopher.Hawkins@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for a new information collection. The Magnuson-Stevens Fishery Conservation and Management Act (MSA) requires anglers who (1) engage in angling or spearfishing for fish in the Exclusive Economic Zone (EEZ); anadromous species in any tidal waters; or continental Shelf fishery resources beyond the EEZ, (2) operate a for-hire fishing vessel in the EEZ, (3) operate a for-hire fishing vessel that engages in

angling or spearfishing for: anadromous species in any tidal waters; or continental shelf fishery resources beyond the EEZ, (4) possess equipment used for angling or spearfishing and also possesses: Fish in the EEZ; anadromous species in any tidal waters; or continental shelf fishery resources beyond the EEZ to register annually with the National Angler Register. Those in states which have received exempted status per regulations at 600 CFR 1415-17 need not register with NMFS. Under 600 CFR 1417, MSA allows NMFS to exempt a State that has developed a qualifying regional survey that meets the Marine Recreational Information Program's National Data Standards.

The State of Hawaii is developing a comprehensive data collection program that will meet the requirements set forth at 600CFR 1417 and exempt the State's anglers from the national registry requirement. The information gathered from the proposed voluntary survey of a sample of the State's registered boaters will be used to develop an ongoing (monitoring) survey of fishing catch and effort derived from Hawaii's private boaters—a required component of any qualifying regional survey. The survey instrument will also collect information to inform engagement of and projects aimed at local boat-based anglers under NOAA's National Recreational Saltwater Fishing Initiative.

II. Method of Collection

The survey instrument will be mailed to respondents using the address they provided to the State's Division of Boating and Ocean Recreation. The survey packet will include a personalized cover letter and a postage-paid, pre-addressed return envelope.

III. Data

OMB Control Number: None.

Form Number: None.

Type of Review: Regular submission (new information collection).

Affected Public: Non-profit institutions; State, local, or tribal government; business or other for-profit organizations.

Estimated Number of Respondents: 1,000.

Estimated Time per Response: 20 minutes.

Estimated Total Annual Burden Hours: 334.

Estimated Total Annual Cost to Public: \$0 in recordkeeping/reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information

is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: August 31, 2012.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.
