14 CFR Part 1

[Docket No. FAA–2012–1043; Amdt. Nos. 1–1]

Night Definition; Technical Amendment

AGENCY: Federal Aviation Administration, DOT.

ACTION: Technical amendment.

SUMMARY: The FAA is correcting the title of the publication “American Air Almanac” to its current title “Air Almanac”. This document corrects this minor technical error in the codified regulations.

DATES: Effective October 12, 2012.

FOR FURTHER INFORMATION CONTACT: For technical questions concerning this action, contact Ida M. Klepper, Airmen and Airspace Rules Division, Office of Rulemaking, ARM–100, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591; telephone: 202–267–9677; email: Ida.Klepper@faa.gov.

Background

The former “American Air Almanac” was created to meet the general requirements for air navigation in the United Kingdom, the United States, and Canada. In 14 CFR 1.1 the definition of night refers to twilight times as published in the “American Air Almanac”. The “American Air Almanac” publication ceased in 1953 and is currently called the “Air Almanac”. This technical amendment corrects the title of the publication.

Technical Amendment

This technical amendment makes one revision to the codified text § 1.1. The language in § 1.1 incorrectly uses the title “American Air Almanac” when it should read “Air Almanac”. Because the change in this technical amendment results in no substantive change, we find good cause exists under 5 U.S.C. 553(d)(3) to make the amendment effective in less than 30 days.

Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Pittsburgh-Beaver Valley Nonattainment Area Determinations of Attainment of the 1997 Annual Fine Particulate Standard

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is making two determinations regarding the Pittsburgh-Beaver Valley fine particulate matter (PM2.5) nonattainment area (hereafter referred to as “the Pittsburgh Area” or “the Area”). First, EPA determines that the Area has attained the 1997 annual PM2.5 National Ambient Air Quality Standard (NAAQS). This determination of attainment is based upon quality-assured, quality-controlled and certified ambient air monitoring data for the 2008–2010 and 2009–2011 monitoring periods, showing that the Pittsburgh Area has monitored attainment of the 1997 annual PM2.5 NAAQS. In accordance with the EPA’s applicable PM2.5 implementation rule, this determination of attainment suspends the requirements for the Area to submit an attainment demonstration and associated reasonably available control measures (RACM), a reasonable further progress (RFP) plan, contingency measures, and other planning State Implementation Plan (SIP) revisions related to the attainment of the standard for so long as the Area continues to attain the 1997 annual PM2.5 NAAQS. EPA also determines, based on quality-assured, quality-controlled, and certified monitoring data for the 2007–2009 monitoring period, that the Area attained the 1997 annual PM2.5 NAAQS by its applicable attainment date of April 5, 2010. These actions are being taken under the Clean Air Act (CAA).

DATES: This final rule is effective on October 12, 2012.
