

availability of the Census Bureau's statistics or a matter of their accuracy (or both)?

(5) If Interior can obtain all of the information needed for the report from the Census Bureau, should it still conduct a survey to ask Tribes for this or other information?

(6) Regardless of whether Interior uses a survey or Census Bureau data for future reports, Interior is considering using information from the Census Bureau, rather than a survey, for the 2013 report to meet the 2013 deadline. What are your views on this approach?

(7) Are there other options for obtaining this information that Interior should consider?

(8) How should "service population" by the "Tribal level" be defined for this report? For example:

(a) Should it include individuals in the Tribe's general location, or should it include individuals enrolled in the Tribe who may not be in the Tribe's location but may still be eligible for services?

(b) If people are in an area where they may receive services from more than one Tribe, should they be counted only as in the service population of the Tribe in which they are enrolled?

(c) Should service population be measured in terms of geography as opposed to Tribal enrollment?
