Needs and Uses: The Commission is now submitting this collection to the Office of Management and Budget (OMB) for approval of a revision of this

information collection. The Commission's previous burden estimates have not changed.

On April 9, 2012, the Commission adopted final rules in a Third Report and Order, DA12-550, which adopts the 2011 revision of the hearing aid compatibility technical standard (ANSI Standard) as an applicable technical standard alongside the 2007 version that is already in the Commission's rules.

Under the 2011 ANSI Standard, the Commission tailored its existing disclosure requirements to address new situations that may arise. Specifically, the Commission adopted a requirement to inform users about any operations in handsets that a manufacturer may have tested under the 2011 version of the ANSI Standard and found not to meet hearing aid compatibility criteria for those operations. The Commission also adopted a requirement to make disclosure about any handsets that have not been tested for the inductive coupling capability of Voice over Long Term Evolution (VoLTE) transmissions.

The Commission is now modifying the FCC Form 655 to collect information that is relevant to the newly effective provisions of the rule and to clarify and streamline existing fields. See the 60 day notice published in the **Federal Register** on July 30, 2012 (77 FR 444614) for the specific changes made to the form.
