**SUMMARY:** The Environmental Protection Agency Region 4 announces the deletion of the New Hanover County Airport Burn Pit Superfund Site (Site) located in Wilmington, North Carolina, from the National Priorities List (NPL). The NPL, promulgated pursuant to Section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is an appendix of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). EPA and the State of North Carolina, through the North Carolina Department of Environment and Natural Resources (DENR), have determined that all appropriate response actions under CERCLA have been completed. However, this deletion does not preclude future actions under Superfund.

**DATES:** This action is effective September 20, 2012.

EPA maintains the NPL as the list of  
sites that appear to present a significant  
risk to public health, welfare, or the  
environment. Deletion from the NPL  
does not preclude further remedial  
action. Whenever there is a significant  
release from a site deleted from the NPL,  
the deleted site may be restored to the  
NPL without application of the hazard  
ranking system. Deletion of a site from  
the NPL does not affect responsible  
party liability in the unlikely event that  
future conditions warrant further  
actions.
