

Road, overlooking the Mud Lake Unit. A boardwalk and observation platform would be constructed on the southeast border of the Refuge along North Beach Road. A step-down plan for these facilities would be completed within 2 years of CCP completion. A new staff position would be dedicated to public outreach, and developing and delivering on-site interpretive and environmental education programs to local schools and community groups.

Alternative 3 (Preferred Alternative)

Wildlife and Habitat: Alternative 3, the Service's Preferred Alternative, would emphasize partially restoring long-term habitat function, providing an acceptable range of natural habitat variability, increasing habitat resilience in the face of external stress, and increasing the long-term vigor of wildlife populations. While the Refuge would continue to provide breeding and fall migration habitat for waterfowl, the emphasis would be on providing a range of habitats, not only for waterfowl, but other migratory waterbirds.

Management actions and water-level manipulations would simulate natural "drought," "normal," or "flood" scenarios, and provide a variety of permanent, semi-permanent, seasonal, and temporary wetland habitats. The acreage of each habitat would vary annually within each unit, but the total Refuge acreage of each habitat would remain the same from year to year. Compared to Alternative 1, there would be a moderate increase in spring and fall seasonal and moist soil wetland habitats. Approximately 154 acres of small grain and legume crops would continue to be cultivated for waterfowl and other key wildlife species. Haying would be reduced to 1,492 acres (44 percent of current hayed acres), and 2,041 acres of previously hayed habitats would be restored or rehabilitated to native wet meadow or upland grass habitats by 2027. The Refuge would phase the reduction in haying over three 5-year cycles: 2013–2017; 2018–2022; and 2023–2027. An approximate 60:40 ratio of hayed-to-unhayed meadow would be managed for goose brooding and foraging areas. As in Alternative 2, the Refuge would study the feasibility of reducing sediment loads in the Mud Lake Complex and make recommendations by 2020 to reduce the sedimentation rate of Bear River water diversions and better exclude carp from Refuge wetlands. As in Alternative 2, upland and riparian management activity would increase considerably from Alternative 1.

Hunting and Fishing: The waterfowl and upland hunting program at Bear

Lake NWR would continue to be managed as described in Alternative 1. Compatible fishing opportunities would be expanded through construction of improved signage and small piers or fishing platforms along the Outlet Canal north of the Paris Dike. Fishing would also be allowed from the banks along Merkley Lake Road, consistent with State regulations. As in Alternatives 1 and 2, the Thomas Fork Unit would remain closed to all public access, but compatible hunting and trapping would remain open at Oxford Slough WPA.

Opportunities for observation and education would improve as additional facilities are developed, and a more diverse array of wetland habitats allows a wider variety of waterbirds and other species to flourish. Two turn-out parking areas (one with an observation platform and spotting scope) would be constructed along Merkley Lake Road, above the Mud Lake Unit. As in Alternative 2, a boardwalk and viewing platform would be constructed on the southeast border of the Refuge along North Beach Road; plans for a combined Refuge office and visitor contact station on or near the Refuge would be completed within 5 years of CCP completion, and funding would be sought to construct these facilities; a new staff position would be dedicated to public outreach, and developing and delivering on-site interpretive and environmental education programs to local schools and community groups.

Please indicate “Attn: 1004–XXXX” regardless of the form of your comments.

FOR FURTHER INFORMATION CONTACT:
Allison Sandoval, at 202–208–4294. Persons who use a telecommunication device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339, to leave a message for Ms. Sandoval. You may also review the information collection request online at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act (44 U.S.C. 3501–3521) and OMB regulations at 5 CFR part 1320 provide that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond. In order to obtain and renew an OMB control number, Federal agencies are required to seek public comment on information collection and recordkeeping activities (see 5 CFR 1320.8(d) and 1320.12(a)).

As required at 5 CFR 1320.8(d), the BLM published a 60-day notice in the **Federal Register** on December 28, 2011 (76 FR 81523), and the comment period ended February 27, 2012. The BLM received no comments. The BLM now requests comments on the following subjects:

1. Whether the collection of information is necessary for the proper functioning of the BLM, including whether the information will have practical utility;

2. The accuracy of the BLM's estimate of the burden of collecting the information, including the validity of the methodology and assumptions used;

3. The quality, utility and clarity of the information to be collected; and

4. How to minimize the information collection burden on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other forms of information technology.

Please send comments as directed under **ADDRESSES** and **DATES**. Please refer to OMB control number 1004–XXXX in your correspondence. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
