W, thence northwest along the shoreline to the point of origin.

(iii) **Elliott Bay East General Anchorage.** All waters inside the area beginning at latitude 47°35′25.8″ N, longitude 122°20′45.5″ W; thence 000°T to latitude 47°35′55.85″ N, longitude 122°20′45.5″ W; thence 270°T to latitude 47°35′55.85″ N, longitude 122°21′30″ W; thence 180°T to latitude 47°35′19.2″ N, longitude 122°21′30″ W; thence east along the shoreline to the point of origin.

(iv) **Elliott Bay West General Anchorage.** All waters inside the area beginning at latitude 47°35′30″ N, longitude 122°21′41″ W; thence 000°T to latitude 47°35′45.5″ N, longitude 122°21′41″ W; thence 336°T to latitude 47°35′55.85″ N, longitude 122°21′48.5″ W; thence 270°T to latitude 47°35′55.85″ N, longitude 122°23′16.46″ W; thence 180°T to Duwamish Head thence southeast following the shoreline to latitude 47°35′30″ N, longitude 122°22′54.5″ W; thence 090°T to the point of origin.

8) **Yukon Harbor General Anchorage.** All waters inside the area beginning at latitude 47°33′54.66″ N, longitude 122°31′54.68″ W; thence 106°T to latitude 47°33′23″ N, longitude 122°29′05″ W; thence 180°T to latitude 47°32′39.5″ N, longitude 122°29′05″ W; thence south along the eastern shoreline of Blake Island to latitude 47°31′48″ N, longitude 122°29′21″ W; thence 250°T to latitude 47°31′20.5″ N, longitude 122°23′10″ W; thence west and north along the Kitsap Peninsula shoreline to the point of origin.

9) **Cherry Point General Anchorage.** The waters within a circular area with a radius of 1600 yards, having its center at latitude 48°48′29.99″ N., longitude 122°46′04.66″ W.

10) **Anacortes General Anchors.**

(i) **Anacortes East (ANE) Anchorage.** The waters within a circular area with a radius of 600 yards, having its center at 48°31′27″ N., 122°33′45″ W.

(ii) **Anacortes Center (ANC) Anchorage.** The waters within a circular area with a radius of 600 yards, having its center at 48°30′54″ N. 122°34′06″ W.

(iii) **Anacortes West (ANW) Anchorage.** The waters within a circular area with a radius of 600 yards, having its center at 48°31′09″ N., 122°34′55″ W.

11) **Cap Sante Tug and Barge General Anchorage.** The Cap Sante Tug and Barge General Anchorage includes all waters enclosed by a line connecting the following points: 48°31′16″ N, 122°36′00″ W, which is approximately the northeast tip of Cap Sante; then southwest to 48°30′53″ N, 122°35′28″ W; then west southwest to 48°30′45″ N, 122°35′52″ W, approximately the south tip of Cap Sante; then north along the shoreline to the point of origin.

12) **Hat Island Tug and Barge General Anchorage.** The Hat Island Tug and Barge General Anchorage includes all waters enclosed by a line connecting the following points: 48°31′19″ N, 122°33′04″ W, near the west side of Hat Island; then southwest to 48°30′37″ N, 122°33′38″ W; then east to 48°30′37″ N, 122°32′00″ W; then northwest to the point of origin.

13) **Commencement Bay General Anchorage.** A quadrilateral area bounded as follows: Beginning at latitude 47°17′36.36″ N., longitude 122°26′04.45″ W.; thence due south to latitude 47°17′18.36″ N., longitude 122°26′04.45″ W.; thence due east to a point bearing 286°T from Hylebos Waterway Light 1 at a distance of 450 yards; thence due north to latitude 47°17′32.36″ N longitude 122°25′04.45″ W; thence west northwest to the point of origin.

14) **Non-anchorage area Port Angeles Harbor.** Beginning at a point on the shore at latitude 48°07′03.83″ N., longitude 123°24′20.67″ W.; thence to latitude 48°07′38.43″ N., longitude 123°24′04.67″ W.; thence to latitude 48°07′36.03″ N., longitude 123°23′50.67″ W.; thence to a point on the shoreline at latitude 48°06′56.73″ N., longitude 123°24′08.67″ W.

