Rural Utilities Service

**Georgia Transmission Corporation:
Notice of Intent To Prepare an
Environmental Assessment and To
Hold Public Scoping Meetings**

AGENCY: Rural Utilities Service, USDA.

ACTION: Notice of Intent to prepare an Environmental Assessment and Hold Public Scoping Meetings.

SUMMARY: The Rural Utilities Service (RUS) intends to prepare an

Environmental Assessment (EA) and hold public scoping meetings and to meet its responsibilities under the National Environmental Policy Act (NEPA), the Council on Environmental Quality's regulations for implementing NEPA (40 CFR parts 1500-1508), and RUS's Environmental and Policies and Procedures (7 CFR part 1794) in connection with potential impacts related to a proposal by Georgia Transmission Corporation (GTC). The proposal consists of constructing approximately 40 to 45 miles of 230 kilovolt (kV) transmission line in portions of Atkinson, Berrien, Clinch, Coffee, and Lanier Counties, Georgia. GTC is requesting that RUS provide financial assistance for the proposal.

DATES: RUS will conduct two public scoping meetings in an open-house format on: Wednesday, September 26, 2012, from 3 to 7 p.m. at: the Holiday Inn Express Conference Room, 1636 South Peterson Ave., Douglas, Georgia 31534. Thursday, September 27, 2012, from 6 to 8 p.m. at: The Threatte Center, 209 South Highway 221, Lakeland, Georgia 31635. Representatives from RUS and GTC will be available at the meetings to discuss the environmental review process, the proposal, and the scope of environmental issues currently under consideration. Written comments regarding the proposal may be submitted at the public scoping meetings or by October 29, 2012, to the RUS address provided in this Notice.

ADDRESSES: To send comments or for further information, please contact Ms. Lauren McGee, Environmental Scientist, USDA Rural Utilities Service, P.O. Box 776, Haw River, North Carolina 27258-0776, telephone: (202) 695-2540, fax: (202) 690-0649, or email: lauren.mcgee@wdc.usda.gov.

An Alternatives Evaluation and Macro Corridor Study, which discusses the purpose and need for the proposal and the alternatives considered in the proposal's development, is available for public review at the following RUS Web site: <http://www.rurdev.usda.gov/UWP-EA-DouglasLakelandGA.html>; at GTC's headquarters office at: 2100 East Exchange Place, Tucker, Georgia 30084; and at the following repositories: Douglas/Coffee County Public Library, South Madison Ave., Douglas, Georgia 31533; Pearson Public Library, 56 East Bullard Ave., Pearson, Georgia 31642; Willacoochee Public Library, 165 East Fleetwood Ave., Willacoochee, Georgia 31650; and W.L. Miller Memorial Library, 124 South Valdosta Road, Lakeland, Georgia 31635.

SUPPLEMENTARY INFORMATION: GTC proposes to construct approximately 40

to 45 miles of 230 kV electric transmission line from the existing Douglas 115/230 kV Substation on the northwest side of the City of Douglas in Coffee County, Georgia, to an existing transmission line corridor north of the City of Lakeland in Lanier County, Georgia. In general, the project area is located in the Coastal Plains of South Georgia, east of Interstate 75 and northeast of the City of Valdosta. Proposal activities include acquisition of a 100 foot easement or right-of-way (ROW) within which the line would be sited. GTC anticipates using mostly single pole structures. Construction and line maintenance activities mostly would remain within the transmission line easement with access to the line from public ROW. Some construction activities may require stream and wetland crossings. GTC's proposal is one piece of the proposed Douglas-Pine Grove Plan (i.e., the preferred electrical solution). Four other connected actions, which will be constructed by other utilities, will be addressed in the proposed project's EA.

Among the alternatives that RUS will address in the EA is the No Action alternative, under which the proposal would not be undertaken. In the EA, the effects of the proposal will be compared to the existing conditions in the project area. Public health and safety, environmental impacts, and engineering aspects of the proposal will be considered in the EA.

RUS is the lead federal agency, as defined at 40 CFR 1501.5, for preparation of the EA. With this Notice, federally recognized Native American Tribes and Federal agencies with jurisdiction or special expertise are invited to be cooperating agencies. Such tribes or agencies may make a request to RUS to be a cooperating agency by contacting the RUS contact provided in this Notice. Designated cooperating agencies have certain responsibilities to support the NEPA process, as specified at 40 CFR 1501.6(b).

As part of its broad environmental review process, RUS must take into account the effect of the proposal on historic properties in accordance with Section 106 of the National Historic Preservation Act (Section 106) and its implementing regulation, "Protection of Historic Properties" (36 CFR part 800). Pursuant to 36 CFR 800.2(d)(3), RUS is using its procedures for public involvement under NEPA to meet its responsibilities to solicit and consider the views of the public during Section 106 review. Accordingly, comments submitted in response to scoping will inform RUS decision-making in its Section 106 review process. Any party
