

consistent with the Fishlake Land and Resource Management Plan.

Estimated Dates for Filing—The draft EIS is expected to be filed with the Environmental Protection Agency and available for public review in May 2013. A 45-day comment period will follow publication of a Notice of Availability of the draft EIS in the **Federal Register**. Comments received on the draft EIS will be used in preparation of the final EIS, expected in August 2013. A Record of Decision (ROD) will also be issued at that time along with the publication of a Notice of Availability of the final EIS and ROD in the **Federal Register**.

Reviewer's Obligation to Comment—The Forest Service believes it is important at this early stage to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of the draft EIS must structure their participation in the environmental review of the proposal in such a way that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 513 (1978). Also, environmental objections that could be raised at the draft EIS stage but that are not raised until after completion of the final EIS may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir, 1986), and *Wisconsin Heritages Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis., 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period of the draft EIS in order that substantive comments and objections are available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final EIS. To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments should be as specific as possible. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.