(i) No vessel may anchor in this non-anchorage area at any time.

(ii) Dragging, seining, fishing, or other activities which may foul underwater installations within this non-anchorage area are prohibited.

(iii) Vessels may transit this non-anchorage area, but must proceed by the most direct route and without unnecessary delay.

**Note to paragraph (a)(14):** The city of Port Angeles will mark this area with signs on the shoreline visible (during normal daylight) 1 mile to seaward reading, “Do not Anchor in This Area.”

(EPA–R03–OAR–2012–0119; FRL–9736–2)

Approval and Promulgation of Air Quality Implementation Plans; West Virginia; The 2002 Base Year Inventory for the Huntington Area

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve the fine particulate matter (PM\(_{2.5}\) ) 2002 base year emissions inventory portion of the West Virginia State Implementation Plan (SIP) revision submitted by the State of West Virginia, through the West Virginia Department of Environmental Protection (WVDEP), on May 28, 2009 for the Huntington-Ashland, WV–KY–OH nonattainment area (hereafter referred to as the Huntington Area). The emissions inventory is part of the West Virginia May 28, 2009 SIP revision that was submitted to meet nonattainment requirements related to West Virginia’s portion of the Huntington Area for the 1997 PM\(_{2.5}\) National Ambient Air Quality Standard (NAAQS) SIP. EPA is proposing to approve the 2002 base year PM\(_{2.5}\) emissions inventory for the Huntington Area in accordance with the requirements of the Clean Air Act (CAA).

DATES: Written comments must be received on or before November 1, 2012.

ADDRESSES: Submit your comments, identified by Docket ID Number EPA–R03–OAR–2012–0119 by one of the following methods:

A. www.regulations.gov. Follow the on-line instructions for submitting comments.

B. Email: mastro.donna@epa.gov.

D. Hand Delivery: At the previously-listed EPA Region III address. Such deliveries are only accepted during the Docket’s normal hours of operation, and special arrangements should be made for deliveries of boxed information.

Instructions: Direct your comments to Docket ID No. EPA–R03–OAR–2012–0119. EPA’s policy is that all comments received will be included in the public docket without change, and may be made available online at www.regulations.gov, including any
SUPPLEMENTARY INFORMATION:

I. Background

Throughout this document, whenever "we," "us," or "our" is used, we mean EPA. On July 18, 1997 (62 FR 38652), EPA promulgated the 1997 PM 2.5 NAAQS, including an annual standard of 15.0 micrograms per cubic meter (µg/m^3) based on a 3-year average of annual mean PM 2.5 concentrations, and a 24-hour (or daily) standard of 65µg/m^3 based on a 3-year average of the 98th percentile of 24-hour concentrations. EPA established the standards based on significant evidence and numerous health studies demonstrating that serious health effects are associated with exposures to PM 2.5.

Following promulgation of a new or revised NAAQS, EPA is required by the CAA to designate areas throughout the United States as attaining or not attaining the NAAQS; this designation process is described in section 107(d)(1) of the CAA. In 1999, EPA and state air quality agencies initiated the monitoring process for the 1997 PM 2.5 NAAQS and, by January 2001, established a complete set of air quality monitors. On January 5, 2005, EPA promulgated initial air quality designations for the 1997 PM 2.5 NAAQS (70 FR 944), which became effective on April 5, 2005, based on air quality monitoring data for calendar years 2001–03.

On April 14, 2005, EPA promulgated a supplemental rule amending the agency’s initial designations (70 FR 19844), with the same effective date (April 5, 2005) at 70 FR 944. As a result of this supplemental rule, PM 2.5 nonattainment designations are in effect for 39 areas, comprising 208 counties within 20 states (and the District of Columbia) nationwide, with a combined population of approximately 88 million. The Huntington Area which is the subject of this rulemaking was included in the list of areas not attaining the 1997 PM 2.5 NAAQS. The West Virginia portion of the Huntington Area consists of Cabell and Wayne Counties and the Graham Tax District in Mason County. On September 7, 2011 (76 FR 55542), EPA determined that West Virginia had attained the 1997 PM 2.5 NAAQS in the Huntington Area. That determination was based on complete, quality-assured, quality-controlled, and certified ambient air monitoring data for the 2008–2010 three-year period that showed the area attained the 1997 PM 2.5 NAAQS and continues to attain the standard. The September 7, 2011 determination suspended the requirements for West Virginia to submit an attainment demonstration, associated reasonably available control measures, a reasonable further progress plan, contingency measures, and other planning SIP revisions related to attainment of the standard for so long as the nonattainment area continues to meet the 1997 PM 2.5 NAAQS. Section 172(c)(3) of the CAA requires submission and approval of a comprehensive, accurate, and current inventory of actual emissions. This proposed approval is limited to the emissions inventory for the Huntington Area. Separate action will be taken on the remainder of West Virginia’s SIP submittal.

