wishing to participate more directly with RUS as a “consulting party” in Section 106 review may submit a written request to the RUS contact provided in this Notice. RUS will use input provided by government agencies, private organizations, and the public in the preparation of the EA. The EA will be available for review and comment for 30 days. If RUS finds, based on the EA, that the proposal will not have a significant effect on the quality of the human environment, RUS will prepare a Finding of No Significant Impact (FONSI). Notification of the EA and FONSI will be published in the Federal Register and in newspapers with circulation in the proposal’s area. If substantive comments are received on the EA, RUS may provide an additional period (15 days) for public review following the publication of its FONSI. When appropriate to carry out the purposes of NEPA, RUS may impose, on a case-by-case basis, additional requirements associated with the preparation of an EA. If at any point in the preparation of an EA and review of comments, RUS determines that the proposal will have a significant effect on the quality of the human environment, the preparation of an Environmental Impact Statement will be required.

Any final action by RUS related to the proposal will be subject to, and contingent upon, compliance with all relevant executive orders and federal, state, and local environmental laws and regulations in addition to the completion of the environmental review requirements as prescribed in RUS’s Environmental Policies and Procedures, 7 CFR part 1794, as amended.
