

c. Applicability of MOBILE6.2-Based Budgets

Pursuant to the State's request, EPA is proposing that, if we finalize the approval of the revised budgets, the state's existing MOBILE6.2-based budgets will no longer be applicable for transportation conformity purposes upon the effective date of that final approval.

In addition, once EPA approves the MOVES2010a-based budgets, the regional transportation conformity grace period for using MOBILE6 instead of MOVES2010 (and subsequent minor revisions) for the pollutants included in these budgets will end for the South Bend-Elkhart ozone maintenance area on the effective date of that final approval.²

VI. What action is EPA taking?

EPA is proposing in this action that the South Bend-Elkhart, Indiana existing approved budgets for VOCs and NO_x for 2020 for the 1997 8-hour ozone maintenance plan, that were based on the MOBILE6.2 emissions model, be replaced with new budgets based on the MOVES2010a emissions model. Once this proposal is finalized, future transportation conformity determinations would use the new, MOVES2010a-based budgets and would no longer use the existing MOBILE6.2-based budgets. EPA is also proposing to find that the South Bend-Elkhart area's maintenance plan would continue to meet its requirements as set forth under the CAA when these new budgets are included.

VII. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);

- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);

- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);

- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);

- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);

- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and

- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.