II. Summary of SIP Revision

The 2002 base year emission inventory submitted by WVDEP on May 28, 2009 for the Huntington Area includes emissions estimates that cover the general source categories of point sources, non-road mobile sources, area sources, on-road mobile sources, and biogenic sources. The pollutants that comprise the inventory are nitrogen oxides (NOx), volatile organic compounds (VOCs), PM 2.5, coarse particles (PM10), ammonia (NH3) and sulfur dioxide (SO2). EPA has reviewed the results, procedures and methodologies for the base year emissions inventory submitted by WVDEP. The year 2002 was selected by WVDEP as the base year for the emissions inventory per 40 CFR 51.1008(b). A discussion of the emissions inventory development as well as the emissions inventory for the Huntington Area can be found in Appendices C and D of the May 28, 2009 SIP submittal.

Table 1, below, provides a summary of the annual 2002 emissions of NOx, VOCs, PM 2.5, PM10, NH3 and SO2 for the West Virginia portion of the Huntington Area submittal.

The CAA section 172(c)(3) emissions inventory is developed by the incorporation of data from multiple sources. States were required to develop and submit to EPA a triennial emissions inventory according to the Consolidated Emissions Reporting Rule (CERR) for all source categories (i.e., point, area, nonroad mobile and on-road mobile). The review and evaluation of the methods used for the emissions inventory submitted by West Virginia are found in the Technical Support Document dated August 12, 2010, available online at www.regulations.gov, Docket No. EPA–R03–OAR–2012–0119. EPA finds that the process used to develop this emissions inventory for the Huntington Area is adequate to meet the requirements of CAA section 172(c)(3), the implementing regulations, and EPA guidance for emission inventories.

III. Proposed Action

EPA is proposing to approve the 2002 base year emissions inventory portion of the SIP revision submitted by the State of West Virginia on May 28, 2009 for the Huntington Area. We have made the determination that this action is consistent with section 110 of the CAA. EPA is soliciting public comments on the issues discussed in this document. These comments will be considered before taking final action.

IV. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely proposes to approve state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993); and
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);
  - Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);
  - Does not contain any unfunded mandate or significantly or uniquely affecting small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
  - Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
  - Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
  - Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
  - Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would not be inconsistent with the CAA; and
  - Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this proposed rule, pertaining to the PM2.5 2002 base year emissions inventory portion of the West Virginia SIP for the Huntington Area, does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Nitrogen dioxide, Particulate matter, Reporting and recordkeeping requirements, Sulfur oxides, Volatile organic compounds.

Authority: 42 U.S.C. 7401 et seq.

Dated: September 13, 2012.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

Approval and Promulgation of Air Quality Implementation Plans; West Virginia; The 2002 Base Year Inventory for the Parkersburg Area

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve the fine particulate matter (PM2.5) 2002 base year emissions inventory portion of the West Virginia State Implementation Plan (SIP) revision submitted by the State of West Virginia, through the West Virginia Department of Environmental Protection (WVDEP), on September 9, 2008 for the Parkersburg-Marietta, WV–OH nonattainment area (hereafter referred to as the Parkersburg Area or Area). The emissions inventory is part of the West Virginia September 9, 2008 SIP revision that was submitted to meet nonattainment requirements related to West Virginia’s portion of the Parkersburg Area for the 1997 PM2.5 National Ambient Air Quality Standard (NAAQS) SIP. EPA is proposing to approve the 2002 base year PM2.5 emissions inventory for the Parkersburg Area in accordance with the requirements of the Clean Air Act (CAA).

DATES: Written comments must be received on or before November 1, 2012.
