Accessibility Act (CVAA), Public Law 11-260, for the purpose of achieving equal access to emergency services by individuals with disabilities as part of our nation's migration to a national Internet protocol-enabled emergency network, also known as the next generation 9-1-1 system (NG9-1-1). The purpose of the EAAC is to determine the most effective and efficient technologies and methods by which to enable access to Next Generation 911 (NG 9-1-1) emergency services by individuals with disabilities, and to make recommendations to the Commission on how to achieve those effective and efficient technologies and methods. During the spring of 2011, the EAAC conducted a nationwide survey of individuals with disabilities and released a report on that survey on June 21, 2011. Following release of the survey report, the EAAC developed recommendations, which it submitted to the Commission on December 7, 2011, as required by the CVAA. At the September 2012 EAAC meeting, the seven subcommittees of the EAAC will present reports and consider activities for 2012.
