

Adoption of the Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA amends 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

■ 1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

■ 2. The FAA amends § 39.13 by adding the following new AD:

2012–18–10 GA200 (Pty) Ltd: Amendment 39–17187; Docket No. FAA–2012–0946; Directorate Identifier 2012–CE–037–AD.

(a) Effective Date

This airworthiness directive (AD) becomes effective September 14, 2012.

(b) Affected ADs

None.

(c) Applicability

This AD applies to GA200 (Pty) Ltd Models GA200 and GA200C airplanes, all serial numbers, certificated in any category.

(d) Subject

Air Transport Association of America (ATA) Code 57: Wings.

(e) Reason

This AD was prompted by mandatory continuing airworthiness information (MCAI) issued by the aviation authority of another country to identify and correct an unsafe condition on an aviation product. We are issuing this AD to require actions to address the unsafe condition on these products.

(f) Actions and Compliance

Unless already done, do the following actions.

(1) Within 10 hours time-in-service (TIS) after September 14, 2012 (the effective date of this AD), and repetitively thereafter at intervals not to exceed every 100 hours TIS, do the inspections required following GippsAero Mandatory Service Bulletin SB–GA200–2012–08, Issue 1, dated August 22, 2012.

(2) If you find any discrepancy in any of the inspections required by paragraph (f)(1) of this AD, before further flight, take corrective actions following GippsAero Mandatory Service Bulletin SB–GA200–2012–08, Issue 1, dated August 22, 2012.

(g) Other FAA AD Provisions

The following provisions also apply to this AD:

(1) Alternative Methods of Compliance (AMOCs): The Manager, Standards Office, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. Send information to ATTN: Doug Rudolph, Aerospace Engineer, FAA, Small Airplane Directorate, 901 Locust, Room 301, Kansas City, Missouri 64106;

telephone: (816) 329–4059; fax: (816) 329–4090; email: doug.rudolph@faa.gov. Before using any approved AMOC on any airplane to which the AMOC applies, notify your appropriate principal inspector (PI) in the FAA Flight Standards District Office (FSDO), or lacking a PI, your local FSDO.

(2) Airworthy Product: For any requirement in this AD to obtain corrective actions from a manufacturer or other source, use these actions if they are FAA-approved. Corrective actions are considered FAA-approved if they are approved by the State of Design Authority (or their delegated agent). You are required to assure the product is airworthy before it is returned to service.

(3) Reporting Requirements: For any reporting requirement in this AD, a federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a current valid OMB Control Number. The OMB Control Number for this information collection is 2120–0056. Public reporting for this collection of information is estimated to be approximately 5 minutes per response, including the time for reviewing instructions, completing and reviewing the collection of information. All responses to this collection of information are mandatory. Comments concerning the accuracy of this burden and suggestions for reducing the burden should be directed to the FAA at: 800 Independence Ave. SW., Washington, DC 20591, Attn: Information Collection Clearance Officer, AES–200.

(h) Related Information

Refer to MCAI Civil Aviation Safety Authority AD AD/GA200/1, dated August 23, 2012, and GippsAero Mandatory Service Bulletin SB–GA200–2012–08, Issue 1, dated August 22, 2012, for related information.

(i) Material Incorporated by Reference

(1) The Director of the Federal Register approved the incorporation by reference (IBR) of the service information listed in this paragraph under 5 U.S.C. 552(a) and 1 CFR part 51.

(2) You must use this service information as applicable to do the actions required by this AD, unless the AD specifies otherwise.

(i) GippsAero Mandatory Service Bulletin SB–GA200–2012–08, Issue 1, dated August 22, 2012.

(ii) Reserved.

(3) For GA200 (Pty) Ltd service information identified in this AD, contact GippsAero, PO Box 881, Morwell, Victoria 3840, Australia, telephone: + 61 (0) 3 5172 1200; fax + 61 (0) 3 5172 1201; email: support@gippsaero.com; Internet: www.gippsaero.com.

(4) You may view this service information at FAA, Small Airplane Directorate, 901 Locust, Kansas City, Missouri 64106. For information on the availability of this material at the FAA, call (816) 329–4148.

(5) You may view this service information that is incorporated by reference at the National Archives and Records Administration (NARA). For information on

the availability of this material at NARA, call 202–741–6030, or go to: <http://www.archives.gov/federal-register/cfr/ibr-locations.html>.

Issued in Kansas City, Missouri on August 31, 2012.

