

distribution of listed species already on their property. Application requirements and issuance criteria for enhancement of survival permits through safe harbor agreements are found in the Code of Federal Regulations (CFR) at 50 CFR 17.22(c) and 17.32(c). An enhancement of survival permit allows any necessary future incidental take of species above the mutually agreed upon baseline conditions for the species, as long as the take is in accordance with the terms and conditions of the permit and accompanying agreement.

Proposed Safe Harbor Agreement for Lahontan cutthroat trout

The primary objective of this proposed SHA is to encourage voluntary habitat restoration, maintenance, or enhancement activities to benefit Lahontan cutthroat trout (*Oncorhynchus clarkii henshawi*). The SHA would cover conservation activities to create, maintain, restore, or enhance habitat for Lahontan cutthroat trout and achieve species' recovery goals. These actions, where appropriate, could include (but are not limited to): (1) Restoration of riparian habitat and stream form and function; (2) variation of stocking rates for livestock (number/density of animals per unit area); (3) repair or installation of fences to protect existing or created habitat from livestock disturbance; (4) control of nonnative fish species; and (5) installation of screens on irrigation diversions as well as facilitation of the implementation of other objectives recommended by the Lahontan Cutthroat Trout Recovery Plan (Service 1995). The overall goal of the SHA is to produce conservation measures that are mutually beneficial to the applicant and the long-term existence of Lahontan cutthroat trout. Based upon the probable species' response time for Lahontan cutthroat trout, the Service estimates it will take 5–10 years of implementing the planned conservation measures to fully reach a net conservation benefit; some level of benefit would likely occur within a shorter time period. After maintenance of the restored/created/enhanced Lahontan cutthroat trout habitat on the property for the agreed-upon term, the applicant may then conduct otherwise lawful activities on the property that result in the partial or total elimination of the habitat improvements and the taking of Lahontan cutthroat trout. However, the restrictions on returning a property to its original baseline condition include: (1) The applicant must demonstrate that baseline conditions were maintained during the term of the SHA and the conservation measures necessary for

achieving a net conservation benefit were carried out; and (2) the Service will be notified a minimum of 60 days prior to the activity and given the opportunity to capture, rescue, and/or relocate any Lahontan cutthroat trout.

The Service has made a preliminary determination that approval of the proposed SHA qualifies for a categorical exclusion under NEPA (23 CFR 771.117), as provided by the Department of Interior Manual (516 DM 2, Appendix 1 and 516 DM 6, Appendix 1). We explain the basis for this determination in an environmental action statement that is available for public review. Based upon this preliminary determination, we do not intend to prepare further NEPA documentation. The Service will consider public comments in making its final determination on whether to prepare such additional documentation.

Public Review and Comments

We specifically request information, views, and opinions from the public on the proposed Federal action of issuing a permit, including the identification of any aspects of the human environment not already analyzed in our environmental action statement. Further, we specifically solicit information regarding the adequacy of the SHA as measured against our permit issuance criteria found in 50 CFR 17.22(c).

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

The Service provides this notice pursuant to section 10(c) of the ESA and pursuant to implementing regulations for NEPA (40 CFR 1506.6). We will evaluate the permit application, the proposed SHA, and comments submitted thereon to determine whether the application meets the requirements of section 10(a) of the ESA and NEPA regulations. If the requirements are met, the Service will sign the proposed SHA and issue an enhancement of survival permit under section 10(a)(1)(A) of the ESA to the applicant for take of the Lahontan cutthroat trout incidental to otherwise lawful activities of the project. The Service will not make a final decision until after the end of the 30-day comment period and will fully consider all comments received during the comment period.

Renewal of Approved Information Collection

AGENCY: Bureau of Land Management, Interior.

ACTION: 60-day notice and request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act, the Bureau of Land Management (BLM) is announcing its intention to request approval to continue the collection of information regarding leases of solid minerals other than coal and oil shale. The Office of Management and Budget (OMB) has assigned control number 1004–0121 to this information collection.

DATES: Please submit comments on the proposed information collection by November 26, 2012.

ADDRESSES: Comments may be submitted by mail, fax, or electronic mail.

Mail: U.S. Department of the Interior, Bureau of Land Management, 1849 C Street NW., Room 2134LM, Attention: Jean Sonneman, Washington, DC 20240.

Fax: to Jean Sonneman at 202–245–0050.

Electronic Mail:

Please indicate “Attn: 1004–0121” regardless of the form of your comments.

FOR FURTHER INFORMATION CONTACT:

Vince Vogt, at 202–912–7125. Persons who use a telecommunication device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339, to leave a message for Mr. Vogt.

SUPPLEMENTARY INFORMATION: OMB regulations at 5 CFR part 1320, which implement provisions of the Paperwork Reduction Act, 44 U.S.C. 3501–3521, require that interested members of the public and affected agencies be given an opportunity to comment on information

collection and recordkeeping activities (see 5 CFR 1320.8 (d) and 1320.12(a)). This notice identifies an information collection that the BLM plans to submit to OMB for approval. The Paperwork Reduction Act provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

The BLM will request a 3-year term of approval for this information collection activity. Comments are invited on: (1) The need for the collection of information for the performance of the functions of the agency; (2) the accuracy of the agency's burden estimates; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the information collection burden on respondents, such as use of automated means of collection of the information. A summary of the public comments will accompany our submission of the information collection requests to OMB.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

The following information is provided for the information collection:

Title: Leasing of Solid Minerals Other Than Coal and Oil Shale (43 CFR Parts 3500, 3580, and 3590).

OMB Control Number: 1004-0121.

Abstract: This control number enables the BLM to fulfill its responsibilities regarding prospecting permits, exploration licenses, leases, the exchange of leases, use permits, and the regulation of mining activities for solid minerals other than coal or oil shale. The information activities currently approved under control number 1004-0121 include requirements that an applicant, a permittee or a lessee submit information that enables the BLM to:

- Determine if applicants, permittees, and lessees meet qualification criteria;
- Assure compliance with various other legal requirements relating to the leasing of solid minerals other than coal or oil shale;
- Gather data needed to determine the environmental impacts of developing solid leasable minerals other than coal or oil shale;

- Maintain accurate leasing records; and
- Oversee and manage the leasing of solid minerals other than coal or oil shale.

Frequency of Collection: On occasion.

Description of Respondents:

Applicants for, and holders of, the following items in connection with solid minerals other than coal or oil shale:

- Prospecting permits;
- Exploration licenses;
- Leases; and
- Use permits.

Estimated Annual Responses: 473.

Estimated Annual Burden Hours: 16,346.
