ACTION: Notice of applications for exemptions; request for comments.

SUMMARY: FMCSA announces receipt of applications from 5 individuals for exemption from the vision requirement in the Federal Motor Carrier Safety Regulations. SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the Federal Motor Carrier Safety Regulations for a 2-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption." FMCSA can renew exemptions at the end of each 2-year period. The 5 individuals listed in this notice have each requested such an exemption from the vision requirement in 49 CFR 391.41(b)(10), which applies to drivers of CMVs in interstate commerce. Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting an exemption will achieve the required level of safety mandated by statute.

Qualifications of Applicants

James R. Atherton

Mr. Atherton, age 64, has had amblyopia in his right eye since childhood. The best corrected visual acuity in his right eye is 20/100, and in his left eye, 20/20. Following an examination in 2012, his optometrist noted, "I feel that Mr. Atherton has sufficient vision to drive a commercial vehicle as long as he follows all the recommended restrictions." Mr. Atherton reported that he has driven tractor-trailer combinations for 37 years, accumulating 2.7 million miles. He holds an operator's license from Indiana. His driving record for the last 3 years shows no crashes and one conviction for a moving violation in a CMV; failure to obey a traffic signal.

Jose S. Chavez

Mr. Chavez, 47, had a rupture in his left eye due to an injury sustained in 1984. The best corrected visual acuity in his right eye is 20/20, and in his left eye, hand motion vision. Following an examination in 2011, his ophthalmologist noted, "I certify, in my medical opinion, that this patient has sufficient vision to perform the driving test required to operate a commercial vehicle and a waiver should be done, because I am aware of that normally you have to have two eyes unless you have a waiver; but he has been doing this for many years without an accident and he is a very reliable and careful driver." Mr. Chavez reported that he has driven tractor-trailer combinations for 22 years, accumulating 3.3 million miles. He holds a Class A Commercial Driver's License (CDL) from Arizona. His driving record for the last 3 years shows no crashes and no convictions for moving violations in a CMV.

Christopher K. Foot

Mr. Foot, 46, has a prosthetic right eye due to traumatic injury sustained in 1970. The best corrected visual acuity in his right eye is no light perception, and in his left eye, 20/20. Following an examination in 2012, his ophthalmologist noted, "Based on his excellent vision in the left eye and his long history of driving commercial vehicles, it is in my medical opinion that he has sufficient vision to perform the driving tasks required to operate a commercial motor vehicle." Mr. Foot reported that he has driven straight trucks for 4 years, accumulating 312,000 miles. He holds a Class B CDL from Nevada. His driving record for the last 3 years shows no crashes but one conviction for speeding in a CMV; he exceeded the speed limit by 10 mph.

Patrick J. McMillen

Mr. McMillen, 50, has scarring in his left eye due to histoplasmosis sustained in 1991. The best corrected visual acuity in his right eye is 20/25, and in his left eye, 20/200. Following an examination in 2012, his optometrist noted, "It is my professional opinion that the defect in Mr. McMillen's left eye will not and has not affected his ability to operate a motor vehicle safely, whether commercial or private." Mr. McMillen reported that he has driven straight trucks for 12 years, accumulating 12,000 miles, and tractor-trailer combinations for 24 years, accumulating 960,000 miles. He holds a Class A CDL from Wisconsin. His driving record for the last 3 years shows no crashes but one conviction for speeding in a CMV; he exceeded the speed limit by 15 mph.

Gary B. Shipler

Mr. Shipler, 66, has retinal damage in his right eye since age 13. The visual acuity in his right eye is hand motion, and in his left eye, 20/20. Following an examination in 2012, his ophthalmologist noted, "In my opinion he has sufficient vision to perform the driving tasks required to operate a commercial vehicle." Mr. Shipler reported that he has driven straight trucks for 4 years, accumulating 120,000 miles. He holds an operator's license from Washington. His driving record for the last 3 years shows no crashes and no convictions for moving violations in a CMV.
