designated area of interest within the danger zone. Patrol aircraft and surface vessels are equipped with marine band radios and may attempt to hail watercraft and request that they leave the designated area and remain clear of the area at a safe distance until launch operations are complete, and launch will not occur until the designated area is clear. Patrol aircraft may also employ the method of warning known as “buzzing” which consists of low flight by the airplane and repeated opening and closing of the throttle. Surveillance vessels may also come close to watercraft and employ flashing light to establish communications to indicate that the watercraft is entering the designated hazard area.

(5) Any watercraft being so warned shall immediately leave the designated area until the conclusion of launch operations, and shall remain at a distance to ensure that it will be safe from falling debris.

(6) Nothing in this regulation shall be intended to prevent commercial fishing or the lawful use of approved waterfowl hunting blinds along the shorelines of the Wallops Flight Facility at Wallops Island, Virginia, provided that all necessary licenses and permits have been obtained from the Virginia Marine Resources Commission, Virginia Department of Game and Inland Fisheries, and U.S. Fish and Wildlife Service. Commercial fishermen and waterfowl hunters must observe all warnings and range clearances during hazardous range operations.

c. **Enforcement.** The regulations in this section shall be enforced by the Director, National Aeronautics and Space Administration, Goddard Space Flight Center, Wallops Flight Facility Wallops Island, Va., or such agencies as he or she may designate.

Dated: October 2, 2012.

James R. Hannon,
Chief, Operations and Regulatory, Directorate of Civil Works.

**FOR FURTHER INFORMATION CONTACT:** Mr. David Olson, Headquarters, Operations and Regulatory Community of Practice, Washington, DC at 202–761–4922, or Ms. Nicole Woodward, Corps of Engineers, Norfolk District, Regulatory Branch, at 757–201–7122.

**SUPPLEMENTARY INFORMATION:**

Executive Summary

The purpose of this regulatory action is to amend an existing restricted area to include areas historically noted on nautical charts as closed to the public and traditionally enforced by the Commander, Naval Weapons Station Yorktown.

The Corps authority to amend this restricted area is Section 7 of the Rivers and Harbors Act of 1917 (40 Stat. 266; 33 U.S.C. 1) and Chapter XIX of the Army Appropriations Act of 1919 (40 Stat. 892; 33 U.S.C. 3).

Background

The proposed rule was published in the April 4, 2012, edition of the Federal Register (77 FR 20331) and the regulations.gov docket number was COE–2011–0038. In response to the proposal, three comments were received. The commenters stated that the proposed rule will have no effect on historic properties and no adverse impacts on natural heritage resources.

In response to a request by the United States Navy, and pursuant to its authorities in Section 7 of the Rivers and Harbors Act of 1917 (40 Stat. 266; 33 U.S.C. 1) and Chapter XIX of the Army Appropriations Act of 1919 (40 Stat. 892; 33 U.S.C. 3), the Corps of Engineers is amending 33 CFR 334.260 to include a permanent restricted area, in the waters of Felgates Creek and Indian Field Creek along the York River in Yorktown, Virginia.

Procedural Requirements

a. **Review Under Executive Order 12866.** This rule is issued with respect to a military function of the Defense Department and the provisions of Executive Order 12866 do not apply.

b. **Review Under the Regulatory Flexibility Act.** This rule has been reviewed under the Regulatory Flexibility Act (Pub. L. 96–354) which requires the preparation of a regulatory flexibility analysis for any regulation that will have a significant economic impact on a substantial number of small entities (i.e., small businesses and small governments). The Corps determined that the restricted area amendment will have practically no economic impact on the public, no anticipated navigational hazard, and no interference with existing waterway traffic. This rule will have no significant economic impact on small entities.

c. **Review Under the National Environmental Policy Act.** This rule will not have a significant impact to the quality of the human environment and, therefore, preparation of an environmental impact statement is not required. An environmental assessment has been prepared. It may be reviewed at the District office listed at the end of the **FOR FURTHER INFORMATION CONTACT** section, above.

d. **Unfunded Mandates Act.** This rule does not impose an enforceable duty among the private sector and, therefore, is not subject to the requirements of Section 202 or 205 of the Unfunded Mandates Reform Act (Pub. L. 104–2, 109 Stat. 48, 2 U.S.C. 1501 et seq.). We have also found under Section 203 of the Act, that small governments will not be significantly or uniquely affected by this rule.

**List of Subjects in 33 CFR Part 334**

Danger zones, Marine safety, Navigation (water), Restricted areas, Waterways.

For the reasons set out in the preamble, the Corps amends 33 CFR part 334 as follows:

**PART 334—DANGER ZONE AND RESTRICTED AREA REGULATIONS**

1. The authority citation for 33 CFR part 334 continues to read as follows:

2. Revise §334.260 to read as follows:

**§334.260** York River, Va.; naval restricted areas.

(a) The areas—(1) Naval mine testing area (prohibited). A rectangular area surrounding Piers 1 and 2, Naval Weapons Station, and extending upstream therefrom, beginning at a point on the shore line at latitude 37°15′25″ N, longitude 76°32′32″ W; thence to latitude 37°15′42″ N.
(2) Naval mine service-testing area (restricted). A rectangular area adjacent to the northeast boundary of the prohibited area described in paragraph (a)(1) of this section, beginning at latitude 37°15′00″ N, longitude 76°31′48″ W; thence to latitude 37°15′05″ N, longitude 76°31′27″ W; thence to a point on the shore line at latitude 37°14′51″ N, longitude 76°31′50″ W; and thence along the shore line to the point of beginning.

