

Preliminary Results on the record of this segment of the proceeding. As there are no changes from, or comments upon, the *Preliminary Results* on the record, there is no decision memorandum accompanying this **Federal Register** notice. For further details of the issues addressed in this proceeding, see *Preliminary Results*. The final weighted-average dumping margin for the period May 1, 2010, through April 30, 2011, is as follows:

Producer/Exporter	Weighted-average margin (percentage)
Noksel Celik Boru Sanayi A.S.	0.00

Assessment

The Department shall determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries, in accordance with 19 CFR 351.212(b)(1). The Department intends to issue appropriate assessment instructions for the companies subject to this review to CBP 15 days after the date of publication of these final results.

Noksel reported that it was the importer of record for all of its U.S. sales of subject merchandise. Pursuant to 19 CFR 351.212(b)(1), we have calculated an importer-specific assessment rate based on the ratio of the total amount of antidumping duties calculated for the examined sales to the total entered value of those sales.

To determine whether the duty assessment rates were *de minimis* (i.e., less than 0.50 percent) in accordance with the requirement set forth in 19 CFR 351.106(c)(2), we calculated importer-specific *ad valorem* rates based on reported and estimated entered values (when no entered value was reported). Where the assessment rate is above *de minimis*, we will instruct CBP to assess duties on all entries of subject merchandise by that importer. Pursuant to 19 CFR 351.106(c)(2), we will instruct CBP to liquidate without regard to antidumping duties any entries for which the assessment rate is *de minimis*.

The Department clarified its "automatic assessment" regulation on May 6, 2003.² This clarification will apply to entries of subject merchandise during the POR produced by companies included in these final results of review for which the reviewed companies did not know their merchandise was destined for the United States. In such

instances, we will instruct CBP to liquidate un-reviewed entries at the all-others rate established in the less-than-fair-value (LTFV) investigation if there is no rate for the intermediate company(ies) involved in the transaction. See *Assessment Policy Notice*.

Cash Deposit Requirements

The following deposit rates will be effective upon publication of the final results of this administrative review for all shipments of light-walled rectangular pipe and tube from Turkey entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by section 751(a)(2)(C) of the Act: (1) For companies covered by this review, the cash deposit rate will be the rates listed above; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent final results in which that manufacturer or exporter participated; (3) if the exporter is not a firm covered in this review, a prior review, or the original LTFV investigation, but the producer is, the cash deposit rate will be the rate established for the most recent final results for the manufacturer of the merchandise; and (4) if neither the exporter nor the producer is a firm covered in this or any previous review conducted by the Department, the cash deposit rate will be 27.04 percent *ad valorem*, the "all others" rate established in the LTFV investigation.³ These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification to Interested Parties

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information

disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/ destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This administrative review and notice are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: August 30, 2012.

Paul Piquado,

Assistant Secretary for Import Administration.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XC210

Marine Mammals; File No. 17410

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that the Alaska Department of Fish and Game (ADF&G; Responsible Party: Robert Small), 1255 West 8th Street, Juneau, AK 99811, has applied in due form for a permit to import, export, collect, and receive marine mammal parts for scientific research.

DATES: Written, telefaxed, or email comments must be received on or before October 10, 2012.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the *Features* box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 17410 from the list of available applications.

These documents are also available upon written request or by appointment in the following offices:

Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427-8401; fax (301) 713-0376; and Alaska Region, NMFS, P.O. Box 21668, Juneau, AK 99802-1668; phone (907) 586-7221; fax (907) 586-7249.

Written comments on this application should be submitted to the Chief, Permits and Conservation Division, at

² See *Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003) (*Assessment Policy Notice*).

³ See *Notice of Antidumping Duty Order: Light-Walled Rectangular Pipe and Tube From Turkey*, 73 FR 31065 (May 30, 2008).

the address listed above. Comments may also be submitted by facsimile to (301) 713-0376, or by email to NMFS.Pr1Comments@noaa.gov. Please include the File No. in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on these applications would be appropriate.

FOR FURTHER INFORMATION CONTACT: Laura Morse or Amy Sloan, (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226), and the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 *et seq.*).

