

These allocations are based on each country's historical shipments to the United States. The allocations of the in-quota quantities of the raw cane sugar TRQ to countries that are net importers of sugar are conditioned on receipt of the appropriate verifications of origin, and certificates for quota eligibility must accompany imports from any country for which an allocation has been provided.

On September 10, 2012, the Secretary announced the establishment of the in-quota quantity of the FY 2013 refined sugar TRQ at 117,254 MTRV for which the sucrose content, by weight in the dry state, must have a polarimeter reading of 99.5 degrees or more. This amount includes the minimum amount to which the United States committed to provide market access under the WTO Agreement (22,000 MTRV of which 1,656 MTRV is reserved for specialty sugar) and an additional 95,254 MTRV for specialty sugars. USTR is allocating 12,050 MTRV of refined sugar to Canada and 8,294 MTRV of refined sugar to be administered on a first-come, first-served basis.

Imports of all specialty sugar will be administered on a first-come, first-served basis in five tranches. The Secretary has announced that the total in-quota quantity of specialty sugar will be the 1,656 MTRV included under the U.S. WTO commitment plus an additional 95,254 MTRV. The first tranche of 1,656 MTRV will open October 12, 2012. All types of specialty sugars are eligible for entry under this tranche. The second tranche of 35,245 MTRV will open on October 26, 2012. The third, fourth, and fifth tranches of 20,003 MTRV each will open on January 11, 2013, April 11, 2013 and July 11, 2013, respectively. The second, third, fourth and fifth tranches will be reserved for organic sugar and other specialty sugars not currently produced commercially in the United States or reasonably available from domestic sources.

With respect to the in-quota quantity of 64,709 metric tons (MT) of the TRQ for imports of certain sugar-containing products maintained under Additional U.S. Note 8 to Chapter 17 of the HTS, USTR is allocating 59,250 MT to Canada. The remainder, 5,459 MT, of the in-quota quantity is available for other countries on a first-come, first-served basis.

Raw cane sugar, refined and specialty sugar and sugar-containing products for FY 2013 TRQs may enter the United States as of October 1, 2012.

*Conversion factor: 1 metric ton = 1.10231125 short tons.

SUPPLEMENTARY INFORMATION: Section 127(b) of the Uruguay Round

Agreements Act ("URAA") (19 U.S.C. 3537(b)(1)) requires that notice and opportunity for comment be provided after the United States submits or receives a request for the establishment of a WTO dispute settlement panel. Consistent with this obligation, USTR is providing notice that a dispute settlement panel has been established pursuant to the WTO Dispute Settlement Understanding ("DSU"). The panel will hold its meetings in Geneva, Switzerland.

Major Issues Raised by China

On August 20, 2012, China requested the establishment of a panel concerning the determinations to initiate countervailing duty investigations and the preliminary and final countervailing duty determinations and countervailing duty orders issued by the DOC on the following imports from China:

Lightweight Thermal Paper (Investigation C-570-921); Circular Welded Austenitic Stainless Pressure Pipe (Investigation C-570-931); Certain Circular Welded Carbon Quality Steel Line Pipe (Investigation C-570-936); Citric Acid and Certain Citrate Salts (Investigation C-570-938); Certain Tow Behind Lawn Groomers and Certain Parts Thereof (Investigation C-570-940); Certain Kitchen Appliance Shelving and Racks (Investigation C-570-942); Certain Oil Country Tubular Goods (Investigation C-570-944); Pre-Stressed Concrete Steel Wire Strand (Investigation C-570-946); Certain Steel Grating (Investigation C-570-948); Wire Decking (Investigation C-570-950); Certain Magnesite Carbon Bricks (Investigation C-570-955); Certain Seamless Carbon and Alloy Steel Standard Line and Pressure Pipe (Investigation C-570-957); Certain Coated Paper Suitable for High-Quality Print Graphics Using Sheet-Fed Presses (Investigation C-570-959); Drill Pipe (Investigation C-570-966); Aluminum Extrusions (Investigation C-570-968); Multilayered Wood Flooring (Investigation C-570-971); Certain Steel Wheels (Investigation C-570-974); Steel Wire (Investigation C-570-976); High Pressure Steel Cylinders (Investigation C-570-978); Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules (Investigation C-570-980); Utility Scale Wind Towers (Investigation C-570-982); and Drawn Stainless Steel Sinks (Investigation C-570-984) (together, the "challenged determinations and orders"). China alleges that the United States acted inconsistently with Article VI of the *General Agreement on Tariffs and Trade 1994* ("GATT 1994"); Articles 1, 2, 10, 11, 12, 14, and 32 the *Agreement on*

Subsidies and Countervailing Measures (“SCM Agreement”); and Article 15 the *Protocol on the Accession of the People’s Republic of China* (“Protocol of Accession”). The challenged determinations and orders are available at the following web page of the Department of Commerce: <http://ia.ita.doc.gov/frn/index.html>.

China also states that it is requesting the establishment of a panel with respect to the “rebuttable presumption” established and applied by the DOC, under which the DOC considers majority government ownership of an enterprise sufficient to determine that an enterprise is a “public body” within the meaning of Article 1.1 of the SCM Agreement, unless a party is able to demonstrate that majority government ownership does not result in ‘control’ of the enterprise.”

The panel request was largely similar to the consultations request filed on May 25, 2012.