(3) Explosives-Handling Berth (Naval). A circular area of 600 yards radius with its center at latitude 37°13′56″ N, longitude 76°28′48″ W.

(4) Felgates Creek (prohibited). Navigable waters of the United States as defined at 33 CFR part 329 within Felgates Creek from the boundary fence line at the mouth to the mean high water line of the head and all associated tributaries. The area contains the entirety of Felgates Creek and all associated tributaries south of the line which begins at latitude 37°16′24″ N, longitude 76°35′12″ W and extends east to latitude 37°16′21″ N, longitude 76°35′00″ W.

(5) Indian Field Creek (prohibited). Navigable waters of the United States as defined at 33 CFR part 329 within Indian Field Creek from the boundary fence line at the mouth to the mean high water line of the head and all associated tributaries. The area contains the entirety of Indian Field Creek and all associated tributaries south of the line which begins at latitude 37°16′05″ N, longitude 76°33′29″ W and extends east to latitude 37°16′01″ N, longitude 76°33′22″ W.

(b) The regulations. (1) All persons and all vessels other than naval craft are forbidden to enter the prohibited area described in paragraph (a)(1) of this section.

(2) Trawling, dragging, and net-fishing are prohibited, and no permanent obstructions may at any time be placed in the area described in paragraph (a)(2) of this section. Upon official notice, vessels authorized to enter the area will be required to vacate the area during the actual mine-laying operation. Persons and vessels entering the area during mine-laying operations by aircraft must proceed directly through the area without delay, except in case of emergency. Naval authorities are required to publish advance notice of mine-laying and/or retrieving operations scheduled to be carried on in the area, and during such published periods of operation, fishing or other aquatic activities are forbidden in the area. No vessel will be denied passage through the area at any time during either mine-laying or retrieving operations.

(3) The Explosives-Handling Berth (Naval) described in paragraph (a)(3) of this section is reserved for the exclusive use of naval vessels and except in cases of emergency no other vessel shall anchor therein without the permission of local naval authorities, obtained through the Captain of the Port, U.S. Coast Guard, Norfolk, Virginia. There shall be no restriction on the movement of vessels through the Explosive-Handling Berth.

(4) Vessels shall not be anchored, nor shall persons in the water approach within 300 yards of the perimeter of the Explosives-Handling Berth (Naval) when that berth is occupied by a vessel handling explosives.

(5) All persons and all vessels are forbidden to enter the prohibited areas described in paragraphs (a)(4) and (a)(5) of this section without prior permission of the enforcing agency.

(6) The regulations of this section shall be enforced by the Commander, Naval Weapons Station Yorktown, Virginia, and such agencies as he/she may designate.

Dated: October 1, 2012.

James R. Hannon,
Chief, Operations and Regulatory Directorate of Civil Works.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

Partial Approval and Partial Disapproval of Air Quality Implementation Plans for Florida, Mississippi, and South Carolina; Section 110(a)(2)(D)(i)(I) Transport Requirements for the 2006 24-Hour Fine Particulate Matter National Ambient Air Quality Standards

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is taking final action to partially approve and partially disapprove revisions to the State Implementation Plans (SIPs) for Florida, Mississippi, and South Carolina submitted on September 23, 2009, October 6, 2009, and September 18, 2009, respectively. EPA is approving the determinations, contained in those submittals, that the existing SIPs for Florida, Mississippi, and South Carolina are adequate to meet the obligations under section 110(a)(2)(D)(i)(I) of the Clean Air Act (CAA or Act) to address state transport requirements with regard to the 2006 24-hour particulate matter (PM2.5) national ambient air quality standard (NAAQS). Specifically, the interstate transport requirements contained in section 110(a)(2)(D)(i)(I) of the CAA prohibit a state’s emissions from significantly contributing to nonattainment or interfering with the maintenance of the NAAQS in any other state. EPA is approving the States’ determinations that their existing SIPs satisfy this requirement and conclusion that additional control measures are not necessary under section 110(a)(2)(D)(i)(I) because emissions from Florida, Mississippi and South Carolina do not contribute significantly to nonattainment or interfere with maintenance of the 2006 24-hour PM2.5 NAAQS in any other state. EPA is also disapproving the SIP submissions from Florida, Mississippi and South Carolina to the extent that they rely on the Clean Air Interstate Rule (CAIR) to meet the 110(a)(2)(D)(i)(I) requirements for the 2006 24-hour PM2.5 NAAQS. Because CAIR does not address the 2006 PM2.5 NAAQS, it cannot be relied upon to satisfy any requirements related to that NAAQS.

DATES: This rule will be effective on November 13, 2012.

 ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA–R04–OAR–2012–0553. All documents in the docket are available on the www.regulations.gov Web site. Although listed in the index, some information is not publicly available, i.e., Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through www.regulations.gov or in hard copy at the Regulatory Development Section, Air Planning Branch, Air, Pesticides and
