**DEPARTMENT OF COMMERCE****Submission for OMB Review; Comment Request**

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

*Agency:* National Oceanic and Atmospheric Administration (NOAA).

*Title:* Drivers' Awareness of and Response to Significant Weather Events and the Correlation of Weather to Road Impacts.

*OMB Control Number:* 0648-0624.

*Form Number(s):* NA.

*Type of Request:* Regular submission (reinstatement without change of a previously approved information collection).

*Number of Respondents:* 1,200.

*Average Hours Per Response:* 6 minutes.

*Burden Hours:* 120.

*Needs and Uses:* This request is for a reinstatement without change of a previously approved information collection. Due to an unusually dry winter, this survey could not be conducted during the OMB approval period.

This project is a joint effort of the University of Utah, NOAA's National Weather Service (NWS), the Utah Department of Transportation (UDOT), and NorthWest WeatherNet (NWN) to investigate and understand the relationship between meteorological phenomena and road conditions, as well as public understanding and response to available forecast information. The events which impact the Salt Lake City metro area during the winter of 2012-2013 will be examined. Through the administration of a targeted survey, important details will be gathered regarding: (a) The information that drivers possessed prior to and during a storm, including knowledge of observed and forecast weather conditions; (b) sources of weather and road information; (c) any modification of travel and/or commute plans, based on event information; (d) anticipation and perception of storm impacts and severity; and (e) perception and behavioral response to messages conveyed by the NWS and UDOT, along with their satisfaction of information provided. Analyses of the information gathered will focus on driver knowledge, perceptions, and decision making. Ultimately, the results of this survey will provide insight on how the Weather Enterprise may more

effectively communicate hazard information to the public in a manner which leads to improved response (*i.e.*, change travel times, modes, *etc.*). With a sufficient level of behavior change, it should be possible to improve safety and reduce the costs associated with weather related congestion and associated delays. Additionally, the project will shed light upon the interrelationship between meteorological phenomena, road conditions, and their combined impact on travel.

*Affected Public:* Individuals or households.

*Frequency:* One time.

*Respondent's Obligation:* Voluntary.  
*OMB Desk Officer:*

*OIRA\_Submission@omb.eop.gov.*

Copies of the above information collection proposal can be obtained by calling or writing Jennifer Jessup, Departmental Paperwork Clearance Officer, (202) 482-0336, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at *JJessup@doc.gov*).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to

*OIRA\_Submission@omb.eop.gov.*

Dated: October 9, 2012.

**Steel Wire Garment Hangers From Taiwan: Final Determination of Sales at Less Than Fair Value**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**SUMMARY:** The Department of Commerce (the "Department") has determined that imports of steel wire garment hangers ("hangers") from Taiwan are being, or are likely to be, sold in the United States at less than fair value ("LTFV"), as provided in section 735 of the Tariff Act of 1930, as amended (the "Act"). The estimated margins of sales at LTFV are listed in the "Continuation of Suspension of Liquidation" section of this notice.

**DATES:** *Effective Date:* October 15, 2012

**FOR FURTHER INFORMATION CONTACT:** Paul Walker, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone-202.482.0413.

**SUPPLEMENTARY INFORMATION:**

**Background**

On August 2, 2012, the Department published in the **Federal Register** the *Preliminary Determination* in the antidumping duty investigation of hangers from Taiwan.<sup>1</sup> No interested party provided case briefs or rebuttal briefs.

**Period of Investigation**

The period of investigation ("POI") is October 1, 2010, through September 30, 2011.

**Scope of Investigation**

The merchandise subject to this investigation is steel wire garment hangers, fabricated from carbon steel wire, whether or not galvanized or painted, whether or not coated with latex or epoxy or similar gripping materials, and whether or not fashioned with paper covers or capes (with or without printing) or nonslip features such as saddles or tubes. These products may also be referred to by a commercial designation, such as shirt, suit, strut, caped, or latex (industrial) hangers.

Specifically excluded from the scope of the investigation are (a) wooden, plastic, and other garment hangers that are not made of steel wire; (b) steel wire garment hangers with swivel hooks; (c) steel wire garment hangers with clips permanently affixed; and (d) chrome plated steel wire garment hangers with a diameter of 3.4 mm or greater.

The products subject to the investigation are currently classified under U.S. Harmonized Tariff Schedule ("HTSUS") subheadings 7326.20.0020 and 7323.99.9080. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise is dispositive.

**Final Determination of Sales at LTFV**

As noted in the *Preliminary Determination*, because the antidumping duty questionnaires sent to the selected respondent, Golden Canyon Ltd. ("Golden Canyon"), were returned as undeliverable, in accordance with our practice, we classified Golden Canyon as an unlocated company and

assigned it the all others rate.<sup>2</sup> For the other selected respondent, Taiwan Hanger Manufacturing Co., Ltd. ("Taiwan Hanger"), in the *Preliminary Determination* we applied facts otherwise available with an adverse inference, because Taiwan Hanger twice received the questionnaire, and then returned the questionnaire to the Department at a later date.<sup>3</sup> We note that our determination here with respect to Golden Canyon and Taiwan Hanger is identical to our determination in the *Preliminary Determination*.<sup>4</sup>

**Continuation of Suspension of Liquidation**

Pursuant to section 735(c)(1)(B) of the Act, we will instruct U.S. Customs and Border Protection ("CBP") to continue to suspend liquidation of all entries of hangers from Taiwan which were entered, or withdrawn from warehouse, for consumption on or after August 2, 2012, the date of publication of the *Preliminary Determination*. We will instruct CBP to require a cash deposit or the posting of a bond equal to the weighted-average margins, as indicated below, as follows: (1) The rates for Golden Canyon and Taiwan Hanger will be the rates we have determined in this final determination; (2) if the exporter is not a firm identified in this investigation but the producer is, the rate will be the rate established for the producer of the subject merchandise; (3) the rate for all other producers or exporters will be 69.98 percent, as discussed in the "All Others Rate" section, below. These suspension-of-liquidation instructions will remain in effect until further notice.

Manufacturer/Exporter	Margin (percent)
Golden Canyon Ltd. ....	69.98
Taiwan Hanger Manufacturing Co., Ltd. ....	125.43
All Others Rate .....	69.98

**All Others Rate**

Section 735(c)(5)(A) of the Act provides that the estimated all others rate shall be an amount equal to the weighted average of the estimated