Earl Lawrence,

Manager, Small Airplane Directorate, Aircraft Certification Service.

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA–2011–1181; Airspace Docket No. 11–ANM–20]

Amendment of Class E Airspace; Boise, ID

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends the Class E airspace areas at Boise Air Terminal (Gowen Field), Boise, ID. This action also adjusts the geographic coordinates of the airport. The Boise VHF Omni-Directional Radio Range Tactical Air Navigational Aid (VORTAC) is no longer needed as a reference. The Donnelly Tactical Air Navigation System (TACAN) has been decommissioned and controlled airspace reconfigured. This action also makes a minor change to the legal description in reference to Class E airspace 9,000 feet Mean Sea Level (MSL). This improves the safety and management of Instrument Flight Rules (IFR) operations at the airport.

DATES: Effective date, 0901 UTC, November 15, 2012. The Director of the **Federal Register** approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

FOR FURTHER INFORMATION CONTACT: Eldon Taylor, Federal Aviation Administration, Operations Support Group, Western Service Center, 1601 Lind Avenue SW., Renton, WA 98057; telephone (425) 203–4537.

SUPPLEMENTARY INFORMATION:

History

On February 7, 2012, the FAA published in the **Federal Register** a notice of proposed rulemaking (NPRM) to amend controlled airspace at Boise Air Terminal (Gowen Field), Boise, ID (77 FR 6026). Interested parties were invited to participate in this rulemaking effort by submitting written comments

on the proposal to the FAA. No comments were received. Subsequent to publication, the FAA found the Boise navigation aid is no longer needed and should be removed from the Class E airspace area designated as an extension.

On June 28, 2012, the FAA published in the **Federal Register** a supplemental notice of proposed rulemaking (SNPRM) to remove reference to the navigation aid listed under Class E airspace designated as an extension at Boise Air Terminal, Boise, ID (77 FR 38552). Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

The FAA's Aeronautical Products Office requested the legal description for the Class E airspace extending upward from 700 feet above the surface be rewritten for clarity. With the exception of editorial changes and the changes described above, this rule is the same as that proposed in the SNPRM.

Class E airspace designations are published in paragraph 6003 and 6005, respectively, of FAA Order 7400.9V dated August 9, 2011, and effective September 15, 2011, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in that Order.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) Part 71 by amending Class E airspace designated as an extension, at Boise Air Terminal (Gowan Field), Boise, ID. The legal description is rewritten to better describe the airspace area by removing reference to the Boise VORTAC. Class E airspace extending upward from 700 feet above the surface has been reconfigured due to the decommissioning of the Donnelly TACAN, and is rewritten for clarity. The geographic coordinates of the airport are adjusted in accordance with the FAA's aeronautical database. This ensures the safety and management of IFR operations within the National Airspace System.

The FAA has determined this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a

regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106 discusses the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends controlled airspace at Boise Air Terminal (Gowan Field), Boise, ID.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures," paragraph 311a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends

14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9V, Airspace Designations and Reporting Points, dated August 9, 2011, and effective

September 15, 2011 is amended as follows:

Paragraph 6003 Class E airspace Areas Designated as an Extension.

* * * * *

ANM ID E3 Boise, ID [Amended]

Boise Air Terminal (Gowan Field), ID
(Lat. 43°33'52" N., long. 116°13'22" W.)

That airspace extending upward from the surface within 3.5 miles each side of the Boise Air Terminal 300° bearing extending from the 5-mile radius of the Boise Air Terminal to 9.5 miles northwest of the airport; and within .5 miles west and 5.6 miles east of the Boise Air Terminal 179° bearing extending from the 5-mile radius of the airport to 6.1 miles south of the airport; and that airspace within 4.3 miles each side of the Boise Air Terminal 114° bearing extending from the 5-mile radius of the airport to 11.7 miles southeast of the airport.

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

* * * * *

ANM ID E5 Boise, ID [Amended]

Boise Air Terminal (Gowan Field), ID
(Lat. 43°33'52" N., long. 116°13'22" W.)

