

timely request for a new shipper review ("NSR") of the antidumping duty order on certain frozen fish fillets ("fish") from the Socialist Republic of Vietnam ("Vietnam"). The Department has determined that the request meets the statutory and regulatory requirements for initiation. The period of review ("POR") for this NSR is August 1, 2011, through July 31, 2012.

FOR FURTHER INFORMATION CONTACT: Alexander Montoro, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: 202-482-0238.

SUPPLEMENTARY INFORMATION:

Background

The antidumping duty order on fish from Vietnam was published on August 12, 2003.¹ On August 31, 2012, pursuant to section 751(a)(2)(B)(i) of the Tariff Act of 1930, as amended (the "Act"), and 19 CFR 351.214, the Department received a NSR request from Golden Quality Seafood Corporation ("Golden Quality").² The requesting company certified that it is a producer and exporter of the subject merchandise upon which the request was based.³

Pursuant to section 751(a)(2)(B)(i)(I) of the Act and 19 CFR 351.214(b)(2)(i), the requesting company certified that it did not export subject merchandise to the United States during the period of investigation ("POI").⁴ In addition, pursuant to section 751(a)(2)(B)(i)(II) of the Act and 19 CFR 351.214(b)(2)(iii)(A), the requesting company certified that, since the initiation of the investigation, it has never been affiliated with any Vietnamese exporter or producer who exported subject merchandise to the United States during the POI, including those respondents not individually examined during the investigation.⁵ As required by 19 CFR 351.214(b)(2)(iii)(B), the requesting company also certified that its export activities were not controlled by the central government of Vietnam.⁶

In addition to the certifications described above, pursuant to 19 CFR 351.214(b)(2)(iv), the requesting company submitted documentation establishing the following: (1) The date

on which it first shipped subject merchandise for export to the United States; (2) the volume of its first shipment; and (3) the date of its first sale to an unaffiliated customer in the United States.⁷

Initiation of New Shipper Review

Pursuant to section 751(a)(2)(B) of the Act and 19 CFR 351.214(d)(1), and based on the documentation provided by Golden Quality, we find that the request submitted by Golden Quality meets the threshold requirements for initiation of the NSR for shipments of fish from Vietnam.⁸ The POR is August 1, 2011, through July 31, 2012.⁹ The Department intends to issue the preliminary results of this NSR no later than 180 days from the date of initiation, and the final results no later than 270 days from the date of initiation.¹⁰

We will instruct U.S. Customs and Border Protection ("CBP") to allow, at the option of the importer, the posting, until the completion of the review, of a bond or security in lieu of a cash deposit for each entry of the subject merchandise from the requesting company in accordance with section 751(a)(2)(B)(iii) of the Act and 19 CFR 351.214(e). Because Golden Quality certified that it both produced and exported the subject merchandise, the sale of which is the basis for the new shipper review request, we will instruct CBP to permit the use of a bond only for subject merchandise which Golden Quality both produced and exported.

Interested parties requiring access to proprietary information in this NSR should submit applications for disclosure under administrative protective order, in accordance with 19 CFR 351.305 and 19 CFR 351.306.

This initiation and notice are in accordance with section 751(a)(2)(B) of the Act, 19 CFR 351.214, and 19 CFR 351.221(c)(1)(i).

Dated: September 21, 2012.

Gary Taverman,

Senior Advisor for Antidumping and Countervailing Duty Operations.

Stony Brook University, et al.; Notice of Consolidated Decision on Applications for Duty-Free Entry of Electron Microscope

This is a decision consolidated pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, as amended by Pub. L. 106-36; 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 a.m. and 5 p.m. in Room 3720, U.S. Department of Commerce, 14th and Constitution Avenue NW., Washington, DC.

Docket Number: 12-034. *Applicant:* Stony Brook University, Stony Brook, NY 11794. *Instrument:* Electron Microscope. *Manufacturer:* JEOL Ltd., Japan. *Intended Use:* See notice at 77 FR 55185, September 7, 2012.

Docket Number: 12-035. *Applicant:* The City College of New York, New York, NY 10031. *Instrument:* Electron Microscope. *Manufacturer:* JEOL Ltd., Japan. *Intended Use:* See notice at 77 FR 55185, September 7, 2012.

Comments: None received. *Decision:* Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, is being manufactured in the United States at the time the instrument was ordered. *Reasons:* Each foreign instrument is an electron microscope and is intended for research or scientific educational uses requiring an electron microscope. We know of no electron microscope, or any other instrument suited to these purposes, which was being manufactured in the United States at the time of order of each instrument.

Dated: September 27, 2012.

Gregory W. Campbell,

Director, Subsidies Enforcement Office, Import Administration.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before December 3, 2012.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at jjessup@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Erica Kuligowski, erica.kuligowski@nist.gov, 301-975-2309.

SUPPLEMENTARY INFORMATION:

I. Abstract

This is a reinstatement with change of a previously approved information collection. The questionnaire approved by the Office of Management and Budget (OMB) in August 2011 has been revised in order to be a more effective tool for gathering information on the use of elevators during building evacuations. Some questions and possible answers to those questions have been revised or modified to ensure privacy of possible respondents.

NIST's research on elevators has primarily focused on the technical aspects of ensuring safe and reliable evacuation for the occupants of tall buildings. In addition, the International Code Council and the National Fire Protection Association provide requirements for the use of elevators for both occupant evacuation and fire fighter access into the building. However, there still is little understanding of how occupants use elevator systems during fire emergencies.

The main focus of this research effort is to gain an understanding of how elevators are currently used by occupants of existing multi-story buildings in the United States during fire emergencies. This research aims to summarize emergency plans and procedures from buildings that make use of one or multiple elevators from the existing elevator system (used for normal building traffic) for the evacuation of building occupants during

fire emergencies. Building managers and designated safety personnel from existing buildings in the United States, including federal buildings, will be contacted to fill out a questionnaire asking about how the buildings' evacuation plans incorporate the use of the existing elevator system to evacuate occupants during fire emergencies, specifically individuals with disabilities, if at all.

II. Method of Collection

This data will be collected electronically. Questionnaires will be made available on a secured Web site and the link to this Web site will be distributed by NIST staff to building property managers and designated safety personnel.

III. Data

OMB Control Number: 0693-0061.

Form Number: None.

Type of Review: Regular submission (reinstatement with change).

Affected Public: Selected individuals, such as building managers and designated safety personnel, who are familiar with or in charge of developing emergency procedures for multi-story buildings in the United States, including both federal and private sector buildings.

Estimated Number of Respondents: 1,500.

Estimated Time per Response: 15 minutes.

Estimated Total Annual Burden Hours: 375 hours each year.

Estimated Total Annual Cost to Public: \$0.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: September 28, 2012.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

SUPPLEMENTARY INFORMATION:

I. Abstract

The 1982 Convention on the Conservation of Antarctic Marine Living Resources (Convention) established the Commission for the Conservation of Antarctic Marine Living Resources (CCAMLR). CCAMLR meets annually to adopt measures to conserve and manage the marine living resources of the Convention Area. The United States is a Contracting Party to the Convention and a member of CCAMLR and its Scientific Committee. The Antarctic Marine Living Resources Convention Act (AMLRCA) directs and authorizes the United States to take actions necessary to meet its treaty obligations as a Contracting Party to the Convention. The regulations