The objectives of the proposed research are to obtain information on population status and distribution, stock structure, age distribution, mortality rates, productivity, feeding habits, and health status of twenty-six species of pinnipeds (excluding walrus) and cetaceans found in Alaskan waters; such data would be used for conservation and management purposes. The applicant is requesting authorization to collect, receive, import, and export marine mammal parts from legal foreign (Russia and Canada) and domestic subsistence-hunts; scientists in academic, federal, and state institutions involved in legally authorized marine mammal research; dead beach-cast species; and incidental commercial fisheries bycatch. Import/export activities would occur worldwide. No live animal takes are being requested under this permit. The requested duration of the permit is five years.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activities proposed are categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding a copy of the application to the Marine Mammal

Commission and its Committee of Scientific Advisors.

Dated: September 4, 2012.

P. Michael Payne,

Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XC220

Atlantic Coastal Fisheries Cooperative Management Act Provisions; Horseshoe Crabs; Application for Exempted Fishing Permit, 2012

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notification of a proposal to conduct exempted fishing; request for comments.

SUMMARY: The Deputy Director, Office of Sustainable Fisheries, has made a preliminary determination that the subject exempted fishing permit (EFP) application submitted by Limuli Laboratories of Cape May Court House, NJ, contains all the required information and warrants further consideration. The proposed EFP would allow the harvest of up to 10,000 horseshoe crabs from the Carl N. Shuster Jr. Horseshoe Crab Reserve (Reserve) for biomedical purposes and require, as a condition of the EFP, the collection of data related to the status of horseshoe crabs within the reserve. The Deputy Director has also made a preliminary determination that the activities authorized under the EFP would be consistent with the goals and objectives of the Atlantic States Marine Fisheries Commission's (Commission) Horseshoe Crab Interstate Fisheries Management Plan (FMP). However, further review and consultation may be necessary before a final determination is made to issue the EFP. Therefore, NMFS announces that the Deputy Director proposes to recommend that an EFP be issued that would allow up to two commercial fishing vessels to conduct fishing operations that are otherwise restricted by the regulations promulgated under the Atlantic Coastal Fisheries Cooperative Management Act (Atlantic Coastal Act). The EFP would allow for an exemption from the Reserve.

Regulations under the Atlantic Coastal Act require publication of this

notification to provide interested parties the opportunity to comment on applications for proposed EFPs.

DATES: Written comments on this action must be received on or before September 25, 2012.

ADDRESSES: Written comments should be sent to Emily Menashes, Deputy Director, Office of Sustainable Fisheries, NMFS, 1315 East-West Highway, Room 13362, Silver Spring, MD 20910. Mark the outside of the envelope "Comments on Horseshoe Crab EFP Proposal." Comments may also be sent via fax to (301) 713-0596. Comments on this notice may also be submitted by email to: derek.orner@noaa.gov. Include in the subject line of the email comment the following document identifier: "Horseshoe Crab EFP Proposal Comments."

FOR FURTHER INFORMATION CONTACT: Derek Orner, Office of Sustainable Fisheries, (301) 427-8567.

SUPPLEMENTARY INFORMATION:

Background

Limuli Laboratories submitted an application for an EFP on June 19, 2012, to collect up to 10,000 horseshoe crabs for biomedical and data collection purposes from the Reserve. The applicant has applied for, and received, a similar EFP every year from 2001-2011. The current EFP application specifies that: (1) The same methods would be used in 2012 that were used in years 2001-2011, (2) at least 15 percent of the bled horseshoe crabs would be tagged, and (3) there had not been any sighting or capture of marine mammals or endangered species in the trawling nets of fishing vessels engaged in the collection of horseshoe crabs since 1993. The project submitted by Limuli Laboratories would provide morphological data on horseshoe crab catch, would tag a portion of the caught horseshoe crabs, and would use the blood from the caught horseshoe crabs to manufacture Limulus Amebocyte Lysate (LAL), an important health and safety product used for the detection of endotoxins. The LAL assay is used by medical professionals, drug companies, and pharmacies to detect endotoxins in intravenous pharmaceuticals and medical devices that come into contact with human blood or spinal fluid.

Results of 2011 EFP

During the 2011 season, a total of 3,500 horseshoe crabs were gathered over a period of seven days, from the Carl N. Schuster Jr. Horseshoe Crab Reserve (Reserve) for the manufacture of LAL. After transportation to the laboratory, the horseshoe crabs were