That airspace extending upward from 700 feet above the surface bounded by a line beginning at lat. 43°56'00" N., long. 116°33'04" W.; to lat. 43°51'15" N., long. 116°25'03" W.; thence via the 19.3-mile radius of the Boise Air Terminal (Gowan Field), clockwise to long. 116°14'03" W.; to lat. 43°45'00" N., long. 116°14'03" W.; to lat. 43°31'00" N., long. 115°52'03" W.; to lat. 43°20'00" N., long. 115°58'03" W.; to lat. 43°25'00" N., long. 116°25'03" W.; to lat. 43°27'00" N., long. 116°29'03" W.; to lat. 43°25'12" N., long. 116°32'23" W.; to lat. 43°29'25" N., long. 116°37'53" W.; to lat. 43°32'45" N., long. 116°49'04" W.; to lat. 43°37'35" N., long. 116°47'04" W.; to lat. 43°42'00" N., long. 116°57'04" W.; thence to the point of beginning; that airspace extending upward from 1,200 feet above the surface within the 30.5-mile radius of the airport beginning at the 122° bearing of the airport, thence via a line to the intersection of the 34.8-mile radius of the airport and the 224° bearing of the airport, thence clockwise along the 34.8-mile radius of the airport to that airspace 7 miles each side of the 269° bearing of the airport extending from the 34.8-mile radius to 49.6 miles west of the airport, and within 7 miles northeast and 9.6 miles southwest of the 295° bearing of the airport extending from the 34.8-mile radius to 65.3 miles northwest of the airport, to lat. 44°00'27" N., long. 117°10'58" W.; thence along the 042° bearing to V-253, thence south along V-253, thence along the 30.5-mile radius of the airport to the point of beginning; that airspace southeast of the airport extending upward from 9,000 feet MSL bounded on the north by V-444, on the east by V-293, on the south by V-330 on the southwest by V-4; that airspace northeast of the airport extending upward from 11,500 feet MSL, bounded on the northeast by V-293, on the south by V-444, on the southwest

by the 30.5-mile radius of the airport and on the west by V-253.

Issued in Seattle, Washington, on August 30, 2012.

Steven L. Vale,

Acting Manager, Operations Support Group, Western Service Center.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2011-1213; Airspace Docket No. 11-ANM-23]

Amendment of Class E Airspace; Dillon, MT

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Class E airspace extending upward from 700 feet above the surface, and adds controlled surface airspace at Dillon, MT, to accommodate aircraft using new Area Navigation (RNAV) Global Positioning System (GPS) standard instrument approach procedures at Dillon Airport. This improves the safety and management of Instrument Flight Rules (IFR) operations at the airport. The geographic coordinates of the airport also are adjusted.

DATES: Effective date, 0901 UTC, November 15, 2012. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

FOR FURTHER INFORMATION CONTACT: Eldon Taylor, Federal Aviation Administration, Operations Support Group, Western Service Center, 1601 Lind Avenue SW., Renton, WA 98057; telephone (425) 203-4537.

SUPPLEMENTARY INFORMATION:

History

On March 15, 2012, the FAA published in the **Federal Register** a notice of proposed rulemaking (NPRM) to amend Class E airspace at Dillon Airport, Dillon, MT (77 FR 15295). Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. One comment was received.

The commenter recommended establishing Class E surface airspace and also expanding the Class E airspace

extending upward from 700 feet above the surface for aircraft safety. The FAA found merit in this comment and proposed to further amend the NPRM.

On July 11, 2012, the FAA published in the **Federal Register** a supplemental notice of proposed rulemaking (SNPRM) to create Class E surface airspace and further amend existing Class E airspace at Dillon Airport, Dillon, MT (77 FR 40834). Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class E airspace designations are published in paragraph 6002 and 6005, respectively, of FAA Order 7400.9V dated August 9, 2011, and effective September 15, 2011, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in that Order.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) Part 71 by creating Class E surface airspace, and further modifying Class E airspace extending upward from 700 feet above the surface, at Dillon Airport, Dillon, MT, to accommodate IFR aircraft executing new RNAV (GPS) standard instrument approach procedures at the airport. This action is necessary for the safety and management of IFR operations. The geographic coordinates are adjusted to be in concert with the FAA's aeronautical database.

The FAA has determined this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106 discusses the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the

authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it establishes and amends controlled airspace at Dillon Airport, Dillon, MT.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures," paragraph 311a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air)

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR Part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9V, Airspace Designations and Reporting Points, dated August 9, 2011, and effective September 15, 2011 is amended as follows:

Paragraph 6002 Class E airspace designated as surface areas.

* * * * *

ANM MT E2 Dillon, MT [New]

Dillon Airport, MT

(Lat. 45°15'19" N., long. 112°33'09" W.)

Within a 6.1-mile radius of Dillon Airport. This Class E airspace area is effective during specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory.
